SUMMARY SECTIONS

SGI U.S. Large Cap Equity Fund

Investment Objective

The SGI U.S. Large Cap Equity Fund (for this section only, the “Fund”) seeks long-term capital appreciation. There can be no guarantee that the Fund will achieve its investment objective.

Expenses and Fees

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts on Class A Shares if you invest, or agree to invest in the future, at least \$50,000 in the Fund. More information about these and other discounts is available from your financial professional, in the section of this Prospectus entitled “Shareholder Information — Sales Charges” and in the section of the Fund’s Statement of Additional Information (“SAI”) entitled “Purchase and Redemption Information — Reducing or Eliminating the Front-End Sales Charge.”

Shareholder Fees (fees paid directly from your investment)	Class I	Class A	Class C
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	5.25%	None
Maximum Deferred Sales Charge (Load)	None	None ⁽¹⁾	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	0.70%	0.70%	0.70%
Distribution and/or Service (12b-1) Fees	None	0.25%	1.00%
Other Expenses	0.28%	0.28%	0.28%
Total Annual Fund Operating Expenses	<u>0.98%</u>	<u>1.23%</u>	<u>1.98%</u>
Fee Waivers and/or Expense Reimbursements ⁽²⁾	<u>0.00%</u>	<u>0.00%</u>	<u>0.00%</u>
Total Annual Fund Operating Expenses after Fee Waivers and/or Expense Reimbursements	<u>0.98%</u>	<u>1.23%</u>	<u>1.98%</u>

⁽¹⁾ A contingent deferred sales charge of 1.00% is assessed on certain redemptions of Class A Shares made within 18 months after purchase where no initial sales charge was paid at time of purchase as part of an investment of \$1,000,000 or more.

⁽²⁾ Summit Global Investments, LLC (the “Adviser”), the Fund’s investment adviser, has contractually agreed to waive management fees and reimburse expenses through December 31, 2026 to the extent that Total Annual Fund Operating Expenses (excluding certain items discussed below) exceed 0.98%, 1.23% and 1.98% of the Fund’s average daily net assets attributable to Class I Shares, Class A and Class C Shares, respectively. In determining the Adviser’s obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account and are expected to cause net Total Annual Fund Operating Expenses to exceed 0.98%, 1.23% or 1.98%, as applicable: acquired fund fees and expenses, short sale dividend expenses, brokerage commissions, extraordinary items, interest or taxes. This contractual limitation may not be terminated before December 31, 2026 without the approval of the Board of Directors of the Company. If at any time the Fund’s Total Annual Fund Operating Expenses (not including acquired fund fees and expenses, short sale dividend expenses, brokerage commissions,

extraordinary items, interest or taxes) for a year are less than 0.98%, 1.23% and 1.98% of the Fund's average daily net assets attributable to Class I Shares, Class A Shares and Class C Shares, respectively, the Adviser is entitled to reimbursement by the Fund of the advisory fees forgone and other payments remitted by the Adviser to the Fund within three years from the date on which such waiver or reimbursement was made, provided such reimbursement does not cause the Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement.

Example:

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Class A Shares or Class C Shares or \$1,000,000 in the Class I Shares of the Fund and for the time periods indicated and then hold or redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same (taking into account the contractual expense limitation for the first year). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class I Shares	\$9,997	\$31,213	\$54,169	\$120,136
Class A Shares	\$644	\$895	\$1,165	\$1,935
Class C Shares	\$201	\$621	\$1,068	\$2,306

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Example, affect the Fund's performance. For the fiscal year ended August 31, 2025, the Fund's portfolio turnover rate was 171% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund will invest at least 80% of its net assets (including borrowings for investment purposes) in equity securities, primarily common stocks, of companies within the Russell 1000® Index and S&P 500® Index. The Fund's investments will generally consist of securities, which may include common stocks, preferred stocks, warrants to acquire common stock, and securities convertible into common stock. The Fund purchases equity securities traded in the U.S. on registered exchanges or the over-the-counter market. The Fund may invest in other registered investment companies, including exchange-traded funds ("ETFs"). The Fund may also invest in securities of affiliated and unaffiliated ETFs (collectively, "Underlying Funds").

The Adviser attempts to lower the Fund's market risk by investing in U.S. equity securities that lower the overall volatility of the Fund's portfolio as compared to the S&P 500® Index. Volatility is a statistical measurement of the magnitude of up and down fluctuations in the value of a financial instrument or index. The Fund invests in stocks that often exhibit less volatile stock price patterns, strengthening business metrics (i.e., earnings, debt, return on assets, competition, customers, industry, etc.) and quantitative factors such as earnings variability, leverage, volatility, price/book, price/cash flow, etc. The Adviser selects securities for the Fund that it anticipates will produce a portfolio with less volatility with more capital protection and consistent returns. While the Adviser attempts to manage the Fund's volatility, there is no guarantee that the strategy will be successful or that the Fund's portfolio will not experience periods of volatility.

The Fund may sell a stock if the Adviser identifies fundamental or legal risks and/or if the risk/return ranking declines due to increasing risk and/or decreasing return potential. The Fund may also decrease weight in an investment for risk control purposes. The Fund may also seek to increase its income by lending portfolio securities.

Principal Risks

Loss of money is a risk of investing in the Fund. The value of your investment in the Fund, as well as the amount of return you receive on your investment, may fluctuate significantly from day to day and over time. You may lose part or all of your investment in the Fund or your investment may not perform as well as other similar investments. The Fund's principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, regardless of the order in which it appears. Different risks may be more significant at different times depending on market conditions or other factors.

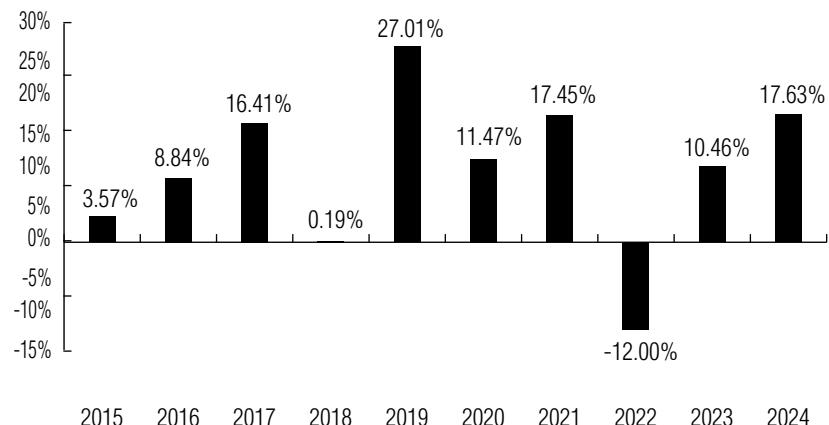

- **Affiliated Fund Risk.** Affiliated fund risk is the risk that the Adviser may select investments for the Fund based on its own financial interests rather than the Fund's interests. The Adviser may be subject to potential conflicts of interest in selecting the Underlying Funds because the fees paid to the Adviser by some affiliated Underlying Funds may be higher than other Underlying Funds or the Underlying Funds may be in need of assets to enhance their appeal to other investors, liquidity and trading and/or to enable them to carry out their investment strategies. However, the Adviser is a fiduciary to the Fund and is legally obligated to act in the Fund's best interest when selecting Underlying Funds.
- **Common Stock Risk.** Investments in common stocks are subject to market, economic and business risks that will cause their price to fluctuate over time. Therefore, an investment in the Fund may be more suitable for long-term investors who can bear the risk of these fluctuations. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds and preferred stock take precedence over the claims of those who own common stock.
- **Convertible Securities Risk.** Securities that can be converted into common stock, such as certain securities and preferred stock, are subject to the usual risks associated with fixed income investments, such as interest rate risk and credit risk. In addition, because they react to changes in the value of the equity securities into which they will convert, convertible securities are also subject to the risks associated with equity securities.
- **Cyber Security Risk.** Cyber security risk is the risk of an unauthorized breach and access to Fund assets, Fund or customer data (including private shareholder information), or proprietary information, or the risk of an incident occurring that causes the Fund, the investment adviser, custodian, transfer agent, distributor and other service providers and financial intermediaries to suffer data breaches, data corruption or lose operational functionality or prevent Fund investors from purchasing, redeeming or exchanging shares or receiving distributions. The use of artificial intelligence and machine learning could exacerbate these risks. The Fund and the Adviser have limited ability to prevent or mitigate cyber security incidents affecting third-party service providers and such third-party service providers may have limited indemnification obligations to the Fund or the Adviser. Successful cyber-attacks or other cyber-failures or events affecting the Fund or its service providers may adversely impact and cause financial losses to the Fund or its shareholders. Issuers of securities in which the Fund invests are also subject to cyber security risks, and the value of these securities could decline if the issuers experience cyber-attacks or other cyber-failures.
- **High Portfolio Turnover Risk.** The risk that when investing on a shorter-term basis, the Fund may as a result trade more frequently and incur higher levels of brokerage fees and commissions and cause higher levels of current tax liability to shareholders of the Fund. A portfolio turnover rate of 100% is considered to be high. The Adviser may engage in active trading, and will not consider portfolio turnover a limiting factor in making decisions for the Fund.
- **Investment Companies and ETFs Risk.** The Fund's investment performance may be affected by the investment performance of the underlying funds in which the Fund may invest. Investing in other investment companies, including affiliated and unaffiliated ETFs, may result in duplication of expenses, including advisory fees, in addition to the Fund's own expenses. The risk of owning an investment company or ETF generally reflects the risks of owning the underlying investments the investment company or ETF holds. The Fund may incur brokerage fees in connection with its purchase of ETF shares. Certain ETFs may be thinly traded and experience large spreads between the "ask" price quoted by a seller and the "bid" price offered by a buyer. The existence of extreme market volatility or potential lack of an active trading market for an ETF's shares could result in such shares trading at a significant premium or discount to their net asset value ("NAV").

- **Large-Cap Companies Risk.** The stocks of large capitalization companies as a group could fall out of favor with the market, causing the Fund to underperform investments that focus solely on small- or medium- capitalization stocks.
- **Low Volatility Risk.** Although subject to the risks of common stocks, low volatility stocks are seen as having a lower risk profile than the overall markets. However, a portfolio comprised of low volatility stocks may not produce investment exposure that has lower variability to changes in such stocks' price levels. Investing in low volatility stocks may limit the Fund's gains in rising markets.
- **Management Risk.** The Fund is subject to the risk of poor investment selection. In other words, the individual investments of the Fund may not perform as well as expected, and/or the Fund's portfolio management practices may not work to achieve their desired result.
- **Market Risk.** The NAV of the Fund will change with changes in the market value of its portfolio positions. Investors may lose money. The value of investments held by the Fund may increase or decrease in response to economic, political, financial, public health crises (such as epidemics or pandemics) or other disruptive events (whether real, expected or perceived) in the U.S. and global markets. Although the Fund will invest in stocks the Adviser believes will produce less volatility, there is no guarantee that the stocks will perform as expected.
- **Mid-Cap Companies Risk.** The stocks of mid-sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies.
- **Opportunity Risk.** As with all mutual funds, the Fund is subject to the risk of missing out on an opportunity because the assets necessary to take advantage of it are tied up in less advantageous investments.
- **Securities Lending Risk.** The Fund may lend portfolio securities to institutions, such as certain broker-dealers. The Fund may experience a loss or delay in the recovery of its securities if the borrowing institution breaches its agreement with the Fund.
- **Warrants Risk.** The purchase of warrants involves the risk that the Fund could lose the purchase value of a warrant if the right to subscribe to additional shares is not executed prior to the warrant's expiration. Also, the purchase of warrants involves the risk that the effective price paid for the warrant added to the subscription price of the related security may exceed the value of the subscribed security's market price such as when there is no movement in the level of the underlying security.

Performance Information

The bar chart below illustrates the performance of the Fund's Class I Shares (the Class with the longest performance). The information shows you how the Fund's performance has varied year by year and provides some indication of the risks of investing in the Fund. The bar chart assumes reinvestment of dividends and distributions. As with all such investments, past performance (before and after taxes) is not an indication of future results. Performance reflects fee waivers in effect. If fee waivers were not in place, the Fund's performance would be reduced. Updated performance information may be obtained at www.sgiam.com or by calling 1-855-744-8500.

TOTAL RETURNS FOR THE CALENDAR YEARS ENDED DECEMBER 31*

* The returns in the bar chart are for Class I Shares. Class A Shares and Class C Shares would have substantially similar annual returns because each class of shares would have invested in the same portfolio of securities, and the annual returns would differ only to the extent that the classes have different expenses. The Fund's Class A Shares are subject to a sales charge (load). Sales charges (loads) or account fees are not reflected in the bar chart and if these amounts were reflected, returns would be less than those shown.

Best and Worst Quarterly Performance (for the period reflected in the chart above):

Best Quarter: 15.02% (quarter ended June 30, 2020)

Worst Quarter: -17.51% (quarter ended March 31, 2020)

The Class I Shares year-to-date total return for the nine months ended September 30, 2025 was 5.24%.

AVERAGE ANNUAL TOTAL RETURNS

The following table, which includes all applicable sales charges (loads) and account fees, compares the Fund's Class I, Class A and Class C Shares average annual total returns for the periods indicated to the average annual total returns of a broad-based securities market index for the same periods. Past performance (before and after taxes) is not necessarily an indicator of how the Fund will perform in the future.

AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIODS ENDED DECEMBER 31, 2024

U.S. Large Cap Equity Fund	1 Year	5 Years	10 Years	SINCE INCEPTION
Class I Shares*				
Return Before Taxes	17.63%	8.40%	9.59%	10.93%
Return After Taxes on Distributions ⁽¹⁾	9.79%	5.58%	7.52%	9.10%
Return After Taxes on Distributions and Sale of Fund Shares ⁽¹⁾	11.58%	5.87%	7.21%	8.56%
Class A Shares**				
Return Before Taxes	11.20%	6.99%	9.33%	10.66%
Class C Shares**				
Return Before Taxes	16.43%	7.43%	8.51%	9.83%
S&P 500® Total Return Index (reflects reinvestment of dividends and no deductions for fees, expenses or taxes) ..	25.02%	14.53%	13.10%	14.18%

¹⁾ After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRAs").

* Class I Shares of the Fund commenced operations on February 29, 2012.

** Class C Shares and Class A Shares of the Fund commenced operations on December 31, 2015 and October 29, 2015, respectively. Since inception index performance is measured as of February 29, 2012.

Management of the Fund

Investment Adviser

Summit Global Investments, LLC

Portfolio Managers

<i>Name</i>	<i>Title with Adviser</i>	<i>Tenure with the Fund</i>
David Harden	President and Portfolio Manager	Since Inception in 2012
Aash Shah, CFA®	Portfolio Manager	Since 2018

Purchase and Sale of Fund Shares

	Minimum Initial Investment	Subsequent Minimum Investment
Class I Shares	\$1,000,000	No minimum
Class A Shares	\$1,000	No minimum
Class C Shares	\$1,000	No minimum

You can purchase and redeem shares of the Fund only on days the New York Stock Exchange (“NYSE”) is open. Shares of the Fund may be available through certain brokerage firms, financial institutions and other industry professionals (collectively, “Service Organizations”). Certain features of the shares, such as the initial and subsequent investment minimums and certain trading restrictions, may be modified or waived by Service Organizations, as further detailed in the section entitled “Purchase of Fund Shares – Purchases Through Intermediaries.” Shares of the Fund may also be purchased and redeemed directly through the Company by the means described below.

Purchase and Redemption By Mail:

SGI U.S. Large Cap Equity Fund
c/o U.S. Bank Global Fund Services
P.O. Box 219252
Kansas City, MO 64121-9252

Overnight Mail:

SGI U.S. Large Cap Equity Fund
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave, Suite 219252
Kansas City, MO 64105-1307

Purchase and Redemption By Wire:

Before sending any wire, call U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (the “Transfer Agent”) at 855-744-8500 to confirm the current wire instructions for the Fund.

Redemption By Telephone:

If you select the option to redeem by telephone on your account application, you may call the Transfer Agent at 855-744-8500.

Tax Information

The Fund intends to make distributions that generally may be taxed at ordinary income or capital gains rates.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

SUMMARY SECTION

SGI Global Equity Fund

Investment Objective

The investment objective of the SGI Global Equity Fund (for this section only, the “Fund”) is to seek long-term capital appreciation. There can be no guarantee that the Fund will achieve its investment objective.

Expenses and Fees

This table describes the fees and expenses that you may pay if you buy, hold, and sell Fund shares. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and example below.** You may qualify for sales charge discounts on Class A Shares if you invest, or agree to invest in the future, at least \$50,000 in the Fund. More information about these and other discounts is available from your financial professional, in the section of this Prospectus entitled “Shareholder Information — Sales Charges” and in the section of the Fund’s Statement of Additional Information (“SAI”) entitled “Purchase and Redemption Information — Reducing or Eliminating the Front-End Sales Charge.”

Shareholder Fees (fees paid directly from your investment)	Class I	Class A	Class C
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	5.25%	None
Maximum Deferred Sales Charge (Load)	None	None ⁽¹⁾	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	0.70%	0.70%	0.70%
Distribution and/or Service (12b-1) Fees	None	0.25%	1.00%
Other Expenses ⁽²⁾	0.36%	0.36%	0.36%
Total Annual Fund Operating Expenses	<u>1.06%</u>	<u>1.31%</u>	<u>2.06%</u>
Fee Waivers and/or Expense Reimbursements ⁽³⁾	<u>-0.22%</u>	<u>-0.22%</u>	<u>-0.22%</u>
Total Annual Fund Operating Expenses after Fee Waivers and/or Expense Reimbursements	<u>0.84%</u>	<u>1.09%</u>	<u>1.84%</u>

⁽¹⁾ A contingent deferred sales charge of 1.00% is assessed on certain redemptions of Class A Shares made within 18 months after purchase where no initial sales charge was paid at time of purchase as part of an investment of \$1,000,000 or more.

⁽²⁾ “Other Expenses” for Class A Shares and Class C Shares, which had not commenced operations as of the date of this Prospectus, are estimated based on Class I Shares for the current fiscal year.

⁽³⁾ Summit Global Investments, LLC (the “Adviser”), the Fund’s investment adviser, has contractually agreed to waive management fees and reimburse expenses through December 31, 2026, to the extent that Total Annual Fund Operating Expenses (excluding certain items discussed below) exceed 0.84%, 1.09%, and 1.84% of the Fund’s average daily net assets attributable to Class I Shares, Class A Shares and Class C Shares, respectively. In determining the Adviser’s obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account and are expected to cause net Total Annual Fund Operating Expenses to exceed 0.84%, 1.09% or 1.84%, as applicable: acquired fund fees and expenses, short sale dividend expenses, brokerage commissions, extraordinary items, interest or taxes. This contractual limitation may not be terminated before December 31, 2026

without the approval of the Board of Directors of the Company. If at any time the Fund's Total Annual Fund Operating Expenses (not including acquired fund fees and expenses, short sale dividend expenses, brokerage commissions, extraordinary items, interest or taxes) for a year are less than 0.84%, 1.09% and 1.84%, of the Fund's average daily net assets attributable to Class I Shares, Class A Shares and Class C Shares, respectively, the Adviser is entitled to reimbursement by the Fund of the advisory fees forgone and other payments remitted by the Adviser to the Fund within three years from the date on which such waiver or reimbursement was made, provided such reimbursement does not cause the Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$1,000,000 in Class I Shares or \$10,000 in Class A Shares or Class C Shares of the Fund for the time periods indicated and that you hold or sell your shares at the end of those periods. The Example also assumes that each year your investment has a 5% return and Fund operating expenses remain the same (taking into account the contractual expense limitation for the first year). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class I Shares	\$8,575	\$31,535	\$56,341	\$127,428
Class A Shares	\$630	\$886	\$1,161	\$1,944
Class C Shares	\$187	\$612	\$1,063	\$2,314

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. Portfolio turnover may vary from year to year, as well as within a year. For the fiscal year ended August 31, 2025, the Fund's portfolio turnover rate was 184% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund invests at least 80% of the value of its net assets, plus any borrowings for investment purposes, in equity securities. The Fund invests, under normal market conditions, significantly (ordinarily at least 40% - unless market conditions are not deemed favorable by the Adviser, in which case the Fund would invest at least 30%) in non-U.S. companies. The Fund defines non-U.S. companies as companies that (i) are organized under the laws of a foreign country; (ii) whose principal trading market is in a foreign country; or (iii) that have a majority of their assets or derive a significant portion of their revenue or profits from businesses, investments or sales, outside of the United States.

The Fund's investments in equity securities include, without limitation, common stocks, preferred stocks, warrants to acquire common stock, and securities convertible into common stock. The Fund's investments will generally consist of securities, which may include common stocks, preferred stocks, warrants to acquire common stock, and securities convertible into common stock. The Fund purchases equity securities traded on registered exchanges or the over-the-counter market. The Fund may invest in securities of foreign issuers either directly or through depository receipts, including American Depository Receipts ("ADRs"). The Fund may invest in other registered investment companies, including exchange-traded funds ("ETFs"). The Fund may also invest in securities of affiliated and unaffiliated ETFs (collectively, "Underlying Funds") The Fund may invest in or have exposure to companies of any size, but primarily invests in large- and mid- capitalization companies.

The Adviser attempts to lower the Fund's market risk by investing in equity securities that lower the overall volatility of the Fund's portfolio as compared to global equity benchmarks. Volatility is a statistical measurement of the magnitude of up and down fluctuations in the value of a financial instrument or index. The Fund invests in stocks that exhibit less volatile stock price patterns, strengthening business metrics (i.e., earnings, debt, return on assets, competition, customers, industry, etc.) and quantitative factors such as earnings variability, leverage, volatility, price/book, price/cash flow, etc.

The Adviser selects securities for the Fund that it anticipates will produce a portfolio with less volatility with more capital protection and consistent returns. While the Adviser attempts to manage the Fund's volatility, there is no guarantee that the strategy will be successful or that the Fund's portfolio will not experience periods of volatility.

The Fund may sell a stock if the Adviser identifies fundamental or legal risks and/or if the risk/return ranking declines due to increasing risk and/or decreasing return potential. The Fund may also decrease weight in an investment for risk control purposes.

Principal Risks

Loss of money is a risk of investing in the Fund. The value of your investment in the Fund, as well as the amount of return you receive on your investment, may fluctuate significantly from day to day and over time. You may lose part or all of your investment in the Fund or your investment may not perform as well as other similar investments. The Fund's principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, regardless of the order in which it appears. Different risks may be more significant at different times depending on market conditions or other factors. The Fund may also seek to increase its income by lending portfolio securities.

- **Affiliated Fund Risk.** Affiliated fund risk is the risk that the Adviser may select investments for the Fund based on its own financial interests rather than the Fund's interests. The Adviser may be subject to potential conflicts of interest in selecting the Underlying Funds because the fees paid to the Adviser by some affiliated Underlying Funds may be higher than other Underlying Funds or the Underlying Funds may be in need of assets to enhance their appeal to other investors, liquidity and trading and/or to enable them to carry out their investment strategies. However, the Adviser is a fiduciary to the Fund and is legally obligated to act in the Fund's best interest when selecting Underlying Funds.
- **Common Stock Risk.** Investments in common stocks are subject to market, economic and business risks that will cause their price to fluctuate over time. Therefore, an investment in the Fund may be more suitable for long-term investors who can bear the risk of these fluctuations.
- **Convertible Securities Risk.** Securities that can be converted into common stock, such as certain securities and preferred stock, are subject to the usual risks associated with fixed income investments, such as interest rate risk and credit risk. In addition, because they react to changes in the value of the equity securities into which they will convert, convertible securities are also subject to the risks associated with equity securities.
- **Currency Risk.** Investment in foreign securities also involves currency risk associated with securities that trade or are denominated in currencies other than the U.S. dollar and which may be affected by fluctuations in currency exchange rates. An increase in the strength of the U.S. dollar relative to a foreign currency may cause the U.S. dollar value of an investment in that country to decline. Foreign currencies also are subject to risks caused by inflation, interest rates, budget deficits and low savings rates, political factors and government controls.
- **Cyber Security Risk.** Cyber security risk is the risk of an unauthorized breach and access to Fund assets, Fund or customer data (including private shareholder information), or proprietary information, or the risk of an incident occurring that causes the Fund, the investment adviser, custodian, transfer agent, distributor and other service providers and financial intermediaries to suffer data breaches, data corruption or lose operational functionality or prevent Fund investors from purchasing, redeeming or exchanging shares or receiving distributions. The use of artificial intelligence and machine learning could exacerbate these risks. The Fund and the Adviser have limited ability to prevent or mitigate cyber security incidents affecting third-party service providers and such third-party service providers may have limited indemnification obligations to the Fund or the Adviser. Successful cyber-attacks or other cyber-failures or events affecting the Fund or its service providers may adversely impact and cause financial losses to the Fund or its shareholders. Issuers of securities in which the Fund invests are also subject to cyber security risks, and the value of these securities could decline if the issuers experience cyber-attacks or other cyber-failures.
- **Foreign Custody Risk.** The Fund may hold foreign securities and cash with foreign banks, agents, and securities depositories appointed by the Fund's custodian (each a "Foreign Custodian"). Some Foreign Custodians may be recently organized or new to the foreign custody business. In some countries, Foreign Custodians may be subject

to little or no regulatory oversight over or independent evaluation of their operations. Further, the laws of certain countries may place limitations on the Fund's ability to recover its assets if a Foreign Custodian enters bankruptcy. Investments in emerging markets may be subject to even greater custody risks than investments in more developed markets. Custody services in emerging market countries are very often undeveloped and may be considerably less well-regulated than in more developed countries, and thus may not afford the same level of investor protection as would apply in developed countries.

- **Foreign Securities Risk.** International investing may be subject to special risks, including, but not limited to, currency exchange rate volatility, political, social or economic instability, less publicly available information, less stringent investor protections and differences in taxation, auditing and other financial practices. Foreign securities in which the Fund invests may be traded in markets that close before the time that the Fund calculates its net asset value ("NAV"). Furthermore, certain foreign securities in which the Fund invests may be listed on foreign exchanges that trade on weekends or other days when the Fund does not calculate its NAV. As a result, the value of the Fund's holdings may change on days when shareholders are not able to purchase or redeem the Fund's shares.
- **High Portfolio Turnover Risk.** The risk that when investing on a shorter-term basis, the Fund may as a result trade more frequently and incur higher levels of brokerage fees and commissions and cause higher levels of current tax liability to shareholders of the Fund. A portfolio turnover rate of 100% is considered to be high. For the last fiscal year, the annual portfolio turnover rate of the Fund was lower than 100%, but the Fund's portfolio turnover rate is expected to vary from year to year. The Adviser may engage in active trading, and will not consider portfolio turnover a limiting factor in making decisions for the Fund.
- **Investment Companies and ETFs Risk.** The Fund's investment performance may be affected by the investment performance of the Underlying Funds in which the Fund may invest. Investing in other investment companies, including affiliated and unaffiliated ETFs, may result in duplication of expenses, including advisory fees, in addition to the Fund's own expenses. The risk of owning an investment company or ETF generally reflects the risks of owning the underlying investments the investment company or ETF holds. The Fund may incur brokerage fees in connection with its purchase of ETF shares. Certain ETFs maybe thinly traded and experience large spreads between the "ask" price quoted by a seller and the "bid" price offered by a buyer. The existence of extreme market volatility or potential lack of an active trading market for an ETF's shares could result in such shares trading at a significant premium or discount to their NAV.
- **Large-Cap Companies Risk.** The stocks of large capitalization companies as a group could fall out of favor with the market, causing the Fund to underperform investments that focus solely on small- or medium- capitalization stocks.
- **Low Volatility Risk.** Although subject to the risks of common stocks, low volatility stocks are seen as having a lower risk profile than the overall markets. However, a portfolio comprised of low volatility stocks may not produce investment exposure that has lower variability to changes in such stocks' price levels. Investing in low volatility stocks may limit the Fund's gains in rising markets.
- **Management Risk.** The Fund is subject to the risk of poor investment selection. In other words, the individual investments of the Fund may not perform as well as expected, and/or the Fund's portfolio management practices may not work to achieve their desired result.
- **Market Risk.** The NAV of the Fund will change with changes in the market value of its portfolio positions. Investors may lose money. The value of investments held by the Fund may increase or decrease in response to economic, political, financial, public health crises (such as epidemics or pandemics) or other disruptive events (whether real, expected or perceived) in the U.S. and global markets. Although the Fund will invest in stocks the Adviser believes will produce less volatility, there is no guarantee that the stocks will perform as expected.
- **Mid-Cap Companies Risk.** The stocks of mid-sized companies may be subject to more abrupt or erratic market movements than stocks of larger, more established companies.
- **Opportunity Risk.** As with all mutual funds, the Fund is subject to the risk of missing out on an opportunity because the assets necessary to take advantage of it are tied up in less advantageous investments.

- **Securities Lending Risk.** The Fund may lend portfolio securities to institutions, such as certain broker-dealers. The Fund may experience a loss or delay in the recovery of its securities if the borrowing institution breaches its agreement with the Fund
- **Warrants Risk.** The purchase of warrants involves the risk that the Fund could lose the purchase value of a warrant if the right to subscribe to additional shares is not executed prior to the warrant's expiration. Also, the purchase of warrants involves the risk that the effective price paid for the warrant added to the subscription price of the related security may exceed the value of the subscribed security's market price such as when there is no movement in the level of the underlying security.

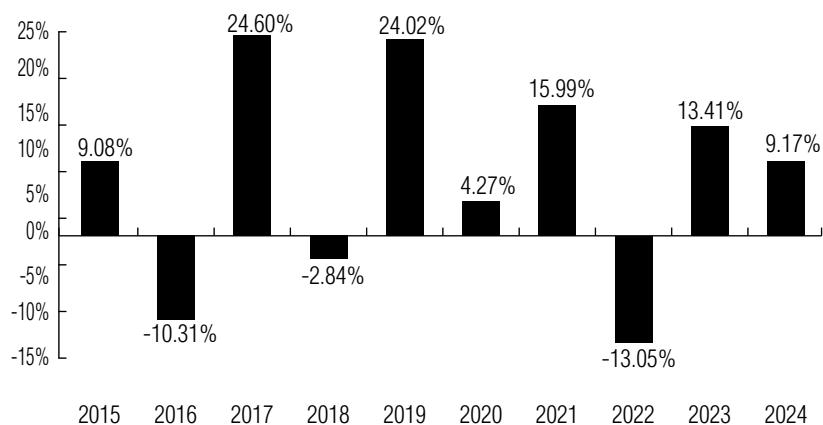

Performance Information

Returns shown were generated under the management of the Fund's former investment adviser and reflect a previous investment strategy. The Fund operated as a series of Scotia Institutional Funds prior to the close of business on March 21, 2014 (the "Predecessor Fund"). Before the Fund commenced operations, all of the assets and liabilities of the Predecessor Fund were transferred to the Fund in a tax-free reorganization (the "Reorganization"). The Reorganization occurred on March 21, 2014. As a result of the Reorganization, the Fund assumed the performance and accounting history of the Predecessor Fund prior to the date of the Reorganization. The performance shown for periods prior to March 21, 2014 is that of the Predecessor Fund.

The Board approved the Adviser to serve as the Global Equity Fund's investment adviser effective January 1, 2017. Returns shown for periods prior to January 1, 2017 were generated under the management of the Global Equity Fund's former investment adviser.

The bar chart below illustrates the performance of the Fund's Class I Shares. Performance for Class A Shares and Class C Shares is not shown because Class A Shares and Class C Shares had not commenced operations prior to the date of this Prospectus. The information shows you how the Fund's performance has varied year by year and provides some indication of the risks of investing in the Fund. The bar chart assumes reinvestment of dividends and distributions. As with all such investments, past performance (before and after taxes) is not an indication of future results. Performance reflects fee waivers in effect. If fee waivers were not in place, the Fund's performance would be reduced. Updated performance information may be obtained at www.sgiam.com or by calling 855-744-8500.

TOTAL RETURNS FOR THE CALENDAR YEARS ENDED DECEMBER 31

Best and Worst Quarterly Performance (for the period reflected in the chart above):

Best Quarter: 12.68% (quarter ended June 30, 2020)

Worst Quarter: -19.41% (quarter ended March 31, 2020)

The year-to-date total return for the nine months ended September 30, 2025 was 10.32%.

AVERAGE ANNUAL TOTAL RETURNS

The table below compares the Fund's Class I Shares average annual total returns for the periods indicated to the average annual total returns of a broad-based securities market index for the same periods. Past performance (before and after taxes) is not necessarily an indicator of how the Fund will perform in the future.

AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIODS ENDED DECEMBER 31, 2024

Global Equity Fund	1 Year	5 Years	10 Years	Since Inception (April 1, 2009)*
Return Before Taxes	9.17%	5.42%	6.70%	12.94%
Return After Taxes on Distributions ⁽¹⁾	3.54%	3.79%	5.55%	11.36%
Return After Taxes on Distributions and Sale of Fund Shares	8.49%	4.05%	5.21%	10.59%
S&P Global Broad Market Index (reflects no deductions for fees, expenses or taxes)**	16.75%	9.94%	9.40%	12.15%

* While the Predecessor Fund commenced operations on March 31, 2009, the Predecessor Fund began investing consistent with its investment objective on April 1, 2009.

(1) After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts ("IRAs").

Purchase and Redemption by Wire:

Before sending any wire, call U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (the "Transfer Agent") at 855-744-8500 to confirm the current wire instructions for the Fund.

Redemption By Telephone:

If you select the option to redeem by telephone on your account application, you may call the Transfer Agent at 855-744-8500.

Tax Information

The Fund intends to make distributions that generally may be taxed at ordinary income or capital gains rates.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund Shares and other related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

SUMMARY SECTION

SGI Small Cap Core Fund

Investment Objective

The investment objective of the SGI Small Cap Core Fund (the “Fund”) is to provide long-term capital appreciation.

Expenses and Fees

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

	Class I Shares
Shareholder Fees (fees paid directly from your investment)	
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None
Exchange Fee	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.95%
Distribution and/or Service (12b-1) Fees	None
Other Expenses	0.34%
Total Annual Fund Operating Expenses	<u>1.29%</u>
Fee Waiver and/or Expense Reimbursement ⁽¹⁾	<u>-0.06%</u>
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	<u>1.23%</u>

⁽¹⁾ Summit Global Investments, LLC (the “Adviser”), the Fund’s investment adviser, has contractually agreed to waive management fees and reimburse expenses through December 31, 2026, to the extent that Total Annual Fund Operating Expenses (excluding certain items discussed below) exceed 1.23% of the Fund’s average daily net assets attributable to Class I Shares. In determining the Adviser’s obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account and are expected to cause net Total Annual Fund Operating Expenses to exceed 1.23%: Acquired Fund Fees and Expenses (“AFFE”), short sale dividend expenses, brokerage commissions, extraordinary items, interest or taxes. This contractual limitation may not be terminated before December 31, 2026, without the approval of the Board of Directors of the Company. If at any time the Fund’s Total Annual Fund Operating Expenses (not including AFFE, short sale dividend expenses, brokerage commissions, extraordinary items, interest or taxes) for a year are less than 1.23% of the Fund’s average daily net assets attributable to Class I Shares, the Adviser is entitled to reimbursement by the Fund of the advisory fees forgone and other payments remitted by the Adviser to the Fund within three years from the date on which such waiver or reimbursement was made, provided such reimbursement does not cause the Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example below shows what you would pay if you invested \$10,000 in the Fund over the various time periods indicated and then held or redeemed all of your shares at the end of those periods. The Example assumes that

your investment has a 5% return each year and that the Fund's operating expenses remain the same (taking into account the contractual expense limitation for the first year). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class I Shares	\$125	\$403	\$702	\$1,551

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual fund operating expenses or in the Example, affect the Fund's performance. Portfolio turnover may vary from year to year, as well as within a year. During the most recent fiscal year ended August 31, 2025, the Fund's portfolio turnover rate was 168% of the average value of its portfolio.

Principal Investment Strategies

The Fund seeks to achieve its objective by investing under normal circumstances at least 80% of the net assets of the portfolio (including borrowings for investment purposes) in the stocks of U.S. companies with market capitalizations, at the time of purchase, that are within the trailing twelve-month range of the market capitalizations of those companies that are included in the Russell 2000® Index ("Small Cap Stocks"). For purposes of this investment policy, stocks of U.S. companies are stocks that are listed on a securities exchange or market inside the United States. Because the Russell 2000® Index ("Index") is modified ("reconstituted") regularly (usually each year) to replace companies that no longer qualify for inclusion in the Index due to, among other reasons, having market capitalizations that have grown too large, the Adviser uses the trailing twelve-month range of market capitalizations to mitigate the need to trade stocks in the portfolio due to Index reconstitution. Further, the Adviser will not sell from the portfolio any holdings that the Adviser believes are likely to appreciate more than the Index solely because the market capitalizations of such holdings cause the portfolio to hold less than 80% of its net assets within this range. As such, the Fund may, from time to time, hold less than 80% of its net assets within this range. The Fund attempts to achieve its objective by taking long positions in Small Cap Stocks that the Adviser believes are undervalued given their future earnings growth prospects. The Fund may also invest in securities of affiliated and unaffiliated exchange-traded funds ("ETFs") (collectively, "Underlying Funds"). As part of its investment strategy, the Adviser will continue to invest in Small Cap Stocks that the Adviser believes will appreciate more than the Index. Shareholders will be notified by the Fund sixty days in advance of any change in this 80% policy. In seeking to achieve its principal investment strategies, the Fund will engage in trading of portfolio securities that will likely result in a high portfolio turnover rate. The Fund may also seek to increase its income by lending portfolio securities.

Principal Risks

Risk is inherent in all investing. The value of your investment in the Fund, as well as the amount of return you receive on your investment, may fluctuate significantly from day to day and over time. You may lose part or all of your investment in the Fund or your investment may not perform as well as other similar investments. The Fund's principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, regardless of the order in which it appears. Different risks may be more significant at different times depending on market conditions or other factors.

- **Affiliated Fund Risk.** Affiliated fund risk is the risk that the Adviser may select investments for the Fund based on its own financial interests rather than the Fund's interests. The Adviser may be subject to potential conflicts of interest in selecting the Underlying Funds because the fees paid to the Adviser by some affiliated Underlying Funds may be higher than other Underlying Funds or the Underlying Funds may be in need of assets to enhance their appeal to other investors, liquidity and trading and/or to enable them to carry out their investment strategies. However, the Adviser is a fiduciary to the Fund and is legally obligated to act in the Fund's best interest when selecting Underlying Funds.

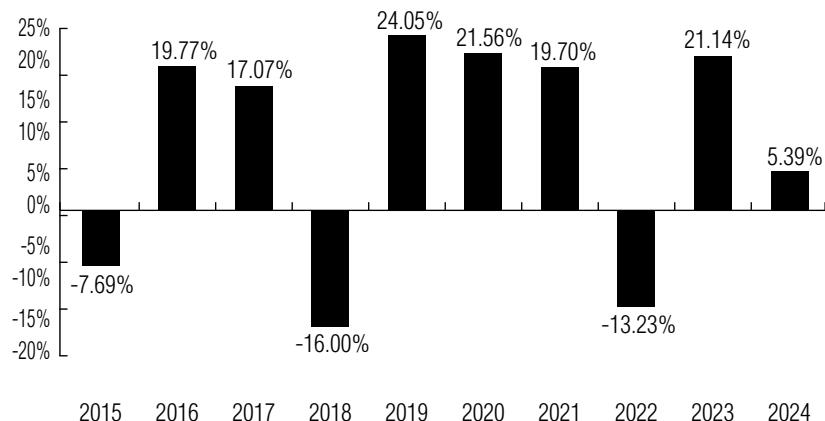

- **Cyber Security Risk.** Cyber security risk is the risk of an unauthorized breach and access to Fund assets, Fund or customer data (including private shareholder information), or proprietary information, or the risk of an incident occurring that causes the Fund, the investment adviser, custodian, transfer agent, distributor and other service providers and financial intermediaries to suffer data breaches, data corruption or lose operational functionality or prevent Fund investors from purchasing, redeeming or exchanging shares or receiving distributions. The use of artificial intelligence and machine learning could exacerbate these risks. The Fund and the Adviser have limited ability to prevent or mitigate cyber security incidents affecting third-party service providers, and such third-party service providers may have limited indemnification obligations to the Fund or the Adviser. Successful cyber-attacks or other cyber-failures or events affecting the Fund or its service providers may adversely impact and cause financial losses to the Fund or its shareholders. Issuers of securities in which the Fund invests are also subject to cyber security risks, and the value of these securities could decline if the issuers experience cyber-attacks or other cyber-failures.
- **Equity Stock Risk.** Common stocks may decline over short or even extended periods of time. Equity markets tend to be cyclical; there are times when stock prices generally increase, and other times when they generally decrease. Therefore, you could lose money by investing in the Fund.
- **Growth Stock Risk.** Growth stocks are typically priced higher than other stocks, in relation to earnings and other measures, because investors believe they have more growth potential. This potential may or may not be realized and, if it is not realized, may result in a loss to the Fund. Growth stock prices also tend to be more volatile than the overall market. Because different types of stocks go out of favor with investors depending on market and economic conditions, the Fund's return may be adversely affected during a market downtown and when growth stocks are out of favor.
- **High Portfolio Turnover Risk.** The Fund may frequently trade its portfolio holdings. High portfolio turnover will cause the Fund to incur higher brokerage commissions and other transaction costs, which could lower the Fund's performance. In addition to lower performance, high portfolio turnover could result in higher taxable capital gains. A portfolio turnover rate of 100% is considered to be high.
- **Investment Companies and Exchange-Traded Funds (“ETFs”) Risk.** The Fund's investment performance may be affected by the investment performance of the Underlying Funds in which the Fund may invest. Investing in other investment companies, including affiliated and unaffiliated ETFs, may result in duplication of expenses, including advisory fees, in addition to the Fund's own expenses. The risk of owning an investment company or ETF generally reflects the risks of owning the underlying investments the investment company or ETF holds. The Fund may incur brokerage fees in connection with its purchase of ETF shares. Certain ETFs may be thinly traded and experience large spreads between the “ask” price quoted by a seller and the “bid” price offered by a buyer. The existence of extreme market volatility or potential lack of an active trading market for an ETF's shares could result in such shares trading at a significant premium or discount to their net asset value (“NAV”).
- **Market Risk.** The NAV of the Fund will change with changes in the market value of its portfolio positions. Investors may lose money. The value of investments held by the Fund may increase or decrease in response to economic, political, financial, public health crises (such as epidemics or pandemics) or other disruptive events (whether real, expected or perceived) in the U.S. and global markets. Although the Fund will invest in stocks the Adviser believes will produce less volatility, there is no guarantee that the stocks will perform as expected.
- **Small Cap Risk.** The Fund will invest in Small Cap Stocks that may be more volatile than investments in issuers with larger market capitalizations. Issuers of Small Cap Stocks are not as diversified in their business activities as issuers with larger market capitalizations and are more susceptible to changes in the business cycle. Small companies may also have limited product lines, markets or financial resources and may be dependent on relatively small or inexperienced management groups. Additionally, the trading volume of small company securities may make them more difficult to sell than those of larger companies. Moreover, the lack of an efficient market for the securities may make them difficult to value.

- **Securities Lending Risk.** The Fund may lend portfolio securities to institutions, such as certain broker-dealers. The Fund may experience a loss or delay in the recovery of its securities if the borrowing institution breaches its agreement with the Fund.
- **Value Stock Risk.** Although the Fund will invest in stocks that the Adviser believes to be undervalued, there is no guarantee that the prices of these stocks will not move even lower. Because different types of stocks go out of favor with investors depending on market and economic conditions, the Fund's return may be adversely affected during a market turndown and when value stocks are out of favor.

Performance Information

The bar chart below illustrates the performance of the Fund's Class I Shares. The information shows how the Fund's performance has varied year by year and provides some indication of the risks of investing in the Fund. The bar chart assumes reinvestment of dividends and distributions. As with all such investments, past performance (before and after taxes) is not an indication of future results. Performance reflects fee waivers in effect. If fee waivers were not in place, the Fund's performance would be reduced. Updated performance information may be obtained at www.sgiam.com or by calling 1-855-744-8500. The Fund changed its investment adviser on May 14, 2021. The performance set forth below prior to May 14, 2021 is attributable to the former investment adviser.

TOTAL RETURNS FOR THE CALENDAR YEARS ENDED DECEMBER 31

Best and Worst Quarterly Performance (for the periods reflected in the chart above):

Best Quarter: 29.38% (quarter ended June 30, 2020)

Worst Quarter: -30.76% (quarter ended March 31, 2020)

The year-to-date total return for the nine months ended September 30, 2025 was 8.38%.

AVERAGE ANNUAL TOTAL RETURNS

The following table below compares the Fund's average annual total returns for the past calendar year, the past five calendar years and the past ten calendar years to the average annual total returns of a broad-based securities market index for the same periods. Past performance (before and after taxes) is not necessarily an indicator of how the Fund will perform in the future.

AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIODS ENDED DECEMBER 31, 2024

SGI Small Cap Core Fund	1 Year	5 Years	10 Years	Since Inception
Return Before Taxes	5.39%	10.02%	8.07%	10.47%
Return After Taxes on Distributions ⁽¹⁾	4.72%	7.01%	5.24%	8.63%
Return After Taxes on Distributions and Sale of Fund Shares ⁽¹⁾	3.43%	6.58%	5.15%	8.32%
Russell 3000 Index (reflects no deductions for fees, expenses or taxes)*	23.81%	13.86%	12.55%	8.41%

⁽¹⁾ After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts (IRA). In certain cases, the figure representing "Return after Taxes on Distributions and Sale of Fund Shares" may be higher than the other return figures for the same period, since a higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax deduction that benefits the investor.

Tax Information

The Fund intends to make distributions that generally may be taxed at ordinary income or capital gains rates.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT EACH FUND'S INVESTMENTS AND RISKS

This section provides some additional information about the Funds' investments and certain portfolio management techniques that the Funds' may use. More information about the Funds' investments and portfolio management techniques, and related risks, is included in the SAI.

Investment Objectives

Each Fund's investment objective may be changed by the Board of Directors (the "Board") of the Company without shareholder approval. Shareholders will, however, receive 60 days' prior notice of any changes. Any such changes may result in a Fund having an investment objective different from the objective that the shareholder considered appropriate at the time of investment in the Fund.

SGI U.S. Large Cap Equity Fund

The SGI U.S. Large Cap Equity Fund (the "U.S. Large Cap Equity Fund") seeks long-term capital appreciation. The U.S. Large Cap Equity Fund invests in stocks that exhibit lower volatile stock price patterns strengthening business metrics and quantitative factors that the Adviser anticipates will produce lower volatility. The U.S. Large Cap Equity Fund may sell a stock if it no longer meets one or more investment criteria, including if the Adviser identifies fundamental or legal risks or if the risk/return ranking declines due to increasing risk and/or decreasing return potential.

Portfolio Composition

The U.S. Large Cap Equity Fund has a policy to invest, under normal circumstances, at least 80% of its net assets (including borrowings for investment purposes) in equity securities, primarily common stocks, of companies within the Russell 1000® Index and S&P 500® Index (for this paragraph only, the "80% Policy"). The 80% Policy is non-fundamental and can be changed by the Board upon 60 days' prior notice to shareholders. The U.S. Large Cap Equity Fund must comply with its 80% Policy at the time the U.S. Large Cap Equity Fund invests its assets. Accordingly, when the U.S. Large Cap Equity Fund no longer meets the 80% requirement as a result of circumstances beyond its control, such as changes in the value of portfolio holdings, it would not have to sell its holdings, but any new investments it makes would be consistent with its 80% Policy.

SGI Global Equity Fund

The SGI Global Equity Fund's (the "Global Equity Fund") investment objective is to seek long-term capital appreciation. The Global Equity Fund invests in both U.S. and foreign stocks that exhibit lower volatile stock price patterns strengthening business metrics and quantitative factors that the Adviser anticipates will produce lower volatility. The Global Equity Fund may sell a stock if it no longer meets one or more investment criteria, including if the Adviser identifies fundamental or legal risks or if the risk/return ranking declines due to increasing risk and/or decreasing return potential.

Portfolio Composition

Under normal market conditions, the Global Equity Fund invests at least 80% of the value of its net assets, plus any borrowings for investment purposes, in equity securities (for this paragraph only, the "80% Policy"). The Global Equity Fund expects, under normal market conditions, to invest in at least three different countries and invest at least 40% (or, if conditions are not favorable, invest at least 30%) of its assets in non-U.S. companies (for this paragraph only, the "40% Policy"). The Global Equity Fund defines non-U.S. companies as companies that (i) are organized under the laws of a foreign country; (ii) whose principal trading market is in a foreign country; or (iii) that have a majority of their assets or derive a significant portion of their revenue or profits from businesses, investments or sales, outside of the United States. The 80% Policy and the 40% Policy are non-fundamental policies and can be changed by the Board upon 60 days' prior notice to shareholders. The Global Equity Fund must comply with the 80% Policy and the 40% Policy at the time the Global Equity Fund invests its assets. Accordingly, when the Global Equity Fund no longer meets the 80% Policy or the 40% Policy as a result of circumstances beyond its control, such as changes in the value of portfolio holdings, it would not have to sell its holdings but any new investment it makes would be consistent with its 80% Policy and 40% Policy.

SGI Small Cap Core Fund

The SGI Small Cap Core Fund's (the "Small Cap Core Fund") investment objective is to provide long-term capital appreciation. Small Cap Core Fund takes long positions in Small Cap Stocks that the Adviser believes are undervalued given their future earnings growth prospects. The Small Cap Core Fund may also invest in futures contracts and options on futures contracts as an alternative to purchasing a specified type of security. The Small Cap Core Fund may sell a stock if there is an adverse change in either the fundamental outlook for a company or investors' beliefs about future stock price performance. Fundamental signals that could signal a sale include a significant appreciation in price, a poor quarterly earnings announcement or an indication that management is aggressive with its financial accounting. Adverse changes in investors' beliefs about future stock prices are related to investors' behavioral biases. Given the diversified nature of the stock selection process, it is likely that more than one of these signals would have to be declining in order to trigger a sale.

Portfolio Composition

The Small Cap Core Fund seeks to achieve its objective by investing under normal circumstances at least 80% of the net assets of the portfolio (including borrowings for investment purposes) in the Small Cap Stocks. For purposes of this investment policy, stocks of U.S. companies are stocks that are listed on a securities exchange or market inside the United States. Because the Russell 2000® Index is modified ("reconstituted") regularly (usually each year) to replace companies that no longer qualify for inclusion in the Index due to, among other reasons, having market capitalizations that have grown too large, the Adviser uses the trailing twelve-month range of market capitalizations to mitigate the need to trade stocks in the portfolio due to Russell 2000® Index reconstitution.

The Small Cap Core Fund's long positions may include (without limit) equity securities of foreign issuers that are traded in the markets of the United States as sponsored ADRs. ADRs are receipts issued by a U.S. bank or trust company evidencing ownership of the underlying foreign securities. Generally, ADRs, in registered form, are designed for use in U.S. securities markets. The ADRs may not necessarily be denominated in the same currency as the foreign securities underlying the ADRs. The Small Cap Core Fund will not invest directly in equity securities that are principally traded outside of the United States.

Additional Information About Each Fund's Principal Investments and Risks

Affiliated Fund Risk. The Funds' investment in Underlying Funds may have the effect of creating economies of scale, possibly resulting in lower expense ratios for the Underlying Funds, because the Funds may own substantial portions of the shares of the Underlying Funds. However, redemption of the Underlying Fund shares by one or more Funds could cause the expense ratio of an Underlying Fund to increase, as its fixed costs would be spread over a smaller asset base. Because of large positions of certain Funds, the Underlying Funds may experience relatively large inflows and outflows of cash due to Funds' purchases and sales of Underlying Fund shares. Although the Adviser may seek to minimize the impact of these transactions where possible, for example, by structuring them over a reasonable period of time or through other measures, Underlying Funds may experience increased expenses as they buy and sell portfolio securities to manage the cash flow effect related to these transactions. Further, when the Adviser structures transactions over a reasonable period of time in order to manage the potential impact of the buy and sell decisions for the Funds, those Funds, including funds-of-funds, may pay more or less (for purchase activity) or receive more or less (for redemption activity), for shares of the Underlying Funds than if the transactions were executed in one transaction. In addition, substantial redemptions by the Funds within a short period of time could require the Underlying Fund to liquidate positions more rapidly than would otherwise be desirable, which may have the effect of reducing or eliminating potential gain or causing it to realize a loss. Substantial redemptions may also adversely affect the ability of the Underlying Fund to implement its investment strategy. The Adviser may have a conflict of interest with respect to Fund investments in Underlying Funds, particularly when an Underlying Fund has low assets. The Adviser also has an economic conflict of interest in determining the allocation of the Funds' assets among the Underlying Funds, as it earns different fees from the various Underlying Funds.

Borrowing. Each Fund may borrow money for temporary or emergency (not leveraging) purposes. A Fund will not make any additional investments while borrowings exceed 5% of its total assets.

Convertible Securities. Convertible securities have characteristics of both equity and fixed income securities. The value of a convertible security tends to move with the market value of the underlying stock, but may also be affected by interest rates, the credit quality of the issuer and any call provisions. In particular, when interest rates rise, fixed income securities will decline in value.

Cyber Security Risk. With the increased use of technologies such as the internet to conduct business, the Fund is susceptible to operational, information security and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber-attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through “hacking” or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber security failures or breaches by the Fund’s Adviser and other service providers (including, but not limited to, Fund accountant, custodian, transfer agent and administrator), and the issuers of securities in which the Fund invests, have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund’s ability to calculate its NAV, impediments to trading, the inability of Fund shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. The use of artificial intelligence and machine learning could exacerbate these risks or result in cyber security incidents that implicate personal data. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Adviser has established business continuity plans in the event of, and risk management systems to prevent, such cyber-attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by service providers to the Fund and issuers in which the Fund invests. The Fund and its shareholders could be negatively impacted as a result.

Depository Receipts. The Small Cap Core Fund may invest in securities of foreign issuers indirectly through depository receipts. Depository receipts may be available through “sponsored” or “unsponsored” facilities. Holders of unsponsored depository receipts generally bear all of the costs of the unsponsored facility. The depository of an unsponsored facility is frequently under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through, to the holders of the receipts, voting rights with respect to the deposited securities. The depository of unsponsored depository receipts may provide less information to receipt holders.

Equity and Equity-Related Securities. Each Fund will invest in equity securities as part of its principal investment strategies, including exchange-traded and over-the-counter common and preferred stocks, warrants and convertible securities. Investments in equity securities are subject to market risks that may cause their prices to fluctuate over time. The value of a convertible security may not increase or decrease as rapidly as the underlying common stock. Common stocks may decline over short or even extended periods of time. The purchase of warrants involves the risk that a Fund could lose the purchase value of a warrant if the right to subscribe to additional shares is not executed prior to the warrant’s expiration. The value of such securities convertible into equity securities, such as warrants or convertible debt, is also affected by prevailing interest rates, the credit quality of the issuer and any call provision. The market value of a portfolio holding may fluctuate, sometimes rapidly and unpredictably. The prices of equity securities change in response to many factors, including the historical and prospective earnings of the issuer, the value of its assets, general economic conditions, interest rates, investor perceptions and market liquidity. Decreases in market value of a Fund’s portfolio securities could adversely affect the Fund’s NAV.

Foreign Custody Risk. A Fund may hold foreign securities and cash with foreign banks, agents, and securities depositories appointed by the Fund’s custodian (each a “Foreign Custodian”). Some Foreign Custodians may be recently organized or new to the foreign custody business. In some countries, Foreign Custodians may be subject to little or no regulatory oversight over or independent evaluation of their operations. Further, the laws of certain countries may place limitations on the Fund’s ability to recover its assets if a Foreign Custodian enters bankruptcy. Investments in emerging markets may be subject to even greater custody risks than investments in more developed markets. Custody services in emerging market countries are very often undeveloped and may be considerably less well-regulated than in more developed countries, and thus may not afford the same level of investor protection as would apply in developed countries.

Foreign Investments. The Global Equity Fund will invest in foreign investments as part of its principal investment strategies. International investing is subject to special risks, including risks associated with more or less foreign government regulation; less public information; less stringent investor protections; less stringent accounting, corporate governance, financial reporting and disclosure standards; less economic, political and social stability; and differences in taxation, auditing and other financial practices. The Global Equity Fund will invest in securities of foreign issuers that are traded or denominated in U.S. Dollars primarily through depositary receipts. Depositary receipts may be available through “sponsored” or “unsponsored” facilities. Holders of unsponsored depositary receipts generally bear all of the costs of the unsponsored facility. The depository of an unsponsored facility is frequently under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through, to the holders of the receipts, voting rights with respect to the deposited securities. The depository of unsponsored depositary receipts may provide less information to receipt holders.

Market Risk. Each Fund’s NAV and investment return will fluctuate based upon changes in the value of its investments. The market value of a Fund’s holdings is based upon the market’s perception of value and is not necessarily an objective measure of an investment’s value. There is no assurance that a Fund will realize its investment objective, and an investment in a Fund is not, by itself, a complete or balanced investment program. You could lose money on your investment in a Fund, or a Fund could underperform other investments.

Periods of unusually high financial market volatility and restrictive credit conditions, at times limited to a particular sector or geographic area, have occurred in the past and may be expected to recur in the future. Some countries, including the United States, have adopted or have signaled protectionist trade measures, relaxation of the financial industry regulations that followed the financial crisis, and/or reductions to corporate taxes. The current presidential administration has called for and is seeking to quickly enact significant changes to U.S. fiscal, tax, trade, healthcare, immigration, foreign, and government regulatory policy. Significant uncertainty exists with respect to legislation, regulation and government policy at the federal level, as well as the state and local levels. Recent events have created a climate of heightened uncertainty and introduced new and difficult-to-quantify macroeconomic and political risks with potentially far-reaching implications. There has been a corresponding meaningful increase in the uncertainty surrounding interest rates, inflation, foreign exchange rates, trade volumes and fiscal and monetary policy. To the extent the U.S. Congress or the current presidential administration implements changes to U.S. policy, those changes may impact, among other things, the U.S. and global economy, international trade and relations, unemployment, immigration, corporate taxes, healthcare, the U.S. regulatory environment, inflation and other areas. Although the Fund cannot predict the impact, if any, of these changes to the Fund’s business, they could adversely affect the Fund’s business, financial condition, operating results and cash flows. Until the Fund knows what policy changes are made and how those changes impact the Fund’s business and the business of the Fund’s competitors over the long term, the Fund will not know if, overall, the Fund will benefit from them or be negatively affected by them.

Additionally, climate change poses long-term threats to physical and biological systems. Potential hazards and risks related to climate change for a State or municipality include, among other things, wildfires, rising sea levels, more severe coastal flooding and erosion hazards, and more intense storms. Storms in recent years have demonstrated vulnerabilities in a State’s or municipality’s infrastructure to extreme weather events. Climate change risks, if they materialize, can adversely impact a State’s or municipality’s financial plan in current or future years. In addition, economists and others have expressed increasing concern about the potential effects of global climate change on property and security values. A rise in sea levels, an increase in powerful windstorms and/or a climate-driven increase in sea levels or flooding could cause coastal properties to lose value or become unmarketable altogether. Economists warn that, unlike previous declines in the real estate market, properties in affected coastal zones may not ever recover their value. Large wildfires driven by high winds and prolonged drought may devastate businesses and entire communities and may be very costly to any business found to be responsible for the fire. Regulatory changes and divestment movements tied to concerns about climate change could adversely affect the value of certain land and the viability of industries whose activities or products are seen as accelerating climate change. The Fund cannot predict the effects of or likelihood of such events on the U.S. and world economies. The Fund could be materially impacted by such events which may, in turn, negatively affect the value and performance the Fund.

Advancements in technology may also adversely impact markets and the overall performance of the Fund. For instance, the economy may be significantly impacted by the advanced development and increased regulation of artificial intelligence. As the use of technology grows, liquidity and market movements may be affected. As artificial intelligence is used more widely, the profitability and growth of Fund holdings may be impacted, which could significantly impact the overall performance of the Fund.

Mid-Cap Companies. The U.S. Large Cap Equity Fund and Global Equity Fund may each invest in mid-cap company securities as part of its principal investment strategies. Investing in securities of companies with mid-sized capitalizations tends to be riskier than investing in securities of companies with large capitalizations. Securities of companies with mid-sized capitalizations tend to be more volatile than those of large cap companies and, on occasion, may fluctuate in the opposite direction of large cap company securities or the broader stock market averages.

Other Investment Companies and ETFs. Each Fund may invest up to 10% of its total assets in the securities of other investment companies and ETFs not affiliated with the Adviser, but may not invest more than 5% of its total assets in the securities of any one investment company or acquire more than 3% of the voting securities of any other investment company. Among other things, a Fund may invest in money market mutual funds for cash management purposes by “sweeping” excess cash balances into such funds until the cash is invested or otherwise utilized. Rule 12d1-1 under the Investment Company Act of 1940, as amended (the “1940 Act”), permits a Fund to invest an unlimited amount of its uninvested cash in a money market fund so long as, among other things, said investment is consistent with the Fund’s investment objectives and policies. Each Fund will indirectly bear its proportionate share of any management fees and other expenses paid by investment companies in which it invests in addition to the advisory and administration fees paid by the Fund.

Portfolio Turnover. Each Fund may engage in active and frequent trading, resulting in high portfolio turnover. This may lead to the realization and distribution to shareholders of higher capital gains, increasing their tax liability. Frequent trading may also increase transaction costs, which could detract from a Fund’s performance.

Small-Cap Companies. The Small Cap Core Fund will principally invest in small-cap companies as part of their respective principal investment strategies. Investments in common stocks in general are subject to market, economic and business risks that will cause their price to fluctuate over time. Therefore, an investment in the Fund may be more suitable for long-term investors who can bear the risk of these fluctuations. Furthermore, while securities of small capitalization companies may offer greater opportunity for capital appreciation than larger companies, investment in such companies presents greater risks than investment in larger, more established companies. Indeed, historically, small capitalization stocks have been more volatile in price than larger capitalization stocks. Among the reasons for the greater price volatility of these securities are the lower degree of liquidity in the markets for such stocks, and the potentially greater sensitivity of such small companies to changes in or failure of management, and to many other changes in competitive, business, industry and economic conditions, including risks associated with limited product lines, markets, management depth, or financial resources. Besides exhibiting greater volatility, micro and small company stocks may, to a degree, fluctuate independently of larger company stocks. Small company stocks may decline in price as large company stocks rise, or rise in price as large company stocks decline. Investors should therefore expect that the price of the Fund’s shares will be more volatile than the shares of a fund that invests in larger capitalization stocks. Additionally, while the markets in securities of small companies have grown rapidly in recent years, such securities may trade less frequently and in smaller volume than more widely held securities. The values of these securities may fluctuate more sharply than those of other securities, and the Fund may experience some difficulty in establishing or closing out positions in these securities at prevailing market prices. There may be less publicly available information about the issuers of these securities or less market interest in such securities than in the case of larger companies, and it may take a longer period of time for the prices of such securities to reflect the full value of their issuers’ underlying earnings potential or assets.

Temporary Investments. Each Fund may depart from its principal investment strategy in response to adverse market, economic, political or other conditions by taking a temporary defensive position (up to 100% of its assets) in cash, cash equivalents and all types of money market and short-term debt securities. The value of money market instruments tends to fall when current interest rates rise. Money market instruments are generally less sensitive to interest rate changes than longer-term securities. If a Fund were to take a temporary defensive position, it may be unable to achieve its investment objective for a period of time.

Broad-Based Securities Market Indices

The S&P 500® Index is an unmanaged index composed of 500 common stocks, classified in eleven industry sectors, which represent approximately 75% of the U.S. equities market. The S&P 500® Index assigns relative values to the stocks included in the index, weighted according to each stock's total market value relative to the total market value of the other stocks included in the index.

The Russell 2000® Index is an unmanaged index that consists of the 2,000 smallest companies in the Russell 3000® Index and represents approximately 10% of the total market capitalization of the Russell 3000® Index.

The Russell 1000® Index, a subset of the Russell 3000® index, is an unmanaged index which represents approximately 98% of the investable US equity market. It includes approximately 1,000 of the largest securities based on a combination of their market cap and current index membership as of October 31, 2025. The Russell 1000® Index measures the performance of the large-cap segment of the US equity universe.

The MSCI ACWI Index is designed to reflect the performance of the lowest volatility optimized version of the parent MSCI index.

The S&P 500® Index is designed to measure the performance of the 100 least volatile stocks of the S&P 500® Index.

Disclosure of Portfolio Holdings

A description of the Company's policies and procedures with respect to the disclosure of each Fund's portfolio securities is available in the Funds' SAI. The SAI is incorporated herein.

MANAGEMENT OF THE FUNDS

Investment Adviser

The Adviser's principal address is 620 South Main Street, Bountiful, Utah 84010. The Adviser provides investment management and investment advisory services to investment companies and other institutional accounts. The Adviser is 100% privately-owned, and was founded in 2010.

Pursuant to an investment advisory agreement with the Company, the Adviser is entitled to an advisory fee computed daily and payable monthly at the annual rate of 0.70%, 0.70%, and 0.95% of the U.S. Large Cap Equity Fund's, the Global Equity Fund's, and the Small Cap Core Fund's average daily net assets, respectively. The Adviser has contractually agreed to waive management fees and reimburse expenses through December 31, 2026, to the extent that Total Annual Fund Operating Expenses (excluding certain items discussed below) of the U.S. Large Cap Equity Fund exceed 0.98%, 1.23% and 1.98% of the U.S. Large Cap Equity Fund's average daily net assets attributable to Class I Shares, Class A Shares and Class C Shares, respectively. The Adviser has contractually agreed to waive all or a portion of its advisory fee and reimburse expenses in order to keep Total Annual Fund Operating Expenses (excluding certain items discussed below) of the Global Equity Fund from exceeding 0.84% of the average daily net assets attributable to Class I Shares, 1.09% of the average daily net assets attributable to Class A Shares and 1.84% of the average daily net assets attributable to Class C Shares until December 31, 2026. The Adviser has contractually agreed to waive all or a portion of its advisory fee and reimburse expenses in order to keep Total Annual Fund Operating Expenses (excluding certain items discussed below) of the Small Cap Core Fund from exceeding 0.93% of the average daily net assets attributable to Class I Shares until December 31, 2026.

In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses with respect to the U.S. Large Cap Equity Fund, the following expenses are not taken into account and could cause net Total Annual Fund Operating Expenses for Class I Shares, Class A Shares and Class C Shares, respectively, to exceed 0.98%, 1.23% or 1.98%, as applicable: acquired fund fees and expenses, short sale dividend expenses, brokerage commissions, extraordinary items, interest or taxes. This contractual limitation may not be terminated before December 31, 2026, without the approval of the Board. If at any time the U.S. Large Cap Equity Fund's Total Annual Fund Operating Expenses with respect to Class I Shares, Class A Shares and Class C Shares for that year are less than 0.98%, 1.23% or 1.98%, as applicable, the Adviser is entitled to reimbursement by the U.S. Large Cap Equity Fund of the advisory fees forgone and other payments remitted by the Adviser to the U.S. Large Cap Equity Fund within three years from the date on which such waiver or reimbursement was made, provided such reimbursement does not cause the U.S. Large Cap Equity Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement. For the fiscal year ended August 31, 2025, the Adviser received 0.70% of the U.S. Large Cap Equity Fund's average net assets in investment advisory fees from the U.S. Large Cap Equity Fund.

In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses with respect to the Global Equity Fund, the following expenses are not taken into account and could cause net Total Annual Fund Operating Expenses for Class I Shares, Class A Shares and Class C Shares, respectively, to exceed 0.84%, 1.09% or 1.84%, as applicable: acquired fund fees and expenses, short sale dividend expenses, brokerage commissions, extraordinary items, interest or taxes. This contractual limitation may not be terminated before December 31, 2026, without the approval of the Board. If at any time the Fund's Total Annual Fund Operating Expenses with respect to Class I Shares, Class A Shares and Class C Shares for that year are less than 0.84%, 1.09% or 1.84%, as applicable, the Adviser is entitled to reimbursement by the Fund of the advisory fees forgone and other payments remitted by the Adviser to the Fund within three years from the date on which such waiver or reimbursement was made, provided such reimbursement does not cause the Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement. For the fiscal year ended August 31, 2025, after waivers, the Adviser received 0.70% of the Global Equity Fund's average net assets in investment advisory fees from the Global Equity Fund.

In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses with respect to the Small Cap Core Fund, the following expenses are not taken into account and could cause net Total Annual Fund Operating Expenses for Class I Shares to exceed 1.23%, acquired fund fees and expenses, short sale dividend expenses, brokerage commissions, extraordinary items, interest or taxes. This contractual limitation may not be terminated before December 31, 2026, without the approval of the Board. If at any time the Small Cap Core Fund's Total Annual Fund Operating Expenses with respect to Class I Shares for that year are less than 1.23% the Adviser is entitled to reimbursement by the Small Cap Core Fund of the advisory fees forgone and other payments remitted by the Adviser to the Small Cap Core Fund within three years from the date

on which such waiver or reimbursement was made, provided such reimbursement does not cause the Small Cap Core Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement. For the fiscal year ended August 31, 2025, after waivers, the Adviser received 0.95% of the Small Cap Core Fund's average net assets in investment advisory fees from the Small Cap Core Fund.

A discussion regarding the basis for the Board's approval of the investment advisory agreements for the U.S. Large Cap Equity Fund, the Global Equity Fund and the Small Cap Core Fund with the Adviser is available in the Funds' annual report to shareholders for the fiscal year ended August 31, 2025.

Portfolio Managers

David Harden, the President of the Adviser, is primarily responsible for the day-to-day management of each Fund's investment portfolio. Mr. Harden founded the Adviser in 2010. He has managed the Funds since the inception dates of each Fund and is known for the Adviser's Managed Risk Approach™. Prior to founding the Adviser, Mr. Harden worked with Fidelity Investments, Evergreen Investments, and Ensign Peak Advisors, where he was responsible for developing and implementing numerous portfolio strategies. He is a graduate of Boston College, BA, and Boston University, MSCS.

Aash Shah is a Portfolio Manager of the Adviser and is responsible for the day-to-day management of each Fund's investment portfolio. Mr. Shah joined the Adviser in 2017 as a Portfolio Manager. Mr. Shah has over 33 years of investment management experience including over 28 years as a portfolio manager. Previously, Mr. Shah managed small, mid, and large cap funds for Federated Investors in both New York City and Pittsburgh. Mr. Shah has a Bachelor's degree from the University of Pittsburgh Swanson School of Engineering and an MBA in Finance and Accounting from the Tepper School at Carnegie Mellon University. He also holds a CFA charter.

The SAI provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of shares of the Funds.

SHAREHOLDER INFORMATION

Pricing of Fund Shares

Class I Shares and Class C Shares of the Funds are sold at their NAV. Class A Shares of the Funds are sold at their NAV, plus a front-end sales charge, if applicable. The NAV per share of each class of shares of the Funds is calculated as follows:

$$\text{NAV} = \frac{\text{Value of Assets Attributable to a Class} - \text{Value of Liabilities Attributable to the same Class}}{\text{Number of Outstanding of the Class}}$$

Each Fund's NAV is calculated once daily at the close of regular trading hours on the NYSE (generally 4:00 p.m. Eastern time) on each day the NYSE is open. The NYSE is generally open Monday through Friday, except national holidays. The NYSE also may be closed on national days of mourning or due to natural disaster or other extraordinary events or emergency. Due to the fact that different expenses are charged to each Class of shares, the NAV of each Class of a Fund may vary. A Fund will effect purchases of Fund shares at the NAV, plus any applicable sales charge, next calculated after receipt by the Transfer Agent of your purchase order in good order. The Funds will effect redemptions of Fund shares at the NAV next calculated after receipt by the Transfer Agent of your redemption request in good order.

A Fund's equity securities listed on any national or foreign exchange market system will be valued at the last sale price, except for the National Association of Securities Dealers Automatic Quotation System ("NASDAQ"). Equity securities listed on the NASDAQ will be valued at the official closing price. Equity securities traded in the over-the-counter market are valued at their closing prices. If there were no transactions on that day, equity securities will be valued at the mean of the last bid and ask prices prior to the market close. Fixed income securities are valued using an independent pricing service, which considers such factors as security prices, yields, maturities and ratings, and deemed representative of market values at the close of the market.

Investments in other open-end investment companies are valued based on the NAV of those investment companies (which may use fair value pricing as discussed in their prospectuses). Investments in exchange-traded and closed-end funds will be valued at their market price.

If market quotations are unavailable or deemed unreliable, securities will be valued by the Adviser, as the Fund's valuation designee (the "Valuation Designee"), in accordance with procedures adopted by the Board and under the Board's ultimate supervision. Relying on prices supplied by pricing services or dealers or using fair valuation involves the risk that the values used by a Fund to price its investments may be higher or lower than the values used by other investment companies and investors to price the same investments.

The Board has adopted a pricing and valuation policy for use by each Fund and its Valuation Designee in calculating the Fund's NAV. Pursuant to Rule 2a-5 under the 1940 Act, each Fund has designated the Adviser as its "Valuation Designee" to perform all of the fair value determinations as well as to perform all of the responsibilities that may be performed by the Valuation Designee in accordance with Rule 2a-5. The Valuation Designee is authorized to make all necessary determinations of the fair values of portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers or independent pricing services are unreliable.

Sales Charges — Class A Shares ONLY

General. Purchases of Class A Shares of the Funds are subject to a front-end sales charge of up to five and one-quarter percent (5.25%) of the total purchase price; however, sales charges may be reduced for large purchases as indicated below. Sales charges are not imposed on shares that are purchased with reinvested dividends or other distributions. The table below indicates the front-end sales charge as a percentage of both the offering price and the net amount invested. The term “offering price” includes the front-end sales charge. Because of rounding in the calculation of the “offering price”, the actual sales charge you pay may be more or less than that calculated using the percentages shown below.

Amount of Purchase of Class A Shares	Sales Charge as a % of Offering Price	Commission as a % of Offering Price
Less than \$50,000	5.25%	4.75%
At least \$50,000 but less than \$100,000	4.75%	4.25%
At least \$100,000 but less than \$250,000	3.50%	3.25%
At least \$250,000 but less than \$500,000	2.50%	2.25%
At least \$500,000 but less than \$750,000	2.00%	1.90%
At least \$750,000 but less than \$1,000,000	1.50%	1.45%
\$1,000,000 or greater	None*	None*

* No sales charge is payable at the time of purchase on investments of \$1,000,000 or more; however, a 1% contingent deferred sales charge is imposed in the event of redemption within 18 months following any such purchase. See the section entitled “Contingent Deferred Sales Charge on Certain Redemptions”.

Rights of Accumulation. You will have the benefit of a reduced sales charge by combining your purchase of Class A shares of a Fund in a single transaction with your purchase of Class A shares of another Fund. You may also combine your new purchase of Class A shares of a Fund with Class C shares currently owned for the purpose of qualifying for the lower initial sales charge rates that apply to larger purchases. The applicable sales charge for the new purchase is based on the total of your current purchase and the current NAV of all other shares you own. You may combine your account, your spouse’s account, and the account(s) of your children under age 25.

This privilege is also extended to certain employee benefit plans and trust estates. The following purchases may be combined for purposes of determining the “Amount of Purchase:” (a) individual purchases, if made at the same time, by a single purchaser, the purchaser’s spouse and children under the age of 25 purchasing shares for their own accounts, including shares purchased by a qualified retirement plan(s) exclusively for the benefit of such individual(s) (such as an IRA, individual-type section 403(b) plan or single-participant Keogh-type plan) or by a “Company,” as defined in Section 2(a)(8) of the Investment Company Act of 1940, as amended (the “1940 Act”), solely controlled, as defined in the 1940 Act, by such individual(s), or (b) individual purchases by trustees or other fiduciaries purchasing shares (i) for a single trust estate or a single fiduciary account, including an employee benefit plan, or (ii) concurrently by two or more employee benefit plans for a single employer or of employers affiliated with each other in accordance with Section 2(a)(3)(c) of the 1940 Act (excluding in either case an employee benefit plan described in (a) above), provided such trustees or other fiduciaries purchase shares in a single payment. Purchases made for nominee or street name accounts may not be combined with purchases made for such other accounts. You may also further discuss Rights of Accumulation with your investment broker, brokerage firm, financial institution, or other industry professional, including affiliates of the Adviser (collectively, “Service Organizations”).

You will need to provide written instruction with respect to the other accounts whose purchases should be considered in rights of accumulation.

Letter of Intent. By signing a Letter of Intent (LOI) you can reduce your Class A sales charge. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period. The LOI will apply to all purchases of the Funds’ Class A Shares. Any shares purchased within 90 days of the date you sign the letter of intent may be used as credit toward completion, but the reduced sales charge will only apply to new purchases made on or after that date. Purchases resulting from the reinvestment of dividends and capital gains do not apply toward

fulfillment of the LOI. Shares equal to 5.25% of the amount of the LOI will be held in escrow during the 13-month period. If, at the end of that time the total amount of purchases made is less than the amount intended, you will be required to pay the difference between the reduced sales charge and the sales charge applicable to the individual purchases had the LOI not been in effect. This amount will be obtained from redemption of the escrow shares. Any remaining escrow shares will be released to you.

If you establish an LOI with the Funds, you can aggregate your accounts as well as accounts defined in the Rights of Accumulation section of the Prospectus. **You will need to provide written instruction with respect to the other accounts whose purchases should be considered in fulfillment of the LOI.**

Sales Charge Waivers. The Funds sell Class A Shares at NAV without imposition of a sales charge to the following persons:

- current and retired (as determined by the Adviser) employees of the Adviser and its affiliates, their spouses and children under the age of 25 and employee benefit plans for such employees, provided orders for such purchases are placed by the employee;
- any other investment company in connection with the combination of such company with the Fund by merger, acquisition of assets or otherwise;
- Directors of the Company and registered representatives of Service Organizations;
- existing advisory clients of the Adviser on purchases effected by transferring all or a portion of their investment management or trust account to the Fund, provided that such account had been maintained for a period of six months prior to the date of purchase of Fund shares;
- trust companies, bank trust departments and registered investment advisers purchasing for accounts over which they exercise investment authority and which are held in a fiduciary, agency, advisory, custodial or similar capacity, provided that the amount collectively invested or to be invested in the Fund by such entity or adviser during the subsequent 13-month period totals at least \$50,000;
- employer-sponsored retirement plans with assets of at least \$50,000 or 25 or more eligible participants; and
- accounts established under a fee-based program sponsored and maintained by a registered broker-dealer or other financial intermediary and approved by the Distributor.

In order to take advantage of a sales charge waiver, a purchaser must certify to the Service Organization eligibility for a waiver and must notify the Service Organization whenever eligibility for a waiver ceases to exist. A Service Organization reserves the right to request additional information from a purchaser in order to verify that such purchaser is so eligible. Such information may include account statements or other records regarding shares of the Fund held by you or your immediate family household members.

Contingent Deferred Sales Charge on Certain Redemptions. Purchases of \$1,000,000 or more are not subject to an initial sales charge; however, a contingent deferred sales charge is payable on these investments in the event of a share redemption within 18 months following the share purchase, at the rate of 1% of the lesser of the value of the shares redeemed (exclusive of reinvested dividends and capital gain distributions) or the total cost of such shares. In determining whether a contingent deferred sales charge is payable, and the amount of the charge, it is assumed that shares purchased with reinvested dividends and capital gain distributions and then other shares held the longest are the first redeemed. The contingent deferred sales charge is further discussed in the SAI.

Market Timing

In accordance with the policy adopted by its Board, the Company discourages and does not accommodate market timing and other excessive trading practices. Purchases should be made with a view to longer-term investment only. Excessive short-term (market timing) trading practices may disrupt portfolio management strategies, increase brokerage and administrative costs, harm Fund performance and result in dilution in the value of Fund shares held by long-term shareholders. The Company and the Adviser reserve the right to (i) reject a purchase or exchange order, (ii) delay payment

of immediate cash redemption proceeds for up to seven calendar days, (iii) revoke a shareholder's privilege to purchase Fund shares (including exchanges), or (iv) limit the amount of any exchange involving the purchase of Fund shares. An investor may receive notice that their purchase order or exchange has been rejected after the day the order is placed or after acceptance by a financial intermediary. It is currently expected that a shareholder would receive notice that its purchase order or exchange has been rejected within 48 hours after such purchase order or exchange has been received by the Company in good order. The Company and the Adviser will not be liable for any loss resulting from rejected purchase orders. To minimize harm to the Company and its shareholders (or the Adviser), the Company (or the Adviser) will exercise its right if, in the Company's (or the Adviser's) judgment, an investor has a history of excessive trading or if an investor's trading, in the judgment of the Company (or the Adviser), has been or may be disruptive to a Fund. No waivers of the provisions of the policy established to detect and deter market timing and other excessive trading activity are permitted that would harm a Fund and its shareholders or would subordinate the interests of a Fund and its shareholders to those of the Adviser or any affiliated person or associated person of the Adviser.

There is no assurance that the Adviser will be able to identify market timers, particularly if they are investing through intermediaries.

If necessary, the Company may prohibit additional purchases of Fund shares by a financial intermediary or by certain customers of the financial intermediary. Financial intermediaries may also monitor their customers' trading activities in the Funds. The criteria used by intermediaries to monitor for excessive trading may differ from the criteria used by the Company. If a financial intermediary fails to enforce the Company's excessive trading policies, the Company may take certain actions, including terminating the relationship.

Purchase of Fund Shares

Shares representing interests in a Fund are offered continuously for sale by Quasar Distributors, LLC (the "Distributor").

The Board has approved a Distribution Agreement and adopted Plans of Distribution for Class A Shares and Class C Shares (the "Plans") pursuant to Rule 12b-1 under the 1940 Act. Under the Plans, the Distributor is entitled to receive from each respective Fund a distribution fee with respect to Class A Shares and Class C Shares of the Funds, which is accrued daily and paid monthly, of up to 0.25% on an annualized basis of the average daily net assets of the Class A Shares and of up to 1.00% on an annualized basis of the average daily net assets of the Class C Shares. The actual amount of such compensation under the Plans is agreed upon by the Board and by the Distributor. Because these fees are paid out of each respective Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment in Class A Shares and Class C Shares and may cost you more than paying other types of sales charges.

Amounts paid to the Distributor under the Plans may be used by the Distributor to cover expenses that are related to (i) the sale of Class A Shares and Class C Shares, (ii) ongoing servicing and/or maintenance of the accounts of Class A and Class C shareholders, and (iii) sub-transfer agency services, subaccounting services or administrative services related to the sale of Class A Shares and Class C Shares, all as set forth in the Plans. Ongoing servicing and/or maintenance of the accounts of Class A and Class C shareholders may include updating and mailing prospectuses and shareholder reports, responding to inquiries regarding shareholder accounts and acting as agent or intermediary between shareholders and the respective Fund or its service providers. The Distributor may delegate some or all of these functions to Service Organizations. See "Purchases Through Intermediaries" below.

The Plans obligate each respective Fund, during the period it is in effect, to accrue and pay to the Distributor on behalf of the Class A Shares and Class C Shares the fee agreed to under the Distribution Agreement. Payments under the Plans are not tied exclusively to expenses actually incurred by the Distributor, and the payments may exceed distribution expenses actually incurred.

Purchases Through Intermediaries. Shares of the Funds may also be available through Service Organizations. Certain features of the shares, such as the initial and subsequent investment minimums and certain trading restrictions, may be modified or waived by Service Organizations. Service Organizations may impose transaction or administrative charges or other direct fees, which charges and fees would not be imposed if shares are purchased directly from the Company. Therefore, you should contact the Service Organization acting on your behalf concerning the fees (if any) charged in connection with a purchase or redemption of shares and should read this Prospectus in light of the terms governing

your accounts with the Service Organization. Service Organizations will be responsible for promptly transmitting client or customer purchase and redemption orders to the Company in accordance with their agreements with the Company or its agent and with clients or customers. Service Organizations or, if applicable, their designees that have entered into agreements with the Company or its agent may enter confirmed purchase orders on behalf of clients and customers, with payment to follow no later than the Company's pricing on the following Business Day. If payment is not received by such time, the Service Organization could be held liable for resulting fees or losses. The Company will be deemed to have received a purchase or redemption order when a Service Organization, or, if applicable, its authorized designee, accepts a purchase or redemption order in good order if the order is actually received by the Company in good order not later than the next business morning. If a purchase order is not received by a Fund in good order, the Transfer Agent will contact the financial intermediary to determine the status of the purchase order. Orders received by the Company in good order will be priced at the appropriate Fund's NAV, plus any applicable sales charge, next computed after they are deemed to have been received by the Service Organization or its authorized designee.

For administration, sub-accounting, transfer agency and/or other services, the Adviser, the Distributor or their affiliates may pay Service Organizations and certain recordkeeping organizations a fee (the "Service Fee") relating to the average annual NAV of accounts with the Company maintained by such Service Organizations or record keepers. The Service Fee payable to any one Service Organization is determined based upon a number of factors, including the nature and quality of services provided, the operations processing requirements of the relationship and the standardized fee schedule of the Service Organization or recordkeeper.

In addition to fees a Fund may pay to a Service Organization under the Plans, a Fund may enter into agreements with Service Organizations pursuant to which the Fund will pay a Service Organization for networking, sub-transfer agency, sub-administration and/or sub-accounting services. These payments are generally based on either (1) a percentage of the average daily net assets of Fund shareholders serviced by the Service Organization or (2) a fixed dollar amount for each account serviced by the Service Organization. The aggregate amount of these payments may be substantial.

Class I Shares of each Fund may also be available on brokerage platforms of firms that have agreements with the Company to offer such shares when acting solely on an agency basis for the purchase or sale of such shares. If you transact in Class I Shares of a Fund through one of these programs, you may be required to pay a commission and/or other forms of compensation to the broker.

General. You may also purchase shares of the Funds at the NAV per share, plus any applicable sales charge, next calculated after your order is received by the Transfer Agent in good order as described below. Each Fund's NAV is calculated once daily at the close of regular trading hours on the NYSE (generally 4:00 p.m. Eastern time) on each day the NYSE is open. After an initial purchase is made, the Transfer Agent will set up an account for you on the Company's records. The minimum initial investment in the Funds is \$1,000,000 for Class I Shares. The minimum initial investment in the Funds for Class A Shares and Class C Shares is \$1,000. Investors in Class A Shares and Class C Shares under the Automatic Investment Plan must invest at least \$100 on a monthly basis via the Automatic Investment Plan. The minimum initial investment requirements may be reduced or waived from time to time. For purposes of meeting the minimum initial purchase, purchases by clients which are part of endowments, foundations or other related groups may be combined. You can purchase shares of the Funds only on days the NYSE is open and through the means described below. Shares may be purchased by principals and employees of the Adviser and its subsidiaries and by their spouses and children either directly or through any trust that has the principal, employee, spouse or child as the primary beneficiaries, their individual retirement accounts, or any pension and profit-sharing plan of the Adviser and its subsidiaries without being subject to the minimum investment limitations.

Initial Investment By Mail. Subject to acceptance by the Funds, an account may be opened by completing and signing an Account Application and mailing it to the Transfer Agent at the address noted below, together with a check payable to the Fund that you are purchasing. All checks must be in U.S. Dollars drawn on a domestic bank. The Funds will not accept

payment in cash or money orders. The Funds do not accept post-dated checks or any conditional order or payment. To prevent check fraud, the Funds will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares.

Regular Mail

Summit Global Investments Funds
c/o U.S. Bank Global Fund Services
P.O. Box 219252
Kansas City, MO 64121-9252

Overnight or Express Mail

Summit Global Investments Funds
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave, Suite 219252
Kansas City, MO 64105-1307

The Funds do not consider the U.S. Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

Shares will be purchased at the NAV plus any applicable sales charges next computed after the time the application and funds are received in proper order and accepted by the Funds. The Transfer Agent will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Funds, for any payment that is returned. It is the policy of the Funds not to accept applications under certain circumstances or in amounts considered disadvantageous to shareholders. The Funds reserve the right to reject any application.

Initial Investment By Wire. If you are making your first investment in the Funds, before you wire funds, the Transfer Agent must have a completed account application. You may mail or overnight deliver your account application to the Transfer Agent. Upon receipt of your completed account application, the Transfer Agent will establish an account for you. The account number assigned will be required as part of the instruction that should be provided to your bank to send the wire. Your bank must include both the name of the Fund you are purchasing, the account number, and your name so that monies can be correctly applied. Your bank should transmit funds by wire to:

Wire Instructions:

U.S. Bank National Association
777 East Wisconsin Ave
Milwaukee WI 53202
ABA 075000022

Credit:

U.S. Bancorp Fund Services
Account #112-952-137

For Further Credit to:

[Summit Fund Name]
(shareholder registration)
(shareholder account number)

Wired funds must be received prior to 4:00 p.m. Eastern time to be eligible for same day pricing. The Funds and U.S. Bank, N.A. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

Subsequent Investments – By Wire. Before sending your wire, please contact the Transfer Agent to advise them of your intent to wire funds. This will ensure prompt and accurate credit upon receipt of your wire.

Telephone Purchase. Investors may purchase additional shares of the Funds by calling 1-855-744-8500. If you did not decline this option on your account application, and your account has been open for at least 7 business days, telephone orders, in amounts of \$100 or more, will be accepted via electronic funds transfer from your bank account through the Automated Clearing House ("ACH") network. You must have banking information established on your account prior to making a purchase. If your order is received prior to 4 p.m. Eastern time, your shares will be purchased at the NAV calculated on the day your order is placed.

In order to arrange for telephone options after an account has been opened or to change your bank account, a written request must be sent to the Transfer Agent. The request must be signed by each shareholder of the account and may require a signature guarantee, signature verification from a Signature Validation Program member, or other form of signature authentication from a financial institution source.

Additional Investments. To make additional investments once you have opened your account, write your account number on the check and send it together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If you do not have the Invest by Mail form, include the Fund name, your name, address, and account number on a separate piece of paper along with your check. Initial and additional purchases made by check or electronic funds transfer (ACH) cannot be redeemed until payment of the purchase has been collected. This may take up to 15 calendar days from the purchase date. Shareholders can avoid this delay by utilizing the wire purchase option.

Automatic Investment Plan. Once your account has been opened with the initial minimum investment, you may make additional purchases at regular intervals through an automatic investment plan (the "Automatic Investment Plan"). The Automatic Investment Plan provides a convenient method to have monies deducted from your bank account, for investment into a Fund, on a monthly, quarterly, semi-annual or annual basis. Investors in Class A Shares and Class C Shares under the Automatic Investment Plan must invest at least \$100 on a monthly basis via the Automatic Investment Plan. In order to participate in the Automatic Investment Plan, your financial institution must be a member of the ACH network. Minimum monthly payments are \$100 for Class A Shares and Class C Shares and \$1,000 for Class I Shares. If your bank rejects your payment, the Funds' transfer agent will charge a \$25 fee to your account. To begin participating in the Automatic Investment Plan, please complete the Automatic Investment Plan section on the account application or call the Funds' Transfer Agent at 1-855-744-8500 for instructions. Any request to change or terminate your Automatic Investment Plan should be submitted to the Transfer Agent five (5) days prior to effective date.

Retirement Plans/IRA Accounts. The Funds offer prototype documents for a variety of retirement accounts for individuals and small businesses. Please call 1-855-744-8500 for information on:

- Individual Retirement Plan, including Traditional IRAs and Roth IRAs
- Small Business Retirement Plans, including Simple IRAs and SEP IRAs
- Coverdell Education Savings Accounts

There may be special distribution requirements for a retirement account, such as required distributions or mandatory federal income tax withholding. For more information, call the number listed above. You may be charged a \$15 annual account maintenance fee for each retirement account up to a maximum of \$30 annually and a \$25 fee for transferring assets to another custodian or for closing a retirement account.

Purchases in Kind. In certain circumstances, shares of the Funds may be purchased "in kind" (*i.e.*, in exchange for securities, rather than cash). The securities rendered in connection with an in-kind purchase must be liquid securities that are not restricted as to transfer and have a value that is readily ascertainable in accordance with the Company's valuation procedures. Securities accepted by a Fund will be valued, as set forth in this Prospectus, as of the time of the next determination of NAV after such acceptance. The shares of the Fund that are issued to the investor in exchange for the securities will be determined as of the same time. All dividends, subscriptions, or other rights that are reflected in the market price of accepted securities at the time of valuation become the property of the Fund and must be delivered to the Fund by the investor upon receipt from the issuer. A Fund will not accept securities in exchange for its shares unless such securities are, at the time of the exchange, eligible to be held by the Fund and satisfy such other conditions as may be imposed by the Adviser or the Company. Purchases in-kind may result in the recognition of gain or loss for federal income tax purposes on securities transferred to the Funds.

Other Purchase Information. The Company reserves the right, in its sole discretion, to suspend the offering of shares or to reject purchase orders when, in the judgment of management, such suspension or rejection is in the best interest of the Funds. The Adviser will monitor each Fund's total assets and may, subject to Board approval, decide to close a Fund at any time to new investments or to new accounts due to concerns that a significant increase in the size of the Fund may adversely affect the implementation of the Fund's strategy. The Adviser, subject to Board approval, may also choose to

reopen a Fund to new investments at any time, and may subsequently close the Fund again should concerns regarding the Fund's size recur. If a Fund closes to new investments, the Fund may be offered only to certain existing shareholders of the Fund and certain other persons who may be subject to cumulative, maximum purchase amounts, as follows:

- a. persons who already hold shares of the closed Fund directly or through accounts maintained by brokers by arrangement with the Adviser;
- b. employees of the Adviser and their spouses, parents and children; and
- c. Directors of the Company.

Distributions to all shareholders of a closed Fund will continue to be reinvested unless a shareholder elects otherwise. The Adviser, subject to the Board's discretion, reserves the right to implement specific purchase limitations at the time of closing, including limitations on current shareholders.

Purchases of a Fund's shares will be made in full and fractional shares of the Fund calculated to three decimal places. Certificates for shares will not be issued.

Shares may be purchased and subsequent investments may be made by principals and employees of the Adviser and their family members, either directly or through their IRAs and by any pension and profit-sharing plan of the Adviser, without being subject to the minimum investment limitation.

The Adviser is authorized to waive the minimum initial and subsequent investment requirements.

Good Order. A purchase request is considered to be in good order when all necessary information is provided and all required documents are properly completed, signed and delivered (*i.e.*, the purchase request includes the name of the Fund; the dollar amount of shares to be purchased; your account application or investment stub; and a check payable to the Fund). Purchase requests not in good order may be rejected.

Customer Identification Program. In compliance with the USA PATRIOT Act of 2001, please note that the Transfer Agent will verify certain information on your account application as part of the Company's Anti-Money Laundering Program. As requested on the account application, you must supply your full name, date of birth, social security number and permanent street address. If you are opening the account in the name of a legal entity (*e.g.*, partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. Mailing addresses containing only a P. O. Box will not be accepted. If you need additional assistance when completing your account application, please contact the Transfer Agent at 1-855-744-8500.

Applications without the required information, may not be accepted. After acceptance, to the extent permitted by applicable law or its customer identification program, the Company reserves the right (a) to place limits on transactions in any account until the identity of the investor is verified; or (b) to refuse an investment in a Company portfolio or to involuntarily redeem an investor's shares and close an account in the event that an investor's identity is not verified. The Company and its agents will not be responsible for any loss in an investor's account resulting from the investor's delay in providing all required identifying information or from closing an account and redeeming an investor's shares when an investor's identity cannot be verified.

Redemption of Fund Shares

You may redeem shares of the Funds at the next NAV calculated after a redemption request is received by the Transfer Agent in good order. A Fund's NAV is calculated once daily at the close of regular trading hours on the NYSE (generally 4:00 p.m. Eastern time) on each day the NYSE is open. You can redeem shares of a Fund only on days the NYSE is open and through the means described below.

You may redeem shares of a Fund by mail, or, if you are authorized, by telephone. The value of shares redeemed may be more or less than the purchase price, depending on the market value of the investment securities held by the Fund.

Redemption By Mail. Your redemption requests should be addressed to [Summit Fund Name], c/o U.S. Bank Global Fund Services, P.O. Box 219252, Kansas City, MO 64121-9252, or for overnight delivery to [Summit Fund Name], c/o U.S. Bank Global Fund Services, 801 Pennsylvania Ave, Suite 219252 Kansas City, MO 64105.1307 and must include:

A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption request is received by the Transfer Agent and the account address has changed within the last 15 calendar days.

The Funds may waive any of the above requirements in certain instances. In addition to the situations described above, the Funds and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the NYSE Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”). A notary public is not an acceptable signature guarantor.

The Funds do not consider the U.S. Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Funds. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

Redemption By Telephone. If you did not decline telephone options on your account application, you may initiate a redemption of shares in the amount up to the total value of the account by calling the Transfer Agent at 1-855-744-8500.

Investors may have a check sent to the address of record, proceeds may be wired to a shareholder's bank account of record, or funds may be sent via electronic funds transfer through the ACH network, also to the bank account of record. Wires are subject to a \$15 fee paid by the investor, but the investor does not incur any charge when proceeds are sent via the ACH system. Once a telephone transaction has been placed, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern time).

In order to arrange for telephone options after an account has been opened or to change your bank account, a written request must be sent to the Transfer Agent. The request must be signed by each shareholder of the account and may require a signature guarantee, signature verification from a Signature Validation Program member, or other form of signature authentication from a financial institution source.

Telephone trades must be received by or prior to market close. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction.

Before executing an instruction received by telephone, the Transfer Agent will use reasonable procedures to confirm that the telephone instructions are genuine. The telephone call may be recorded and the caller may be asked to verify certain personal identification information. If the Funds or their agents follow these procedures, they cannot be held liable for any loss, expense or cost arising out of any telephone redemption request that is reasonably believed to be genuine. This includes fraudulent or unauthorized requests. If an account has more than one owner or authorized person, the Funds will accept telephone instructions from any one owner or authorized person.

Exchange Privilege. You can exchange your shares of a Fund for shares of the same class in an identically registered account of another Fund on any day that both the Fund and the Fund into which you are exchanging are open for business. Any new account established through an exchange will be subject to the minimum investment requirements applicable to the shares acquired. Exchanges will be executed on the basis of the relative NAV of the shares exchanged. Consequently, you may receive fewer shares or more shares than originally owned, depending on that day's NAVs. Your total value of the initially held shares will equal the total value of the new shares. Be sure to read the current Prospectus for the Fund into which you are exchanging.

Beneficial holders with financial intermediary sponsored fee-based programs may be eligible to exchange their shares in a particular share class of a Fund for Shares in a different share class of that Fund if the shareholder meets the eligibility requirements for that class of shares or the shareholder is otherwise eligible to purchase that class of shares. Such an exchange will be effected at the NAV of the shares next calculated after the exchange request is received by the Transfer Agent in good order. Investors who hold Class I Shares of the Fund through a fee-based program, but who subsequently become ineligible to participate in the program or withdraw from the program, may be subject to conversion of their Class I Shares by their program provider to another class of shares of the Fund having expenses (including Rule 12b-1 fees) that may be higher than the expenses of the Class I Shares. Investors should contact their program provider to obtain information about their eligibility for the provider's program and the class of shares they would receive upon such a conversion.

An exchange of shares of one Fund for shares of another Fund is considered a sale and generally results in a capital gain or loss for federal income tax purposes unless you are a tax-exempt investor or hold your shares through a tax-deferred account such as an individual retirement account. Such tax-deferred arrangements may be taxed later upon withdrawal of monies from those arrangements.

IRA and Other Retirement Plan Redemptions. If you have an IRA, you must indicate on your written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election to have tax withheld will be subject to 10% withholding.

Shares held in IRA accounts may be redeemed by telephone at 1-855-744-8500. Investors will be asked whether or not to withhold taxes from any distribution.

Other Redemption Information. Redemption proceeds for shares of a Fund recently purchased by check or electronic funds transfer through the ACH network may not be distributed until payment for the purchase has been collected, which may take up to fifteen calendar days from the purchase date. Shareholders can avoid this delay by utilizing the wire purchase option. Redemption proceeds will ordinarily be paid within seven business days after a redemption request is received by the Transfer Agent in good order. The Company may suspend the right of redemption or postpone the date at times when the NYSE or the bond market is closed or under any emergency circumstances as determined by the SEC. The Fund typically expects to meet redemption requests by paying out proceeds from cash or cash equivalent holdings, or by selling portfolio securities. In stressed market conditions, redemption methods may include redeeming in kind.

If the Board determines that it would be detrimental to the best interests of the remaining shareholders of a Fund to make payment wholly or partly in cash, redemption proceeds may be paid in whole or in part by an in-kind distribution of readily marketable securities held by the Fund instead of cash in conformity with applicable rules of the SEC and the Company's Policy and Procedure Related to the Processing of In-Kind Redemptions. Investors generally will incur brokerage charges on the sale of portfolio securities so received in the payment of redemptions. If a shareholder receives redemption proceeds in-kind, the shareholder will bear the market risk of the securities received in the redemption until their disposition and should expect to incur transaction costs upon the disposition of the securities. The Company has elected, however, to be governed by Rule 18f-1 under the 1940 Act, so that each Fund is obligated to redeem its shares solely in cash up to the lesser of \$250,000 or 1% of its NAV during any 90-day period for any one shareholder of the Fund.

Good Order. A redemption request is considered to be in good order when your request includes: (1) the name of the Fund, (2) the number of shares or dollar amount to be redeemed, (3) the account number and (4) signatures by all of the shareholders whose names appear on the account registration with a signature guarantee, if applicable. Redemption requests not in good order may be delayed.

Involuntary Redemption. The Funds reserve the right to redeem your account at any time the value of the account falls below \$500 as the result of a redemption or an exchange request.

You will be notified in writing that the value of your account is less than \$500 and will be allowed 30 days to make additional investments before the redemption is processed.

The Funds may assert the right to redeem your shares at current NAV at any time and without prior notice if, and to the extent that, such redemption is necessary to reimburse a Fund for any loss sustained by reason of your failure to make full payment for shares of the Fund you previously purchased or subscribed for.

Dividends and Distributions

Each Fund will distribute substantially all of the net investment income and net realized capital gains, if any, of the Fund to the Fund's shareholders. All distributions are reinvested in the form of additional full and fractional shares unless you elect otherwise.

Each Fund will declare and pay dividends from net investment income annually. Net realized capital gains (including net short-term capital gains), if any, will be distributed at least annually.

The ex-dividend, record and payable dates of any annual distribution will be available by calling 855-744-8500.

All distributions are reinvested in the form of additional full and fractional shares unless you elect one of the following options: (1) receive dividends in cash while reinvesting capital gain distributions in additional Fund shares; (2) receive capital gain distributions in cash while reinvesting dividends in additional Fund shares; or (3) receive all distributions in cash. If you elect to receive distributions and/or capital gains paid in cash, and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Funds reserve the right to reinvest the distribution check in your account, at a Fund's current NAV, and to reinvest all subsequent distributions. You may change the distribution option on your account at any time. You should notify the Transfer Agent in writing or by telephone at least five (5) days prior to the next distribution.

Taxes

The following is a summary of certain United States tax considerations relevant under current law, which may be subject to change in the future. Except where otherwise indicated, the discussion relates to investors who are individual United States citizens or residents. You should consult your tax adviser for further information regarding federal, state, local and/or foreign tax consequences relevant to your specific situation.

Distributions. Each Fund contemplates distributing as dividends each year all or substantially all of its taxable income, including its net capital gain (the excess of net long-term capital gain over net short-term capital loss). Except as otherwise discussed below, you will be subject to federal income tax on Fund distributions regardless of whether they are paid in cash or reinvested in additional shares. Fund distributions attributable to short-term capital gains and net investment income will generally be taxable to you as ordinary income, except as discussed below.

Distributions attributable to the net capital gain of a Fund will be taxable to you as long-term capital gain, no matter how long you have owned your Fund shares. The maximum federal long-term capital gain rate applicable to individuals, estates, and trusts is currently 23.8% (which includes a 3.8% Medicare tax). You will be notified annually of the tax status of distributions to you.

Distributions of "qualifying dividends" will also generally be taxable to you at long-term capital gain rates, as long as certain requirements are met. In general, if 95% or more of the gross income of a Fund (other than net capital gain) consists of dividends received from domestic corporations or "qualified" foreign corporations ("qualifying dividends"), then all distributions paid by the Fund to individual shareholders will be taxed at long-term capital gains rates. But if less than 95% of the gross income of a Fund (other than net capital gain) consists of qualifying dividends, then distributions paid by the Fund to individual shareholders will be qualifying dividends only to the extent they are derived from qualifying dividends earned by the Fund. For the lower rates to apply, you must have owned your Fund shares for at least 61 days during the 121-day period beginning on the date that is 60 days before a Fund's ex-dividend date (and the Fund will need to have met a similar holding

period requirement with respect to the shares of the corporation paying the qualifying dividend). The amount of a Fund's distributions that qualify for this favorable treatment may be reduced as a result of the Fund's securities lending activities (if any), a high portfolio turnover rate or investments in debt securities or non-qualified foreign corporations.

Each Fund may make distributions to you of "section 199A dividends" with respect to qualified dividends that it receives with respect to such Fund's investments in REITs. A section 199A dividend is any dividend or part of such dividend that such Fund pays to you and reports as a section 199A dividend in written statements furnished to you. Distributions paid by a Fund that are eligible to be treated as section 199A dividends for a taxable year may not exceed the "qualified REIT dividends" received by such Fund from a REIT reduced by the Fund's allocable expenses. Section 199A dividends may be taxed to individuals and other non-corporate shareholders at a reduced effective federal income tax rate, provided you have satisfied a holding period requirement for such Fund's shares and satisfied certain other conditions. For the lower rates to apply, you must have owned your applicable Fund shares for at least 46 days during the 91-day period beginning on the date that is 45 days before the Fund's ex-dividend date, but only to the extent that you are not under an obligation (under a short-sale or otherwise) to make related payments with respect to positions in substantially similar or related property.

Distributions from a Fund will generally be taxable to you in the taxable year in which they are paid, with one exception. Distributions declared by a Fund in October, November or December and paid in January of the following year are taxed as though they were paid on December 31.

The Funds may be subject to foreign withholding or other foreign taxes on income or gain from certain foreign securities. If more than 50% of the value of the total assets of a Fund consists of stocks and securities (including debt securities) of foreign corporations at the close of a taxable year, a Fund may elect, for federal income tax purposes, to treat certain foreign taxes paid by it, including generally any withholding and other foreign income taxes, as paid by its shareholders. If a Fund makes this election, the amount of those foreign taxes paid by a Fund will be included in its shareholders' income pro rata (in addition to taxable distributions actually received by them), and each such shareholder will be entitled either (1) to credit that proportionate amount of taxes against U.S. federal income tax liability as a foreign tax credit or (2) to take that amount as an itemized deduction. If a Fund is not eligible or chooses not to make this election, the Fund will be entitled to deduct any such foreign taxes in computing the amounts it is required to distribute.

A portion of distributions paid by a Fund to shareholders that are corporations may also qualify for the dividends-received deduction for corporations, subject to certain holding period requirements and debt financing limitations. The amount of the dividends qualifying for this deduction may, however, be reduced as a result of a Fund's securities lending activities (if any), by a high portfolio turnover rate or by investments in debt securities or foreign corporations.

If you purchase shares just before a distribution, the purchase price will reflect the amount of the upcoming distribution, but you will be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of capital. This adverse tax result is known as "buying into a dividend."

Sales of Shares. You will generally recognize taxable gain or loss for federal income tax purposes on a sale or redemption of your shares based on the difference between your cost basis in the shares and the amount you receive for them. Generally, you will recognize long-term capital gain or loss if you have held your Fund shares for over twelve months at the time you dispose of them.

Any loss realized on shares held for six months or less will be treated as a long-term capital loss to the extent of any capital gain dividends that were received on the shares. Additionally, any loss realized on a disposition of shares of a Fund may be disallowed under "wash sale" rules to the extent the shares disposed of are replaced with other shares of the same Fund within a period of 61 days beginning 30 days before and ending 30 days after the shares are disposed of, such as pursuant to a dividend reinvestment in shares of a Fund. If disallowed, the loss will be reflected in an upward adjustment to the basis of the shares acquired.

For shares acquired on or after January 1, 2012, each Fund (or relevant broker or financial adviser) is required to compute and report to the Internal Revenue Service ("IRS") and furnish to Fund shareholders cost basis information when such shares are sold. The Funds have elected to use the average cost method, unless you instruct a Fund to use a different IRS-accepted cost basis method, or choose to specifically identify your shares at the time of each sale. If your account is held by your broker or other financial adviser, they may select a different cost basis method. In these cases, please contact your broker or other financial adviser to obtain information with respect to the available methods and elections for your

account. You should carefully review the cost basis information provided by the Funds and make any additional basis, holding period or other adjustments that are required when reporting these amounts on your federal and state income tax returns. Fund shareholders should consult with their tax advisers to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how the cost basis reporting requirements apply to them.

IRAs and Other Tax-Qualified Plans. The one major exception to the preceding tax principles is that distributions on, and sales and redemptions of, shares held in an IRA (or other tax-qualified plan) will not be currently taxable unless such shares were acquired with borrowed funds.

Backup Withholding. Each Fund may be required in certain cases to withhold and remit to the IRS a percentage of taxable dividends or gross proceeds realized upon sale payable to shareholders who have failed to provide a correct tax identification number in the manner required, or who are subject to withholding by the IRS for failure to properly include on their return payments of taxable interest or dividends, or who have failed to certify to the Fund that they are not subject to backup withholding when required to do so or that they are “exempt recipients.” The current backup withholding rate is 24%.

U.S. Tax Treatment of Foreign Shareholders. Generally, nonresident aliens, foreign corporations and other foreign investors are subject to a 30% withholding tax on dividends paid by a U.S. corporation, although the rate may be reduced for an investor that is a qualified resident of a foreign country with an applicable tax treaty with the United States. In the case of a regulated investment company such as a Fund, however, certain categories of dividends are exempt from the 30% withholding tax. These generally include dividends attributable to a Fund’s net capital gains (the excess of net long-term capital gains over net short-term capital losses), dividends attributable to a Fund’s interest income from U.S. obligors, and dividends attributable to net short-term capital gains of a Fund.

Foreign shareholders will generally not be subject to U.S. tax on gains realized on the sale or redemption of shares of a Fund, except that a nonresident alien individual who is present in the United States for 183 days or more in a calendar year will be taxable on such gains and on capital gain dividends from the Fund.

In contrast, if a foreign investor conducts a trade or business in the United States and the investment in a Fund is effectively connected with that trade or business, then the foreign investor’s income from the Fund will generally be subject to U.S. federal income tax at graduated rates in a manner similar to the income of a U.S. citizen or resident.

Each Fund will also generally be required to withhold 30% tax on certain payments to foreign entities that do not provide a Form W-8BEN-E that evidences their compliance with, or exemption from, specified information reporting requirements under the Foreign Account Tax Compliance Act.

All foreign investors should consult their own tax advisers regarding the tax consequences in their country of residence of an investment in a Fund.

Shares of the Fund have not been registered for sale outside of the United States and certain U.S. territories.

State and Local Taxes. You may also be subject to state and local taxes on income and gain from Fund shares. State income taxes may not apply, however, to the portions of the Fund’s distributions, if any, that are attributable to interest on U.S. government securities. You should consult your tax adviser regarding the tax status of distributions in your state and locality.

More information about taxes is contained in the Funds’ SAI.

ADDITIONAL INFORMATION

Householding. In an effort to decrease costs, the Funds intend to reduce the number of duplicate prospectuses and other similar documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders we reasonably believe are from the same family or household. Once implemented, if you would like to discontinue householding for your accounts, please call the Transfer Agent toll-free at 1-855-744-8500 to request individual copies of these documents. Once the Funds receive notice to stop householding, we will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

Lost Shareholder, Inactive Accounts and Unclaimed Property. It is important that the Fund maintains a correct address for each shareholder. An incorrect address may cause a shareholder's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the shareholder or rightful owner of the account. If the Fund is unable to locate the shareholder, then it will determine whether the shareholder's account can legally be considered abandoned. Your mutual fund account may be transferred to the state government of your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The shareholder's last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent at 1-855-744-8500 (toll free) at least annually to ensure your account remains in active status.

If you are a resident of the state of Texas, you may designate a representative to receive notifications that, due to inactivity, your mutual fund account assets may be delivered to the Texas Comptroller. Please contact the Transfer Agent if you wish to complete a Texas Designation of Representative form.

NO PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR MAKE ANY REPRESENTATIONS NOT CONTAINED IN THIS PROSPECTUS OR IN THE FUNDS' SAI INCORPORATED HEREIN BY REFERENCE, IN CONNECTION WITH THE OFFERING MADE BY THIS PROSPECTUS AND, IF GIVEN OR MADE, SUCH REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE COMPANY OR ITS DISTRIBUTOR. THIS PROSPECTUS DOES NOT CONSTITUTE AN OFFERING BY THE COMPANY OR BY THE DISTRIBUTOR IN ANY JURISDICTION IN WHICH SUCH OFFERING MAY NOT LAWFULLY BE MADE.

FINANCIAL HIGHLIGHTS

The following tables set forth certain financial information for the periods indicated. Certain information reflects financial results for a single fund share. The term "Total investment return" indicates how much your investment would have increased or decreased during this period of time and assumes that you have reinvested all dividends and distributions.

This information for the fiscal year ended August 31, 2025 has been derived from the financial statements and has been audited by Tait, Weller & Baker LLP, the independent registered public accounting firm.

Class A Shares and Class C Shares of the Global Equity Fund had not commenced operations as of the fiscal year ended August 31, 2025, and therefore no financial highlights information is presented for these Classes of the Global Equity Fund.

This information for the fiscal years ended August 31, 2024, 2023, 2022 and 2021 for the Small Cap Core Fund have been derived from the Funds' financial statements audited by the Funds' prior independent registered public accounting firms.

This information should be read in conjunction with the Funds' financial statements, which, together with the report of the independent registered public accounting firm, are included in the Funds' annual financial statements on Form N-CSR for the fiscal year ended August 31, 2025, which are available upon request (see back cover for ordering instructions).

(1) Effective as of the close of business on March 15, 2021, the Adviser took over management of the SGI Small Cap Core Fund from its predecessor investment manager.

(2) Calculated based on average shares outstanding for the period.

(3) The amount shown may not correlate with the change in the aggregate gains and losses due to the timing of sales and purchases of the Fund's shares in relation to fluctuating market values for the Fund's portfolio.

(4) Total investment return/(loss) is calculated assuming a purchase of shares on the first day and a sale of shares on the last day of each period reported and includes reinvestments of dividends and distributions, if any.

(5) During the current fiscal period, certain fees were waived and/or reimbursed. If such fee waivers and/or reimbursements had not occurred, the ratios would have been as indicated (See Note 2).

(6) Portfolio turnover is calculated for the Fund, as a whole, for the entire period.

Appendix A — PRIOR PERFORMANCE OF SIMILARLY ADVISED ACCOUNTS

U.S. Large Cap Equity Fund

The Adviser has experience in managing other accounts with substantially similar investment objectives, policies and strategies as the U.S. Large Cap Equity Fund. The table below is provided to illustrate the past performance of the Adviser in managing all such other accounts and does not represent the performance of the Fund. Investors should not consider this performance information as a substitute for the performance of the Fund, nor should investors consider this information as an indication of the future performance of the Fund or of the Adviser. This performance history is net of all fees (including any applicable sales loads) charged to investors in the other accounts. The net returns are derived using the investment advisory fixed rate fee of 1.00% on total assets applicable for each other account and calculated on a monthly basis. The composite includes other accounts that pay lower expenses than those paid by shareholders of the Fund. Higher expenses reduce returns to investors. The use of the Fund's expense structure would have lowered the performance results. The Fund's results in the future also may be different because the other accounts are not subject to certain investment limitations, diversification requirements and other restrictions imposed on mutual funds under applicable U.S. securities and tax laws that, if applicable, could have adversely affected the performance of the other accounts. In addition, the securities held by the Fund will not be identical to the securities held by the other accounts.

The performance of the other accounts is also compared to the performance of an appropriate broad-based securities benchmark index. This index is unmanaged and is not subject to fees and expenses typically associated with managed funds, including the Fund. Investors cannot invest directly in the Index. The performance information is accompanied by additional disclosures, which are an integral part of the information.

Composite . .	(1.72)%	1.92%	1.97%	4.13%	0.71%	0.11%	(2.82)%	(1.63)%	(2.17)%	4.80%	0.41%	1.84%
S&P 500® Index	(0.55)%	3.20%	(0.10)%	2.85%	(1.35)%	(1.83)%	(2.15)%	(5.68)%	(7.18)%	10.77%	(0.51)%	0.85%

¹ Performance was calculated using a time-weighted total return methodology, as set forth in Global Investment Performance Standards (“GIPS”) Section 3.3. This method of calculating performance differs from the SEC's standardized methodology, which may produce different results.

² Performance shown is composite performance of all similarly advised accounts. The first similarly advised account commenced operations on January 14, 2011, but other accounts commenced operations subsequent to January 14, 2011.

³ The S&P 500® Index is an unmanaged index composed of 500 common stocks, classified in eleven industry sectors, which represents approximately 75% of the U.S. equities market. The S&P 500® Index assigns relative values to the stocks included in the index, weighted according to each stock's total market value relative to the total market value of the other stocks included in the index.

PRIVACY NOTICE

FACTS	WHAT DO THE SUMMIT GLOBAL INVESTMENTS FUNDS DO WITH YOUR PERSONAL INFORMATION?
Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing.
