Investment Adviser:

SUMMIT GLOBAL INVESTMENTS, LLC (the "Adviser")

each a series of THE RBB FUND, INC.

This Statement of Additional Information ("SAI") provides supplementary information pertaining to the Summit Global Investments U.S. Low Volatility Equity Fund (the "U.S. Low Volatility Equity Fund"), the Summit Global Investments Small Cap Low Volatility Fund (the "Small Cap Low Volatility Fund"), and the Summit Global Investments Global Low Volatility Fund (the "Global Low Volatility Fund") (each a "Fund" and together the "Funds") of The RBB Fund, Inc. (the "Company"). The Funds are each authorized to issue three classes: Class I Shares, Class A Shares and Class C Shares (collectively, the "Shares"). This SAI is not a prospectus and should be read only in conjunction with the Funds' Prospectus dated December 31, 2018 (the "Prospectus") and the Funds' Annual Reports dated August 31, 2018 (the "Annual Reports"). The financial statements and notes contained in the Annual Reports are incorporated by reference into this SAI. No other parts of the Annual Reports are incorporated by reference herein. Copies of the Prospectus and Annual and Semi-Annual Reports may be obtained free of charge by calling toll-free 855-744-8500.

GENERAL INFORMATION

The Company is an open-end management investment company currently consisting of 32 separate portfolios. The Company is registered under the Investment Company Act of 1940, as amended, (the "1940 Act") and was organized as a Maryland corporation on February 29, 1988. This SAI pertains to the Class I, Class A and Class C Shares of the U.S. Low Volatility Equity Fund, the Class I, Class A and Class C Shares of the Small Cap Low Volatility Fund, and the Class I Shares, Class A Shares, and Class C Shares of the Global Low Volatility Fund, each a diversified portfolio. Summit Global Investments, LLC ("Summit" or the "Adviser") serves as the investment adviser to the Funds.

The Company's Board of Directors (the "Board") approved Summit to serve as the Global Low Volatility Fund's investment adviser effective January 1, 2017 in connection with the resignation of the Global Low Volatility Fund's former investment adviser. The Global Low Volatility Fund's principal investment strategies and risks changed as a result of the change in investment adviser. Prior to January 1, 2017, the Global Low Volatility Fund was named the Scotia Dynamic U.S. Growth Fund.

Before the Global Low Volatility Fund commenced operations, all of the assets and liabilities of the Dynamic U.S. Growth Fund (the "Predecessor Fund"), a series of Scotia Institutional Funds ("Predecessor Fund Trust"), which was formerly known as DundeeWealth Funds, were transferred to the Global Low Volatility Fund in a tax-free reorganization (the "Reorganization"). The Reorganization occurred on March 21, 2014. The Predecessor Fund commenced operations on March 31, 2009. As a result of the Reorganization, the performance and accounting history of the Predecessor Fund was assumed by the Global Low Volatility Fund. Financial and performance information prior to the close of business on March 21, 2014 included herein is that of the Predecessor Fund. Returns for periods prior to January 1, 2017 were generated under the management of the prior investment adviser.

INVESTMENT OBJECTIVES

The following supplements the information contained in the Prospectus concerning the investment objectives and policies of the Funds.

The U.S. Low Volatility Equity Fund seeks to outperform the S&P 500[®] Index over a market cycle while reducing overall volatility. The Small Cap Low Volatility Fund seeks to outperform the Russell 2000[®] Index over a market cycle while reducing overall volatility. The Global Low Volatility Fund seeks long-term capital appreciation.

During unusual economic or market conditions, or for temporary defensive or liquidity purposes, each Fund may invest up to 100% of its assets in money market instruments that would not ordinarily be consistent with each Fund's objective.

There can be no guarantee that a Fund will achieve its investment objective. A Fund may not necessarily invest in all of the instruments or use all of the investment techniques permitted by the Funds' Prospectus and this SAI, or invest in such instruments or engage in such techniques to the full extent permitted by the Funds' investment policies and limitations.

PRINCIPAL INVESTMENT POLICIES AND RISKS

American, European and Global Depository Receipts. As part of its principal investment strategy, the Global Low Volatility Fund invests in American Depository Receipts ("ADRs"). ADRs, as well as other "hybrid" forms of ADRs, including European Depository Receipts ("EDRs") and Global Depository Receipts ("GDRs"), are certificates evidencing ownership of shares of a foreign issuer. These certificates are issued by depository banks and generally trade on an established market in the United States or elsewhere. The underlying shares are held in trust by a custodian bank or similar financial institution in the issuer's home country. The depository bank may not have physical custody of the underlying securities at all times and may charge fees for various services, including forwarding dividends and interest and corporate actions. ADRs are alternatives to directly purchasing the underlying foreign securities in their national markets and currencies. However, ADRs continue to be subject to many of the risks associated with investing directly in foreign securities.

Investments in the securities of foreign issuers may subject the Global Low Volatility Fund to investment risks that differ in some respects from those related to investments in securities of U.S. issuers. Such risks include future adverse political and economic developments, possible imposition of withholding taxes on income, possible seizure, nationalization or expropriation of foreign deposits, possible establishment of exchange controls or taxation at the source or greater fluctuation in value due to changes in exchange rates. Foreign issuers of securities often engage in business practices different from those of domestic issuers of similar securities, and there may be less information publicly available about foreign issuers. In addition, foreign issuers are, generally speaking, subject to less government supervision and regulation and different accounting treatment than are those in the United States.

Equity Securities. Equity securities represent ownership interests in a company and consist of common stocks, preferred stocks, warrants to acquire common stock, and securities convertible into common stock. Investments in equity securities in general are subject to market risks that may cause their prices to fluctuate over time. Fluctuations in the value of equity securities in which a Fund invests will cause the net asset value (“NAV”) of the Fund to fluctuate. The Funds purchase equity securities traded in the U.S. on registered exchanges or the over-the-counter market. Equity securities are described in more detail below:

- **Common Stock.** Common stock represents an equity or ownership interest in an issuer. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds and preferred stock take precedence over the claims of those who own common stock.
- **Preferred Stock.** Preferred stock represents an equity or ownership interest in an issuer that pays dividends at a specified rate and that has precedence over common stock in the payment of dividends. In the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds take precedence over the claims of those who own preferred and common stock.
- **Warrants.** Warrants are instruments that entitle the holder to buy an equity security at a specific price for a specific period of time. Changes in the value of a warrant do not necessarily correspond to changes in the value of its underlying security. The price of a warrant may be more volatile than the price of its underlying security, and a warrant may offer greater potential for capital appreciation as well as capital loss. Warrants do not entitle a holder to dividends or voting rights with respect to the underlying security and do not represent any rights in the assets of the issuing company. A warrant ceases to have value if it is not exercised prior to its expiration date. These factors can make warrants more speculative than other types of investments.
- **Convertible Securities.** Convertible securities are bonds, debentures, notes, preferred stocks or other securities that may be converted or exchanged (by the holder or by the issuer) into shares of the underlying common stock (or cash or securities of equivalent value) at a stated exchange ratio. A convertible security may also be called for redemption or conversion by the issuer after a particular date and under certain circumstances (including a specified price) established upon issue. If a convertible security held by a Fund is called for redemption or conversion, the Fund could be required to tender it for redemption, convert it into the underlying common stock, or sell it to a third party.

Convertible securities generally have less potential for gain or loss than common stocks. Convertible securities generally provide yields higher than the underlying common stocks, but generally lower than comparable non-convertible securities. Because of this higher yield, convertible securities generally sell at a price above their “conversion value,” which is the current market value of the stock to be received upon conversion. The difference between this conversion value and the price of convertible securities will vary over time depending on changes in the value of the underlying common stocks and interest rates. When the underlying common stocks decline in value, convertible securities will tend not to decline to the same extent because of the interest or dividend payments and the repayment of principal at maturity for certain types of convertible securities. However, securities that are convertible other than at the option of the holder generally do not limit the potential for loss to the same extent as securities convertible at the option of the holder. When the underlying common stocks rise in value, the value of convertible securities may also be expected to increase. At the same time, however, the difference between the market value of convertible securities and their conversion value will narrow, which means that the value of convertible securities will generally not increase to the same extent as the value of the underlying common stocks. Because convertible securities may also be interest-rate sensitive, their value may increase as interest rates fall and decrease as interest rates rise. Convertible securities are also subject to credit risk, and are often lower-quality securities.

- **Small and Medium Capitalization Issuers.** Investing in equity securities of small and medium capitalization companies often involves greater risk than is customarily associated with investments in larger capitalization companies. This increased risk may be due to the greater business risks of smaller size, limited markets and financial resources, narrow product lines and frequent lack of depth of management. The securities of smaller companies are often traded in the over-the-counter market and even if listed on a national securities exchange may not be traded in volumes typical for that exchange. Consequently, the securities of smaller companies are less likely to be liquid, may have limited market stability, and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or the market averages in general.

Foreign Securities. Investments in foreign securities involve higher costs than investments in U.S. securities, including higher transaction costs as well as the imposition of additional taxes by foreign governments. In addition, foreign investments may include additional risks associated with currency exchange rates, less complete financial information about the issuers, less market liquidity and political stability. Volume and liquidity in most foreign bond markets are less than in the United States and, at times, volatility or price can be greater than in the United States. Future political and economic information, the possible imposition of withholding taxes on interest income, the possible seizure or nationalization of foreign holdings, the possible establishment of exchange controls, or the adoption of other governmental restrictions, might adversely affect the payment of principal and interest on foreign obligations. Inability to dispose of securities due to settlement problems could result either in losses to an underlying investment company due to subsequent declines in value of the securities, or, if the underlying investment company has entered into a contract to sell the securities, could result in possible liability to the purchaser. Individual foreign economies may differ favorably or unfavorably from the U.S. economy in such respects as growth or gross national product, rate of inflation, capital reinvestment, resource self-sufficiency and balance of payments position. Fixed commissions on foreign securities exchanges are generally higher than negotiated commissions on U.S. exchanges. There is generally less government supervision and regulation of securities exchanges, brokers, dealers and listed companies than in the United States.

Settlement mechanics may be slower or less reliable than within the United States, thus increasing the risk of delayed settlements of portfolio transactions or loss of certificates for portfolio securities. Foreign markets also have different clearance and settlement procedures, and in certain markets there have been times when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct such transactions. Such delays in settlement could result in temporary periods when a portion of the assets of an underlying investment company is uninvested and no return is earned thereon. The inability of an underlying investment company to make intended security purchases due to settlement problems could cause the underlying investment company to miss attractive investment opportunities.

Each Fund values its securities and other assets in U.S. dollars. As a result, if a Fund invests in securities denominated in foreign currencies, the NAV of the Fund's shares may fluctuate with U.S. dollar exchange rates as well as the price changes of the Fund's securities in the various local markets and currencies. Thus, an increase in the value of the U.S. dollar compared to the currencies in which the Fund makes its investments could reduce the effect of increases and magnify the effect of decreases in the price of the Fund's securities in their local markets. Conversely, a decrease in the value of the U.S. dollar may have the opposite effect of magnifying the effect of increases and reducing the effect of decreases in the prices of a Fund's securities in its foreign markets. In addition to favorable and unfavorable currency exchange rate developments, each Fund is subject to the possible imposition of exchange control regulations or freezes on convertibility of currency.

If a Fund invests in obligations of foreign branches of U.S. banks (Eurodollars) and U.S. branches of foreign banks (Yankee dollars) or foreign branches of foreign banks, these investments involve risks that are different from investments in securities of U.S. banks, including potential unfavorable political and economic developments, different tax provisions, seizure of foreign deposits, currency controls, interest limitations or other governmental restrictions which might affect payment of principal or interest. A Fund may also invest in debt securities issued or guaranteed by foreign governments, including Yankee bonds, which are issued by foreign governments and their agencies and foreign corporations, but pay interest in U.S. dollars and are typically issued in the United States.

In 2016, the United Kingdom (“UK”) held a referendum election and voters elected to withdraw from the European Union (“EU”). The United Kingdom formally notified the European Council of its intention to withdraw from the EU (commonly referred to as “Brexit”) by invoking Article 50, which triggered a two-year period of negotiations on the terms of Brexit. There is significant uncertainty regarding the potential consequences and precise timeframe for Brexit. The Funds may be exposed to risks related to Brexit, including volatile trading markets and significant and unpredictable currency fluctuations. Securities issued by companies domiciled in the UK could be subject to changing regulatory and tax regimes. Banking and financial services companies that operate in the UK or EU could be disproportionately impacted by these actions. Further insecurity in EU membership or the abandonment of the euro could exacerbate market and currency volatility and negatively impact investments in securities issued by companies located in EU countries. Brexit also may cause additional member states to contemplate departing the EU, which would likely perpetuate political and economic instability in the region and cause additional market disruption in global financial markets.

Investment Company Shares. Each Fund may invest in shares of other investment companies to the extent permitted by applicable law and subject to certain restrictions. These investment companies typically incur fees that are separate from those fees incurred directly by a Fund. A Fund’s purchase of such investment company securities results in the layering of expenses, such that shareholders would indirectly bear a proportionate share of the operating expenses of such investment companies, including advisory fees, in addition to paying the Fund’s expenses. Unless an exception is available, Section 12(d)(1)(A) of the 1940 Act prohibits a fund from (i) acquiring more than 3% of the voting shares of any one investment company, (ii) investing more than 5% of its total assets in any one investment company, and (iii) investing more than 10% of its total assets in all investment companies combined. These limits will not apply to the investment of uninvested cash balances in shares of registered or unregistered money market funds whether affiliated or unaffiliated. The foregoing exemption, however, only applies to an unregistered money market fund that (i) limits its investments to those in which a money market fund may invest under Rule 2a-7 of the 1940 Act, and (ii) undertakes to comply with all the other provisions of Rule 2a-7.

For hedging or other purposes, a Fund may invest in investment companies that seek to track the composition and/or performance of specific indexes or portions of specific indexes. Certain of these investment companies, known as exchange-traded funds (“ETFs”), are traded on a securities exchange. The market prices of index-based investments will fluctuate in accordance with changes in the underlying portfolio securities of the investment company and also due to supply and demand of the investment company’s shares on the exchange upon which the shares are traded. Index-based investments may not replicate or otherwise match the composition or performance of their specified index due to transaction costs, among other things.

Investments by a Fund in other investment companies, including ETFs, will be subject to the limitations of the 1940 Act except as permitted by SEC orders. The Funds may rely on SEC orders that permit them to invest in certain ETFs beyond the limits contained in the 1940 Act, subject to certain terms and conditions. Generally, these terms and conditions require Board to approve policies and procedures relating to certain of a Fund’s investments in ETFs. These policies and procedures require, among other things, that (i) the Adviser conducts a Fund’s investment in ETFs without regard to any consideration received by the Fund or any of its affiliated persons and (ii) the Adviser certifies to the Board quarterly that it has not received any consideration in connection with an investment by the Fund in an ETF, or if it has, the amount and purpose of the consideration will be reported to the Board and an equivalent amount of advisory fees shall be waived by the Adviser.

Certain investment companies whose securities are purchased by a Fund may not be obligated to redeem such securities in an amount exceeding 1% of the investment company’s total outstanding securities during any period of less than 30 days. Therefore, such securities that exceed this amount may be illiquid.

If required by the 1940 Act, the Funds expect to vote the shares of other investment companies that are held by it in the same proportion as the vote of all other holders of such securities.

Special Note Regarding Market Events. Events in the financial sector over the past several years have resulted in reduced liquidity in credit and fixed income markets and an unusually high degree of volatility in the financial markets, both domestically and internationally. While entire markets have been impacted, issuers that have exposure to the real estate, mortgage and credit markets have been particularly affected. These events and the potential for continuing market turbulence may have an adverse effect on each Fund’s investments. It is uncertain how long these conditions will continue.

The instability in the financial markets has led the U.S. government to take a number of unprecedented actions designed to support certain financial institutions and certain segments of the financial markets. Federal, state and foreign governments, regulatory agencies, and self-regulatory organizations may take actions that affect the regulation of the instruments in which the Funds invest, or the issuers of such instruments, in ways that are unforeseeable. Such legislation or regulation could limit or preclude each Fund's ability to achieve its investment objective.

Governments or their agencies may also acquire distressed assets from financial institutions and acquire ownership interests in those institutions. The implications of government ownership and disposition of these assets are unclear, and such ownership or disposition may have positive or negative effects on the liquidity, valuation and performance of a Fund.

NON-PRINCIPAL INVESTMENT POLICIES AND RISKS

Borrowing. Each Fund may borrow money from a bank equal to 5% of its total assets for temporary purposes to meet redemptions or to pay dividends. Borrowing may exaggerate changes in the NAV of a Fund's shares and in the return on a Fund's portfolio. Although the principal of any borrowing will be fixed, a Fund's assets may change in value during the time the borrowing is outstanding. A Fund may be required to liquidate portfolio securities at a time when it would be disadvantageous to do so in order to make payments with respect to any borrowing. A Fund may be required to earmark or segregate liquid assets in an amount sufficient to meet its obligations in connection with such borrowings. In an interest rate arbitrage transaction, a Fund borrows money at one interest rate and lends the proceeds at another, higher interest rate. These transactions involve a number of risks, including the risks that the borrower will fail or otherwise become insolvent or that there will be a significant change in prevailing interest rates.

Commercial Paper. Commercial paper is the term used to designate unsecured short-term promissory notes issued by corporations and other entities. Maturities on these issues vary from a few to 270 days.

Corporate Obligations. Each Fund may invest in debt obligations, such as bonds and debentures, issued by corporations and other business organizations without limit on credit quality or maturity. See Appendix "A" to this SAI for a description of corporate debt ratings. An issuer of debt obligations may default on its obligation to pay interest and repay principal. Also, changes in the financial strength of an issuer or changes in the credit rating of a security may affect its value.

Cyber Security Risk. Each Fund and its service providers may be prone to operational and information security risks resulting from breaches in cyber security. A breach in cyber security refers to both intentional and unintentional events that may cause a Fund to lose proprietary information, suffer data corruption, or lose operational capacity. Breaches in cyber security include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other forms of cyber-attacks. Cyber security breaches affecting the Funds or the Adviser, custodian, transfer agent, intermediaries and other third-party service providers may adversely impact the Funds. For instance, cyber security breaches may interfere with the processing of shareholder transactions, impact a Fund's ability to calculate its NAVs, cause the release of private shareholder information or confidential business information, impede trading, subject the Funds to regulatory fines or financial losses and/or cause reputational damage. A Fund may also incur additional costs for cyber security risk management purposes. Similar types of cyber security risks are also present for issuers of securities in which a Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund's investment in such companies to lose value. While the Funds and their service providers have established IT and data security programs and have in place business continuity plans and other systems designed to prevent losses and mitigate cyber security risk, there are inherent limitations in such plans and systems, including the possibility that certain risks have not been identified or that cyber-attacks may be highly sophisticated.

Forward Commitment and When-Issued Transactions. Each Fund may purchase or sell securities on a when-issued or forward commitment basis (subject to its investment policies and restrictions). These transactions involve a commitment by a Fund to purchase or sell securities at a future date (ordinarily one or two months later). The price of the underlying securities (usually expressed in terms of yield) and the date when the securities will be delivered and paid for (the settlement date) are fixed at the time the transaction is negotiated. When-issued purchases and forward commitments are negotiated directly with the other party, and such commitments are not traded on exchanges. The Funds will not enter into such transactions for the purpose of leverage.

When-issued purchases and forward commitments enable a Fund to lock in what is believed by the Adviser to be an attractive price or yield on a particular security for a period of time, regardless of future changes in interest rates. For instance, in periods of rising interest rates and falling prices, a Fund might sell securities it owns on a forward commitment basis to limit its exposure to falling prices. In periods of falling interest rates and rising prices, a Fund might sell securities it owns and purchase the same or a similar security on a when-issued or forward commitment basis, thereby obtaining the benefit of currently higher yields. When-issued securities or forward commitments involve a risk of loss if the value of the security to be purchased declines prior to the settlement date.

The value of securities purchased on a when-issued or forward commitment basis and any subsequent fluctuations in their value are reflected in the computation of a Fund's NAV starting on the date of the agreement to purchase the securities, and the Fund is subject to the rights and risks of ownership of the securities on that date. A Fund does not earn interest on the securities it has committed to purchase until they are paid for and delivered on the settlement date. When a Fund makes a forward commitment to sell securities it owns, the proceeds to be received upon settlement are included in the Fund's assets. Fluctuations in the market value of the underlying securities are not reflected in the Fund's NAV as long as the commitment to sell remains in effect. Settlement of when-issued purchases and forward commitment transactions generally takes place within two months after the date of the transaction, but a Fund may agree to a longer settlement period.

A Fund will make commitments to purchase securities on a when-issued basis or to purchase or sell securities on a forward commitment basis only with the intention of completing the transaction and actually purchasing or selling the securities. If deemed advisable as a matter of investment strategy, however, the Fund may dispose of or renegotiate a commitment after it is entered into. The Fund also may sell securities it has committed to purchase before those securities are delivered to the Fund on the settlement date. The Fund may realize a capital gain or loss in connection with these transactions, and its distributions from any net realized capital gains will be taxable to shareholders. When a Fund purchases securities on a when-issued or forward commitment basis, the Fund or the custodian will maintain in a segregated account cash or liquid securities having a value (determined daily) at least equal to the amount of the Fund's purchase commitments. These procedures are designed to ensure that a Fund will maintain sufficient assets at all times to cover its obligations under when-issued purchases and forward commitments.

Futures and Options on Futures. Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of a specific security at a specified future time and at a specified price. An option on a futures contract gives the purchaser the right, in exchange for a premium, to assume a position in a futures contract at a specified exercise price during the term of the option. The Funds will reduce the risk that they will be unable to close out a futures contract by only entering into futures contracts that are traded on a national futures exchange regulated by the Commodities Futures Trading Commission ("CFTC"). The Funds may use futures contracts and related options for: bona fide hedging; attempting to offset changes in the value of securities held or expected to be acquired or be disposed of; attempting to minimize fluctuations in foreign currencies; attempting to gain exposure to a particular market, index or instrument; or other risk management purposes. To the extent futures and/or options on futures are employed by a Fund, the Fund will limit such investments in commodity futures, commodity options contracts and swaps to below the de minimis thresholds adopted by the CFTC in its recent amendments to Rule 4.5 (see below for a description of these thresholds). For this reason, the Adviser is not required to register as a "commodity pool operator" ("CPO") under the Commodity Exchange Act at this time.

With respect to investments in swap transactions, commodity futures, commodity options or certain other derivatives used for purposes other than *bona fide* hedging purposes, an investment company must meet one of the following tests under the amended regulations in order to claim an exemption from being considered a "commodity pool" or a CPO. First, the aggregate initial margin and premiums required to establish an investment company's positions in such investments may not exceed five percent (5%) of the liquidation value of the investment company's portfolio (after accounting for unrealized profits and unrealized losses on any such investments). Alternatively, the aggregate net notional value of such instruments, determined at the time of the most recent position established, may not exceed one hundred percent (100%) of the liquidation value of the investment company's portfolio (after accounting for unrealized profits and unrealized losses on any such positions). In addition to meeting one of the foregoing trading limitations, the investment company may not market itself as a commodity pool or otherwise as a vehicle for trading in the commodity futures, commodity options or swaps and derivatives markets. In the event that the Adviser was required to register as a CPO with respect to a Fund, the disclosure and operations of the Fund would need to comply with all applicable CFTC regulations.

An index futures contract is a bilateral agreement pursuant to which two parties agree to take or make delivery of an amount of cash equal to a specified dollar amount times the difference between the index value at the close of trading of the contract and the price at which the futures contract is originally struck. No physical delivery of the securities comprising the index is made; generally, contracts are closed out prior to the expiration date of the contract.

When a Fund purchases or sells a futures contract, or sells an option thereon, the Fund is required to “cover” its position in order to limit leveraging and related risks. To cover its position, a Fund may segregate (and mark-to-market on a daily basis) cash or liquid securities that, when added to any amounts deposited with a futures commission merchant as margin, are equal to the market value of the futures contract or otherwise “cover” its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. The segregated account functions as a practical limit on the amount of leverage which a Fund may undertake and on the potential increase in the speculative character of the Fund’s outstanding portfolio securities. Additionally, such segregated accounts will generally assure the availability of adequate funds to meet the obligations of a Fund arising from such investment activities.

A Fund may also cover its long position in a futures contract by purchasing a put option on the same futures contract with a strike price (i.e., an exercise price) as high or higher than the price of the futures contract. In the alternative, if the strike price of the put is less than the price of the futures contract, a Fund will segregate cash or liquid securities equal in value to the difference between the strike price of the put and the price of the futures contract. A Fund may also cover its long position in a futures contract by taking a short position in the instruments underlying the futures contract, or by taking positions in instruments with prices which are expected to move relatively consistently with the futures contract. A Fund may cover its short position in a futures contract by taking a long position in the instruments underlying the futures contracts, or by taking positions in instruments with prices which are expected to move relatively consistently with the futures contract.

A Fund may cover its sale of a call option on a futures contract by taking a long position in the underlying futures contract at a price less than or equal to the strike price of the call option. In the alternative, if the long position in the underlying futures contract is established at a price greater than the strike price of the written (sold) call, the Fund will maintain in a segregated account cash or liquid securities equal in value to the difference between the strike price of the call and the price of the futures contract. A Fund may also cover its sale of a call option by taking positions in instruments with prices which are expected to move relatively consistently with the call option. A Fund may cover its sale of a put option on a futures contract by taking a short position in the underlying futures contract at a price greater than or equal to the strike price of the put option, or, if the short position in the underlying futures contract is established at a price less than the strike price of the written put, the Fund will maintain in a segregated account cash or liquid securities equal in value to the difference between the strike price of the put and the price of the futures contract. A Fund may also cover its sale of a put option by taking positions in instruments with prices which are expected to move relatively consistently with the put option.

There are significant risks associated with a Fund’s use of futures contracts and related options, including the following: (1) the success of a hedging strategy may depend on the Adviser’s ability to predict movements in the prices of individual securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect or no correlation between the changes in market value of the securities held by the Fund and the prices of futures and options on futures; (3) there may not be a liquid secondary market for a futures contract or option; (4) trading restrictions or limitations may be imposed by an exchange; and (5) government regulations may restrict trading in futures contracts and options on futures. In addition, some strategies reduce a Fund’s exposure to price fluctuations, while others tend to increase its market exposure.

Illiquid Securities. Illiquid securities are securities that cannot be sold or disposed of in the ordinary course of business (within seven days) at approximately the prices at which they are valued. Because of their illiquid nature, illiquid securities must be priced at fair value as determined in good faith pursuant to procedures approved by the Board. Despite such good faith efforts to determine fair value prices, a Fund’s illiquid securities are subject to the risk that the security’s fair value price may differ from the actual price which the Fund may ultimately realize upon its sale or disposition. Difficulty in selling illiquid securities may result in a loss or may be costly to a Fund. Under the supervision of the Board, the Adviser determines the liquidity of each Fund’s investments. In determining the liquidity of a Fund’s investments, the Adviser may consider various factors, including: (1) the frequency and volume of trades and quotations; (2) the number of dealers and prospective purchasers in the marketplace; (3) dealer undertakings to make a market; and (4) the nature of the security and the market in which it trades (including any demand, put or tender features, the mechanics and other requirements for transfer, any letters of credit or other credit enhancement features, any ratings, the number of holders, the method of soliciting offers, the time required to dispose of the security, and the ability to assign or offset the rights and obligations of the security). Each Fund will not hold more than 15% of its net assets in illiquid securities.

In October 2016, the SEC adopted a liquidity risk management rule, Rule 22e-4 (the “Liquidity Rule”), that requires the Funds to establish a liquidity risk management program by June 1, 2019. On or about June 1, 2019, in connection with the implementation of the Liquidity Rule, the term “illiquid security” will be defined as a security which a Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the security. If the limitation on illiquid securities is exceeded, other than by a change in market values, the condition will be reported to the Board and, when required by the Liquidity Rule, to the SEC.

The impact the Liquidity Rule will have on the Funds is not yet fully known, but the Liquidity Rule could impact a Fund’s performance and its ability to achieve its investment objective.

Inflation-Protected Securities. Each Fund may invest in inflation-protected securities issued by the U.S. Treasury, known as “TIPs” or “Treasury Inflation-Protected Securities,” which are debt securities whose principal and interest payments are adjusted for inflation and interest is paid on the adjusted amount. The inflation adjustment, which is typically applied monthly to the principal of the bond, follows a designated inflation index, such as the consumer price index. A fixed coupon rate is applied to the inflation-adjusted principal so that as inflation rises, both the principal value and the interest payments increase. This can provide investors with a hedge against inflation, as it helps preserve the purchasing power of the investment. Inflation-protected securities normally will decline in price when real interest rates rise. (A real interest rate is calculated by subtracting the inflation rate from a nominal interest rate. For example, if a 10-year Treasury note is yielding 5% and inflation is 2%, the real interest rate is 3%.) If inflation is negative, the principal and income of an inflation-protected security will decline and could result in losses for a Fund.

Any increase in principal for an inflation-protected security resulting from inflation adjustments is considered by Internal Revenue Service regulations to be taxable income in the year it occurs. For direct holders of an inflation-protected security, this means that taxes must be paid on principal adjustments even though these amounts are not received until the bond matures. By contrast, a Fund holding these securities distributes both interest income and the income attributable to principal adjustments in the form of cash or reinvested shares, which are taxable to shareholders.

Initial Public Offerings. To the extent consistent with its investment policies and limitations, each Fund may purchase stock in an initial public offering (“IPO”). An IPO is a company’s first offering of stock to the public. Risks associated with IPOs may include considerable fluctuation in the market value of IPO shares due to certain factors, such as the absence of a prior public market, unseasoned trading, a limited number of shares available for trading, lack of information about the issuer and limited operating history. The purchase of IPO shares may involve high transaction costs. When a Fund’s asset base is small, a significant portion of the Fund’s performance could be attributable to investments in IPOs, because such investments would have a magnified impact on the underlying investment company. As a Fund’s assets grow, the effect of the Fund’s investments in IPOs on the Fund’s performance probably will decline, which could reduce the Fund’s performance. Because of the price volatility of IPO shares, a Fund may choose to hold IPO shares for a very short period of time. This may increase the turnover of a Fund’s portfolio and may lead to increased expenses to the Fund, such as commissions and transaction costs. In addition, a Fund cannot guarantee continued access to IPOs.

Large Shareholder Purchase and Redemption Risk. Each Fund may experience adverse effects when certain large shareholders purchase or redeem large amounts of shares of the Fund. Such large shareholder redemptions may cause a Fund to sell its securities at times when it would not otherwise do so, which may negatively impact the Fund’s NAV and liquidity. Similarly, large share purchases may adversely affect the Fund’s performance to the extent that the Fund is delayed in investing new cash and is required to maintain a larger cash position than it ordinarily would. In addition, a large redemption could result in the Fund’s current expenses being allocated over a smaller asset base, leading to an increase in the Fund’s expense ratio. However, this risk may be limited to the extent that the Adviser and a Fund have entered into a fee waiver and/or expense reimbursement arrangement.

Money Market Securities. During unusual economic or market conditions, or for temporary defensive or liquidity purposes, each Fund may invest up to 100% of its assets in money market instruments (the types of which are discussed below) that would not ordinarily be consistent with the Fund's objective. For purposes of these policies, money market securities include (i) short-term U.S. government securities, including custodial receipts evidencing separately traded interest and principal components of securities issued by the U.S. Treasury; (ii) commercial paper rated in the highest short-term rating category by a nationally recognized statistical ratings organization ("NRSRO"), such as S&P Global Ratings ("S&P") or Moody's Investors Service ("Moody's"), or determined by the Adviser to be of comparable quality at the time of purchase; (iii) short-term bank obligations (certificates of deposit, time deposits and bankers' acceptances) of U.S. domestic banks, foreign banks and foreign branches of domestic banks, and commercial banks with assets of at least \$1 billion as of the end of their most recent fiscal year; and (iv) repurchase agreements involving such securities. Each of these types of money market securities is discussed in more detail below. For a description of ratings, see Appendix A to this SAI.

Obligations of Domestic Banks, Foreign Banks and Foreign Branches of U.S. Banks. Each Fund may invest in obligations issued by banks and other savings institutions. Investments in bank obligations include obligations of domestic branches of foreign banks and foreign branches of domestic banks. Such investments in domestic branches of foreign banks and foreign branches of domestic banks may involve risks that are different from investments in securities of domestic branches of U.S. banks. These risks may include future unfavorable political and economic developments, possible withholding taxes on interest income, seizure or nationalization of foreign deposits, currency controls, interest limitations, or other governmental restrictions which might affect the payment of principal or interest on the securities held by a Fund. Additionally, these institutions may be subject to less stringent reserve requirements and to different accounting, auditing, reporting and recordkeeping requirements than those applicable to domestic branches of U.S. banks. In addition, investments in bank loans may not be deemed to be securities and may not have the protections of the federal securities laws. Bank obligations include the following:

- **Bankers' Acceptances.** Bankers' acceptances are bills of exchange or time drafts drawn on and accepted by a commercial bank. Corporations use bankers' acceptances to finance the shipment and storage of goods and to furnish dollar exchange. Maturities are generally six months or less.
- **Certificates of Deposit.** Certificates of deposit are interest-bearing instruments with a specific maturity. They are issued by banks and savings and loan institutions in exchange for the deposit of funds and normally can be traded in the secondary market prior to maturity. Certificates of deposit with penalties for early withdrawal will be considered illiquid.
- **Time Deposits.** Time deposits are non-negotiable receipts issued by a bank in exchange for the deposit of funds. Like a certificate of deposit, it earns a specified rate of interest over a definite period of time; however, it cannot be traded in the secondary market. Time deposits with a withdrawal penalty or that mature in more than seven days are considered to be illiquid securities.

Options. Each Fund may purchase and write put and call options on securities and securities indices and enter into related closing transactions. A put option on a security gives the purchaser of the option the right to sell, and the writer of the option the obligation to buy, the underlying security at any time during the option period. A call option on a security gives the purchaser of the option the right to buy, and the writer of the option the obligation to sell, the underlying security at any time during the option period. The premium paid to the writer is the consideration for undertaking the obligations under the option contract.

Put and call options on securities indices are similar to options on securities except that options on an index give the holder the right to receive, upon exercise of the option, an amount of cash if the closing level of the underlying index is greater than (or less than, in the case of puts) the exercise price of the option. This amount of cash is equal to the difference between the closing price of the index and the exercise price of the option, expressed in dollars multiplied by a specified number. Thus, unlike options on individual securities, all settlements are in cash, and gain or loss depends on price movements in the particular market represented by the index generally, rather than the price movements in individual securities.

All options written on indices or securities must be covered. When a Fund writes an option on a security or an index, it will establish a segregated account containing cash or liquid securities in an amount at least equal to the market value of the option and will maintain the account while the option is open or will otherwise cover the transaction.

A Fund may trade put and call options on securities and securities indices, as the Adviser determines is appropriate in seeking the Fund's investment objective, and except as restricted by the Fund's investment limitations. See "Investment Limitations."

The initial purchase (sale) of an option contract is an "opening transaction." In order to close out an option position, a Fund may enter into a "closing transaction," which is simply the sale (purchase) of an option contract on the same security with the same exercise price and expiration date as the option contract originally opened. If a Fund is unable to effect a closing purchase transaction with respect to an option it has written, it will not be able to sell the underlying security until the option expires or the Fund delivers the security upon exercise.

A Fund may purchase put and call options on securities to protect against a decline in the market value of the securities in its portfolio or to anticipate an increase in the market value of securities that the Fund may seek to purchase in the future. A Fund purchasing put and call options pays a premium therefor. If price movements in the underlying securities are such that exercise of the options would not be profitable for a Fund, loss of the premium paid may be offset by an increase in the value of the Fund's securities or by a decrease in the cost of acquisition of securities by the Fund.

A Fund may write covered call options on securities as a means of increasing the yield on its assets and as a means of providing limited protection against decreases in its market value. When a Fund writes an option, if the underlying securities do not increase or decrease to a price level that would make the exercise of the option profitable to the holder thereof, the option generally will expire without being exercised and the Fund will realize as profit the premium received for such option. When a call option of which a Fund is the writer is exercised, the Fund will be required to sell the underlying securities to the option holder at the strike price, and will not participate in any increase in the price of such securities above the strike price. When a put option of which a Fund is the writer is exercised, the Fund will be required to purchase the underlying securities at a price in excess of the market value of such securities.

A Fund may purchase and write options on an exchange or over-the-counter. Over-the-counter options ("OTC options") differ from exchange-traded options in several respects. They are transacted directly with dealers and not with a clearing corporation, and therefore entail the risk of non-performance by the dealer. OTC options are available for a greater variety of securities and for a wider range of expiration dates and exercise prices than are available for exchange-traded options. Because OTC options are not traded on an exchange, pricing is done normally by reference to information from a market maker. It is the SEC's position that OTC options are generally illiquid.

The market value of an option generally reflects the market price of an underlying security. Other principal factors affecting market value include supply and demand, interest rates, the pricing volatility of the underlying security and the time remaining until the expiration date.

Risks associated with options transactions include: (1) the success of a hedging strategy may depend on an ability to predict movements in the prices of individual securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect correlation between the movement in prices of options and the securities underlying them; (3) there may not be a liquid secondary market for options; and (4) while a Fund will receive a premium when it writes covered call options, it may not participate fully in a rise in the market value of the underlying security.

Repurchase Agreements. Each Fund may enter into repurchase agreements with financial institutions. A repurchase agreement is an agreement under which a Fund acquires a fixed income security (generally a security issued by the U.S. government or an agency thereof, a banker's acceptance, or a certificate of deposit) from a commercial bank, broker, or dealer, and simultaneously agrees to resell such security to the seller at an agreed upon price and date (normally, the next business day). Because the security purchased constitutes collateral for the repurchase obligation, a repurchase agreement may be considered a loan that is collateralized by the security purchased. The acquisition of a repurchase agreement may be deemed to be an acquisition of the underlying securities as long as the obligation of the seller to repurchase the securities is collateralized fully. The Funds follow certain procedures designed to minimize the risks inherent in such agreements. These procedures include effecting repurchase transactions only with creditworthy financial institutions whose condition will be continually monitored by the Adviser. The repurchase agreements entered into by a Fund will provide that the underlying collateral at all times shall have a value at least equal to 102% of the resale price stated in the agreement and consist only of securities permissible under Section 101(47)(A)(i) of the Bankruptcy Code (the Adviser monitors compliance with this requirement). Under all repurchase agreements entered into by a Fund, the custodian or its agent must take possession of the underlying collateral. In the event of a default or bankruptcy by a selling financial institution, a Fund will seek to liquidate such collateral. However, the exercising of a Fund's right to liquidate such collateral could involve certain costs or delays and, to the extent that proceeds from any sale upon a default of the obligation to repurchase were less than the repurchase price, the Fund could suffer a loss. It is the current policy of the Funds, not to invest in repurchase agreements that do not mature within seven days if any such investment, together with any other illiquid assets held by that Fund, amounts to more than 15% of the Fund's total assets. The investments of a Fund in repurchase agreements, at times, may be substantial when, in the view of the Adviser, liquidity or other considerations so warrant.

Restricted Securities. Each Fund may purchase securities which are not registered under the Securities Act of 1933 (“1933 Act”) but which may be sold to “qualified institutional buyers” in accordance with Rule 144A under the 1933 Act (“Restricted Securities”). These securities will not be considered illiquid so long as it is determined by the Adviser that an adequate trading market exists for the securities. This investment practice could have the effect of increasing the level of illiquidity in an underlying investment company during any period that qualified institutional buyers become uninterested in purchasing restricted securities. In reaching liquidity decisions, the Adviser may consider, among others, the following factors: (1) the unregistered nature of the security; (2) the frequency of trades and quotes for the security; (3) the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; (4) dealer undertakings to make a market in the security; and (5) the nature of the security and the nature of the marketplace trades (e.g., the time needed to dispose of the security, the method of soliciting offers and the mechanics of the transfer).

The purchase price and subsequent valuation of Restricted Securities normally reflect a discount from the price at which such securities trade when they are not restricted, since the restriction makes them less liquid. The amount of the discount from the prevailing market price is expected to vary depending upon the type of security, the character of the issuer, the party who will bear the expenses of registering the Restricted Securities and prevailing supply and demand conditions.

As consistent with each Fund’s respective investment objective, the Funds may also invest in Section 4(2) commercial paper. Section 4(2) commercial paper is issued in reliance on an exemption from registration under Section 4(2) of the 1933 Act and is generally sold to institutional investors who purchase for investment. Any resale of such commercial paper must be in an exempt transaction, usually to an institutional investor through the issuer or investment dealers who make a market in such commercial paper. The Company believes that Section 4(2) commercial paper is liquid to the extent it meets the criteria established by the Board. The Company intends to treat such commercial paper as liquid and not subject to the investment limitations applicable to illiquid securities or restricted securities.

Reverse Repurchase Agreements. Each Fund may enter into reverse repurchase agreements with respect to portfolio securities for temporary purposes (such as to obtain cash to meet redemption requests) when the liquidation of portfolio securities is deemed disadvantageous or inconvenient by the Adviser. Reverse repurchase agreements involve the sale of securities held by a Fund subject to the Fund’s agreement to repurchase the securities at an agreed-upon price, date and rate of interest. Such agreements may be considered borrowings under the 1940 Act and may be entered into only for temporary or emergency purposes. While reverse repurchase transactions are outstanding, the Fund will maintain in a segregated account with the Fund’s custodian or a qualified sub-custodian, cash or liquid securities of an amount at least equal to the market value of the securities, plus accrued interest, subject to the agreement and will monitor the account to ensure that such value is maintained. Reverse repurchase agreements involve the risk that the market value of the securities sold by a Fund may decline below the price of the securities the Fund is obligated to repurchase and the interest received on the cash exchanged for the securities.

Rights Offerings and Purchase Warrants. Rights offerings and purchase warrants are privileges issued by a corporation which enable the owner to subscribe to and purchase a specified number of shares of the corporation at a specified price during a specified period of time. Subscription rights normally have a short lifespan to expiration. The purchase of rights or warrants involves the risk that a Fund could lose the purchase value of a right or warrant if the right to subscribe to additional shares is not executed prior to the right's or warrant's expiration. Also, the purchase of rights and/or warrants involves the risk that the effective price paid for the right and/or warrant added to the subscription price of the related security may exceed the value of the subscribed security's market price such as when there is no movement in the level of the underlying security.

Risk Considerations of Medium Grade Securities. Debt obligations in the lowest investment grade (*i.e.*, BBB or Baa), referred to as "medium grade" obligations, have speculative characteristics, and changes in economic conditions and other factors are more likely to lead to weakened capacity to make interest payments and repay principal on these obligations than is the case for higher rated securities. In the event that a security purchased by a Fund is subsequently downgraded below investment grade, the Adviser will consider such event in its determination of whether the Fund should continue to hold the security.

Risk Considerations of Lower Rated Securities. Each Fund may invest in fixed income securities that are not investment grade but are rated as low as B by Moody's or B by S&P (or their equivalents or, if unrated, determined by the Adviser to be of comparable credit quality). In the case of a security that is rated differently by two or more rating services, the higher rating is used in connection with the foregoing limitation. In the event that the rating on a security held in a Fund's portfolio is downgraded by a rating service, such action will be considered by the Adviser in its evaluation of the overall investment merits of that security, but will not necessarily result in the sale of the security. The widespread expansion of government, consumer and corporate debt within the U.S. economy has made the corporate sector, especially cyclically sensitive industries, more vulnerable to economic downturns or increased interest rates. An economic downturn could severely disrupt the market for high yield fixed income securities and adversely affect the value of outstanding fixed income securities and the ability of the issuers to repay principal and interest.

Each Fund may invest in high yield debt obligations, such as bonds and debentures, issued by corporations and other business organizations. A Fund will invest in high yield debt instruments when the Adviser believes that such instruments offer a better risk/reward profile than comparable equity opportunities. High yield fixed income securities (commonly known as "junk bonds") are considered speculative investments while generally providing greater income than investments in higher rated securities, involve greater risk of loss of principal and income (including the possibility of default or bankruptcy of the issuers of such securities) and may involve greater volatility of price (especially during periods of economic uncertainty or change) than securities in the higher rating categories. Since yields vary over time, no specific level of income can ever be assured.

The prices of high yield fixed income securities have been found to be less sensitive to interest rate changes than higher-rated investments but more sensitive to adverse economic changes or individual corporate developments. Also, during an economic downturn or substantial period of rising interest rates, highly leveraged issuers may experience financial stress, which would adversely affect their ability to service their principal and interest payment obligations, to meet projected business goals and to obtain additional financing. If the issuer of a fixed income security owned by a Fund defaulted, the Fund could incur additional expenses in attempting to obtain a recovery. In addition, periods of economic uncertainty and changes can be expected to result in increased volatility of market prices of high yield fixed income securities and a Fund's NAV to the extent it holds such securities.

High yield fixed income securities also present risks based on payment expectations. For example, high yield fixed income securities may contain redemption or call provisions. If an issuer exercises these provisions in a declining interest rate market, a Fund may, to the extent it holds such fixed income securities, have to replace the securities with a lower yielding security, which may result in a decreased return for investors. Conversely, a high yield fixed income security's value will decrease in a rising interest rate market, as will the value of a Fund's assets, to the extent it holds such fixed income securities. In addition, to the extent that there is no established retail secondary market, there may be thin trading of high yield fixed income securities, and this may have an impact on the Adviser's ability to accurately value such securities and a Fund's assets and on the Fund's ability to dispose of such securities. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, may decrease the values and liquidity of high yield fixed income securities, especially in a thinly traded market.

New laws proposed or adopted from time to time may have an impact on the market for high yield securities.

Finally, there are risks involved in applying credit or dividend ratings as a method for evaluating high yield securities. For example, ratings evaluate the safety of principal and interest or dividend payments, not market value risk of high yield securities. Also, since rating agencies may fail to timely change the credit ratings to reflect subsequent events, each Fund will continuously monitor the issuers of high yield securities in its portfolio, if any, to determine if the issuers will have sufficient cash flow and profits to meet required principal and interest payments, and to assure the security's liquidity so each Fund can meet redemption requests.

Securities Lending. Each Fund may lend its portfolio securities to financial institutions. Such loans would involve risks of delay in receiving additional collateral in the event the value of the collateral decreases below the value of the securities loaned or of delay in recovering the securities loaned or even loss of rights in the collateral should the borrower of the securities fail financially. However, loans will be made only to borrowers which the Adviser deems to be of good standing and only when, in the Adviser's judgment, the income to be earned from the loans justifies the attendant risks. A Fund may not make loans in excess of 33^{1/3}% of the value of its total assets. A Fund may pay a part of the interest earned from the investment of collateral, or other fee, to an unaffiliated or, to the extent consistent with the 1940 Act or the rules and SEC interpretations thereunder, affiliated third party for acting as a Fund's securities lending agent.

By lending its securities, a Fund may increase its income by receiving payments from the borrower that reflect the amount of any interest or any dividends payable on the loaned securities as well as by either investing cash collateral received from the borrower in short-term instruments or obtaining a fee from the borrower when U.S. government securities or letters of credit are used as collateral. A Fund does not have the right to vote loaned securities. A Fund may attempt to call loaned securities back to permit the exercise of voting rights if time and jurisdictional restrictions permit. There is no guarantee that all loans can be recalled.

Special Situation Companies. Each Fund may invest in "Special Situations." The term "Special Situation" shall be deemed to refer to a security of a company in which an unusual and possibly non-repetitive development is taking place which, in the opinion of the Adviser, may cause the security to attain a higher market value independently, to a degree, of the trend in the securities market in general. The particular development (actual or prospective), which may qualify a security as a Special Situation, may be one of many different types.

Such developments may include, among others, a technological improvement or important discovery or acquisition which, if the expectation for it materialized, would effect a substantial change in the company's business; a reorganization; a recapitalization or other development involving a security exchange or conversion; a merger, liquidation or distribution of cash, securities or other assets; a breakup or workout of a holding company; litigation which, if resolved favorably, would improve the value of the company's stock; a new or changed management; or material changes in management policies. A Special Situation may often involve a comparatively small company, which is not well known, and which has not been closely watched by investors generally, but it may also involve a large company. The fact, if it exists, that an increase in the company's earnings, dividends or business is expected, or that a given security is considered to be undervalued, would not in itself be sufficient to qualify as a Special Situation. A Fund may invest in securities (even if not Special Situations) which, in the opinion of the Adviser, are appropriate investments for the Fund, including securities which the Adviser believes are undervalued by the market. The Funds are not required to invest any minimum percentage of their aggregate portfolio in "Special Situations," nor are they required to invest any minimum percentage of their aggregate portfolio in securities other than "Special Situations."

Temporary Defensive Positions. In anticipation of or in response to adverse market, economic, political or other conditions, a Fund may take temporary defensive positions (up to 100% of its assets) in cash, cash equivalents and all types of money market and short-term debt securities. If a Fund were to take a temporary defensive position, it may be unable to achieve its investment objective for a period of time.

U.S. Government Securities. Each Fund may invest in U.S. government securities. Securities issued or guaranteed by the U.S. government or its agencies or instrumentalities include U.S. Treasury securities, which are backed by the full faith and credit of the U.S. Treasury and which differ only in their interest rates, maturities, and times of issuance. U.S. Treasury bills have initial maturities of one-year or less; U.S. Treasury notes have initial maturities of one to ten years; and U.S. Treasury bonds generally have initial maturities of greater than ten years. Certain U.S. government securities are issued or guaranteed by agencies or instrumentalities of the U.S. government including, but not limited to, obligations of U.S. government agencies or instrumentalities such as Federal National Mortgage Association ("Fannie Mae"), Federal Home Loan Mortgage Corporation ("Freddie Mac"), Government National Mortgage Association ("Ginnie Mae"), the Small Business Administration, the Federal Farm Credit Administration, the Federal Home Loan Banks, Banks for Cooperatives (including the Central Bank for Cooperatives), the Federal Land Banks, the Federal Intermediate Credit Banks, the Tennessee Valley Authority, the Export-Import Bank of the United States, the Commodity Credit Corporation, the Federal Financing Bank, the Student Loan Marketing Association, the National Credit Union Administration and the Federal Agricultural Mortgage Corporation ("Farmer Mac").

Some obligations issued or guaranteed by U.S. government agencies and instrumentalities, including, for example, Ginnie Mae pass-through certificates, are supported by the full faith and credit of the U.S. Treasury. Other obligations issued by or guaranteed by federal agencies, such as those securities issued by Fannie Mae, are supported by the discretionary authority of the U.S. government to purchase certain obligations of the federal agency, while other obligations issued by or guaranteed by federal agencies, such as those of the Federal Home Loan Banks, are supported by the right of the issuer to borrow from the U.S. Treasury, while the U.S. government provides financial support to such U.S. government-sponsored federal agencies, no assurance can be given that the U.S. government will always do so, since the U.S. government is not so obligated by law. U.S. Treasury notes and bonds typically pay coupon interest semi-annually and repay the principal at maturity.

The extreme and unprecedented volatility and disruption that impacted the capital and credit markets during late 2008 and into 2009 have led to increased market concerns about Freddie Mac's and Fannie Mae's ability to withstand future credit losses associated with securities held in their investment portfolios, and on which they provide guarantees, without the direct support of the federal government. On September 6, 2008, both Freddie Mac and Fannie Mae were placed under the conservatorship of the Federal Housing Finance Agency ("FHFA"). Under the plan of conservatorship, the FHFA has assumed control of, and generally has the power to direct, the operations of Freddie Mac and Fannie Mae, and is empowered to exercise all powers collectively held by their respective shareholders, directors and officers, including the power to (1) take over the assets of and operate Freddie Mac and Fannie Mae with all the powers of the shareholders, the directors, and the officers of Freddie Mac and Fannie Mae and conduct all business of Freddie Mac and Fannie Mae; (2) collect all obligations and money due to Freddie Mac and Fannie Mae; (3) perform all functions of Freddie Mac and Fannie Mae which are consistent with the conservator's appointment; (4) preserve and conserve the assets and property of Freddie Mac and Fannie Mae; and (5) contract for assistance in fulfilling any function, activity, action or duty of the conservator. In addition, in connection with the actions taken by the FHFA, the U.S. Treasury Department (the "Treasury") has entered into certain preferred stock purchase agreements with each of Freddie Mac and Fannie Mae which establish the Treasury as the holder of a new class of senior preferred stock in each of Freddie Mac and Fannie Mae, which stock was issued in connection with financial contributions from the Treasury to Freddie Mac and Fannie Mae. The conditions attached to the financial contribution made by the Treasury to Freddie Mac and Fannie Mae and the issuance of this senior preferred stock place significant restrictions on the activities of Freddie Mac and Fannie Mae. Freddie Mac and Fannie Mae must obtain the consent of the Treasury to, among other things, (i) make any payment to purchase or redeem its capital stock or pay any dividend other than in respect of the senior preferred stock, (ii) issue capital stock of any kind, (iii) terminate the conservatorship of the FHFA except in connection with a receivership, or (iv) increase its debt beyond certain specified levels. In addition, significant restrictions are placed on the maximum size of each of Freddie Mac's and Fannie Mae's respective portfolios of mortgages and mortgage-backed securities portfolios, and the purchase agreements entered into by Freddie Mac and Fannie Mae provide that the maximum size of their portfolios of these assets must decrease by a specified percentage each year. The future status and role of Freddie Mac and Fannie Mae could be impacted by (among other things) the actions taken and restrictions placed on Freddie Mac and Fannie Mae by the FHFA in its role as conservator, the restrictions placed on Freddie Mac's and Fannie Mae's operations and activities as a result of the senior preferred stock investment made by the Treasury, market responses to developments at Freddie Mac and Fannie Mae, and future legislative and regulatory action that alters the operations, ownership, structure and/or mission of these institutions, each of which may, in turn, impact the value of, and cash flows on any mortgage-backed securities guaranteed by Freddie Mac and Fannie Mae.

- **U.S. Treasury Obligations.** U.S. Treasury obligations consist of bills, notes and bonds issued by the U.S. Treasury and separately traded interest and principal component parts of such obligations that are transferable through the federal book-entry system known as Separately Traded Registered Interest and Principal Securities ("STRIPS") and Treasury Receipts ("TRs").

- **Receipts.** Interests in separately traded interest and principal component parts of U.S. government obligations that are issued by banks or brokerage firms and are created by depositing U.S. government obligations into a special account at a custodian bank. The custodian bank holds the interest and principal payments for the benefit of the registered owners of the certificates or receipts. The custodian bank arranges for the issuance of the certificates or receipts evidencing ownership and maintains the register. TRs and STRIPS are interests in accounts sponsored by the U.S. Treasury. Receipts are sold as zero coupon securities.
- **U.S. Government Zero Coupon Securities.** STRIPS and receipts are sold as zero coupon securities, that is, fixed income securities that have been stripped of their unmatured interest coupons. Zero coupon securities are sold at a (usually substantial) discount and redeemed at face value at their maturity date without interim cash payments of interest or principal. The amount of this discount is accreted over the life of the security, and the accretion constitutes the income earned on the security for both accounting and tax purposes. Because of these features, the market prices of zero coupon securities are generally more volatile than the market prices of securities that have similar maturity but that pay interest periodically. Zero coupon securities are likely to respond to a greater degree to interest rate changes than are non-zero coupon securities with similar maturity and credit qualities.
- **U.S. Government Agencies.** Some obligations issued or guaranteed by agencies of the U.S. government are supported by the full faith and credit of the U.S. Treasury, others are supported by the right of the issuer to borrow from the Treasury, while still others are supported only by the credit of the instrumentality. Guarantees of principal by agencies or instrumentalities of the U.S. government may be a guarantee of payment at the maturity of the obligation so that in the event of a default prior to maturity there might not be a market and thus no means of realizing on the obligation prior to maturity. Guarantees as to the timely payment of principal and interest do not extend to the value or yield of these securities nor to the value of the Fund's shares.

INVESTMENT LIMITATIONS

Each Fund has adopted the following fundamental investment limitations which may not be changed with respect to a Fund without the affirmative vote of the holders of a majority of the Fund's outstanding shares (as defined in Section 2(a) (42) of the 1940 Act). As used in this SAI and in the Prospectus, "shareholder approval" and a "majority of the outstanding shares" of a Fund means, with respect to the approval of an investment advisory agreement, a distribution plan or a change in a fundamental investment limitation, the lesser of (1) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of the outstanding shares of the Fund are present in person or by proxy, or (2) more than 50% of the outstanding shares of the Fund. Unless otherwise noted, a Fund's investment goals and strategies described in the Prospectus may be changed by the Board without the approval of the Fund's shareholders.

The U.S. Low Volatility Equity Fund may not:

1. Borrow money or issue senior securities, except that the Fund may borrow from banks and enter into reverse repurchase agreements provided that there is at least 300% asset coverage for the borrowings of the Fund. The Fund may not mortgage, pledge or hypothecate any assets, except in connection with any such borrowing and then in amounts not in excess of one-third of the value of the Fund's total assets at the time of such borrowing. However, the amount shall not be in excess of lesser of the dollar amounts borrowed or $33\frac{1}{3}\%$ of the value of the Fund's total assets at the time of such borrowing, provided that: (a) short sales and related borrowings of securities are not subject to this restriction; and (b) for the purposes of this restriction, collateral arrangements with respect to options, short sales, futures contracts, options on futures contracts, collateral arrangements with respect to initial and variation margin and collateral arrangements with respect to derivatives instruments are not deemed to be a pledge or other encumbrance of assets. Securities held in escrow or separate accounts in connection with the Fund's investment practices are not considered to be borrowings or deemed to be pledged for purposes of this limitation;

2. Act as an underwriter of securities within the meaning of the 1933 Act, except insofar as it might be deemed to be an underwriter upon disposition of certain portfolio securities acquired within the limitation on purchases of restricted securities;
3. Purchase or sell real estate (including real estate limited partnership interests), provided that a Fund may invest: (a) in securities secured by real estate or interests therein or issued by companies that invest in real estate or interests therein; or (b) in real estate investment trusts;
4. Purchase or sell commodities or commodity contracts, except that the Fund may purchase and sell options, futures contracts and related options on such futures contracts;
5. Make loans, except through loans of portfolio securities and repurchase agreements, provided that for purposes of this restriction the acquisition of bonds, debentures or other debt instruments or interests therein and investment in government obligations, loan participations and assignments, short-term commercial paper, certificates of deposit and bankers' acceptances shall not be deemed to be the making of a loan;
6. Invest 25% or more of its total assets, taken at market value at the time of each investment, in the securities of one or more issuers conducting their principal business activities in the same industry, provided that (a) there is no limitation with respect to (i) instruments issued or guaranteed by the United States, any state, territory or possession of the United States, the District of Columbia or any of their authorities, agencies, instrumentalities or political subdivisions, and (ii) repurchase agreements secured by the instruments described in clause (i); (b) wholly-owned finance companies will be considered to be in the industries of their parents if their activities are primarily related to financing the activities of the parents; and (c) utilities will be divided according to their services, for example, gas, gas transmission, electric and gas, electric and telephone will each be considered a separate industry; or
7. Purchase the securities of any one issuer, other than securities issued or guaranteed by the U.S. government or its agencies or instrumentalities, if immediately after and as a result of such purchase, more than 5% of the value of the Fund's total assets would be invested in the securities of such issuer, or more than 10% of the outstanding voting securities of such issuer would be owned by the Fund, except that up to 25% of the value of the Fund's total assets may be invested without regard to such limitations.

The Small Cap Low Volatility Fund may not:

1. Borrow money or issue senior securities, except that the Fund may borrow from banks and enter into reverse repurchase agreements provided that there is at least 300% asset coverage for the borrowings of the Fund. The Fund may not mortgage, pledge or hypothecate any assets, except in connection with any such borrowing and then in amounts not in excess of one-third of the value of the Fund's total assets at the time of such borrowing. However, the amount shall not be in excess of the lesser of the dollar amounts borrowed or 33¹/₃% of the value of the Fund's total assets at the time of such borrowing, provided that: (a) short sales and related borrowings of securities are not subject to this restriction; and (b) for the purposes of this restriction, collateral arrangements with respect to options, short sales, futures contracts, options on futures contracts, collateral arrangements with respect to initial and variation margin and collateral arrangements with respect to derivatives instruments are not deemed to be a pledge or other encumbrance of assets. Securities held in escrow or separate accounts in connection with the Fund's investment practices are not considered to be borrowings or deemed to be pledged for purposes of this limitation;
2. Act as an underwriter of securities within the meaning of the 1933 Act, except insofar as it might be deemed to be an underwriter upon disposition of certain portfolio securities acquired within the limitation on purchases of restricted securities;
3. Purchase or sell real estate (including real estate limited partnership interests), provided that the Fund may invest: (a) in securities secured by real estate or interests therein or issued by companies that invest in real estate or interests therein; or (b) in real estate investment trusts;

4. Purchase or sell commodities or commodity contracts, except that the Fund may purchase and sell options, futures contracts and related options on such futures contracts;
5. Make loans, except through loans of portfolio securities and repurchase agreements, provided that for purposes of this restriction the acquisition of bonds, debentures or other debt instruments or interests therein and investment in government obligations, loan participations and assignments, short-term commercial paper, certificates of deposit and bankers' acceptances shall not be deemed to be the making of a loan;
6. Invest 25% or more of its total assets, taken at market value at the time of each investment, in the securities of one or more issuers conducting their principal business activities in the same industry or group of industries, provided that (a) there is no limitation with respect to (i) instruments issued or guaranteed by the United States, any state, territory or possession of the United States, the District of Columbia or any of their authorities, agencies, instrumentalities or political subdivisions, and (ii) repurchase agreements secured by the instruments described in clause (i); (b) wholly-owned finance companies will be considered to be in the industries of their parents if their activities are primarily related to financing the activities of the parents; (c) utilities will be divided according to their services, for example, gas, gas transmission, electric and gas, electric and telephone will each be considered a separate industry; and (d) a private activity bond that is backed only by the assets and revenues of a non-governmental user is considered to be issued by such non-governmental user; or
7. Purchase the securities of any one issuer, other than securities issued or guaranteed by the U.S. government or its agencies or instrumentalities, if immediately after and as a result of such purchase, more than 5% of the value of the Fund's total assets would be invested in the securities of such issuer, or more than 10% of the outstanding voting securities of such issuer would be owned by the Fund, except that up to 25% of the value of the Fund's total assets may be invested without regard to such limitations.

The Global Low Volatility Fund may not:

1. Purchase any securities which would cause 25% or more of the total assets of the Fund to be invested in the securities of one or more issuers conducting their principal business activities in the same industry, provided that this limitation does not apply to investments in obligations issued or guaranteed by the U.S. government or its agencies and instrumentalities and repurchase agreements involving such securities.
2. Borrow money in an amount exceeding 33¹/₃% of the value of its total assets, provided that, for purposes of this limitation, investment strategies which either obligate the Fund to purchase securities or require the Fund to segregate assets are not considered to be borrowings. Asset coverage of at least 300% is required for all borrowings, except where the Fund has borrowed money for temporary purposes in amounts not exceeding 5% of its total assets.
3. Make loans if, as a result, more than 33¹/₃% of its total assets would be lent to other parties, except that the Fund may (i) purchase or hold debt instruments in accordance with its investment objective and policies; (ii) enter into repurchase agreements; and (iii) lend its securities.
4. Purchase or sell real estate, physical commodities, or commodities contracts, except that the Fund may purchase (i) marketable securities issued by companies which own or invest in real estate (including REITs), commodities, or commodities contracts; and (ii) commodities contracts relating to financial instruments, such as financial futures contracts and options on such contracts.
5. Issue senior securities as defined in the 1940 Act except as permitted by rule, regulation or order of the SEC.
6. Act as an underwriter of securities of other issuers except as it may be deemed an underwriter in selling a portfolio security.

In addition to the fundamental investment limitations specified above, the U.S. Low Volatility Fund and Small Cap Low Volatility Fund are subject to the following non-fundamental limitations, which may be changed without shareholder approval, in compliance with applicable law and regulatory policy. The U.S. Low Volatility Fund and Small Cap Low Volatility Fund may not:

1. Make investments for the purpose of exercising control or management, but investments by a Fund in wholly-owned investment entities created under the laws of certain countries will not be deemed the making of investments for the purpose of exercising control or management; or
2. Purchase securities on margin, except that a Fund may use margin to the extent necessary to engage in short sales and may obtain such short-term credits as are necessary for the clearance of portfolio transactions; and provided that margin deposits in connection with options, futures contracts, options on futures contracts or other derivative instruments shall not constitute purchasing securities on margin.

The Global Low Volatility Fund is subject to the following additional non-fundamental limitations, which may be changed without shareholder approval, in compliance with applicable law and regulatory policy. The Global Low Volatility Fund may not:

1. Pledge, mortgage or hypothecate assets except to secure borrowings permitted by the Fund's fundamental limitation on borrowing; provided that, such pledging, mortgaging or hypothecation does not exceed 5% of the Fund's total assets.
2. Invest in companies for the purpose of exercising control.
3. Purchase securities on margin or effect short sales, except that the Fund may (i) obtain short-term credits as necessary for the clearance of security transactions; (ii) provide initial and variation margin payments in connection with transactions involving futures contracts and options on such contracts; (iii) make short sales "against the box"; and (iv) make short sales in compliance with the SEC's position regarding the asset segregation requirements imposed by Section 18 of the 1940 Act.
4. Invest its assets in securities of any investment company, except as permitted by the 1940 Act.
5. Purchase or hold illiquid securities, i.e., securities that cannot be disposed of for their approximate carrying value in seven days or less (which term includes repurchase agreements and time deposits maturing in more than seven days) if, in the aggregate, more than 15% of its net assets would be invested in illiquid securities. The 15% limitation on investments in illiquid securities applies both at the time of initial purchase and while the Fund holds such securities.
6. Enter into futures contracts and options on futures contracts except as permitted by the Prospectus and in this SAI.

Each Fund may invest in securities issued by other investment companies within the limits prescribed by the 1940 Act. As a shareholder of another investment company, a Fund would bear, along with other shareholders, its pro rata portion of the other investment company's expenses, including advisory fees. These expenses would be in addition to the advisory and other expenses that a Fund bears directly in connection with its own operations.

Securities held by a Fund generally may not be purchased from, sold or loaned to the Adviser or its affiliates or any of their directors, officers or employees, acting as principal, unless pursuant to a rule or exemptive order under the 1940 Act.

If a percentage restriction under one of the Fund's investment policies or limitations or the use of assets is adhered to at the time a transaction is effected, later changes in percentages resulting from changing values will not be considered a violation (except with respect to any restrictions that may apply to borrowings or senior securities issued by the Fund).

DISCLOSURE OF PORTFOLIO HOLDINGS

The Company has adopted, on behalf of the Funds, a policy relating to the selective disclosure of a Fund's portfolio holdings by the Adviser, Board, officers, or third party service providers, in accordance with regulations that seek to ensure that disclosure of information about portfolio holdings is in the best interest of Fund shareholders. The policies relating to the disclosure of a Fund's portfolio holdings are designed to allow disclosure of portfolio holdings information where necessary to the Fund's operation without compromising the integrity or performance of the Fund. It is the policy of the Company that disclosure of a Fund's portfolio holdings to a select person or persons prior to the release of such holdings to the public ("selective disclosure") is prohibited, unless there are legitimate business purposes for selective disclosure.

The Company discloses portfolio holdings information as required in regulatory filings and shareholder reports, discloses portfolio holdings information as required by federal and state securities laws and may disclose portfolio holdings information in response to requests by governmental authorities. As required by the federal securities laws, including the 1940 Act, the Company will disclose each Fund's portfolio holdings in applicable regulatory filings, including shareholder reports, reports on Form N-CSR, Form N-CEN, and Form N-Q or such other filings, reports or disclosure documents as the applicable regulatory authorities may require.

The Company may distribute or authorize the distribution of information about a Fund's portfolio holdings that is not publicly available to its third-party service providers, which include U.S. Bank, N.A., the custodian; U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), the administrator, accounting agent and transfer agent; Ernst & Young LLP, the Funds' independent registered public accounting firm; Drinker Biddle & Reath LLP, legal counsel; FilePoint, the financial printer; the Funds' proxy voting service(s); and the Company's liquidity classification agent. These service providers are required to keep such information confidential, and are prohibited from trading based on the information or otherwise using the information except as necessary in providing services to a Fund. Such holdings are released on conditions of confidentiality, which include appropriate trading prohibitions. "Conditions of confidentiality" include confidentiality terms included in written agreements, implied by the nature of the relationship (e.g. attorney-client relationship), or required by fiduciary or regulatory principles (e.g., custody services provided by financial institutions). Portfolio holdings may also be provided earlier to shareholders and their agents who receive redemptions in kind that reflect a pro rata allocation of all securities held in a Fund's portfolio.

Portfolio holdings may also be disclosed, upon authorization by a designated officer of the Adviser, to (i) certain independent reporting agencies recognized by the SEC as acceptable agencies for the reporting of industry statistical information and (ii) financial consultants to assist them in determining the suitability of the Funds as an investment for their clients, in each case in accordance with the anti-fraud provisions of the federal securities laws and the Company's and the Adviser's fiduciary duties to Fund shareholders. Disclosures to financial consultants are also subject to a confidentiality agreement and/or trading restrictions. The foregoing disclosures are made pursuant to the Company's policy on selective disclosure of portfolio holdings. The Board or a committee thereof may, in limited circumstances, permit other selective disclosure of portfolio holdings subject to a confidentiality agreement and/or trading restrictions.

The Adviser reserves the right to refuse to fulfill any request for portfolio holdings information from a shareholder or non-shareholder if it believes that providing such information will be contrary to the best interests of a Fund.

The Board provides ongoing oversight of the Company's policies and procedures and compliance with such policies and procedures. As part of this oversight function, the Board receives from the Company's Chief Compliance Officer ("CCO") as necessary, reports on compliance with these policies and procedures. In addition, the Board receives an annual assessment of the adequacy and effectiveness of the policies and procedures with respect to a Fund, and any changes thereto, and an annual review of the operation of the policies and procedures. Any violation of the policy set forth above as well as any corrective action undertaken to address such violation must be reported by the Adviser, director, officers or third party service providers to the Company's CCO, who will determine whether the violation should be reported immediately to the Board or at its next quarterly Board meeting.

PORTFOLIO TURNOVER

Portfolio turnover measures the percentage of a Fund's total portfolio market value that was purchased or sold during the period. A Fund's turnover rate provides an indication of how transaction costs (which are not included in the Fund's expenses) may affect the Fund's performance. Also, funds with a high turnover may be more likely to distribute capital gains that may be taxable to shareholders.

A Fund's portfolio turnover rates for the two most recent fiscal years are stated below. Portfolio turnover rates could change significantly in response to turbulent market conditions. The increase in the Small Cap Low Volatility Fund's portfolio turnover rate for the fiscal period ended August 31, 2018 was due to increased portfolio trading activity over a full fiscal period.

	Portfolio Turnover	
	Fiscal Year Ended August 31, 2018	Fiscal Year or Period Ended August 31, 2017
U.S. Low Volatility Equity Fund	85%	31%
Small Cap Low Volatility Fund	122%	95%
Global Low Volatility Fund	44%	247%

MANAGEMENT OF THE COMPANY

The business and affairs of the Company are managed under the oversight of the Board of Directors, subject to the laws of the State of Maryland and the Company's Charter. The Directors are responsible for deciding matters of overall policy and overseeing the actions of the Company's service providers. The officers of the Company conduct and supervise the Company's daily business operations.

Directors who are not deemed to be "interested persons" of the Company (as defined in the 1940 Act) are referred to as "Independent Directors." Directors who are deemed to be "interested persons" of the Company are referred to as "Interested Directors." The Board is currently composed of seven Independent Directors and one Interested Director. The Board has selected Arnold M. Reichman, an Independent Director, to act as Chairman. Mr. Reichman's duties include presiding at meetings of the Board and interfacing with management to address significant issues that may arise between regularly scheduled Board and Committee meetings. In the performance of his duties, Mr. Reichman will consult with the other Independent Directors and the Company's officers and legal counsel, as appropriate. The Chairman may perform other functions as requested by the Board from time to time.

The Board meets as often as necessary to discharge its responsibilities. Currently, the Board conducts regular, in-person meetings at least four times a year, and holds special in-person or telephonic meetings as necessary to address specific issues that require attention prior to the next regularly scheduled meeting. The Board also relies on professionals, such as the Company's independent registered public accounting firms and legal counsel, to assist the Directors in performing their oversight responsibilities.

The Board has established nine standing committees — Audit, Contract, Executive, Investment Risk, Nominating and Governance, Product Development, Regulatory Oversight, Strategic Oversight, and Valuation Committees. The Board may establish other committees, or nominate one or more Directors to examine particular issues related to the Board's oversight responsibilities, from time to time. Each Committee meets periodically to perform its delegated oversight functions and reports its findings and recommendations to the Board. For more information on the Committees, see the section entitled "Standing Committees."

The Board has determined that the Company's leadership structure is appropriate because it allows the Board to effectively perform its oversight responsibilities.

Directors and Executive Officers

The Directors and executive officers of the Company, their ages, business addresses and principal occupations during the past five years are set forth below.

Name, Address, and Age	Position(s) Held with Company	Term of Office and Length of Time Served ¹	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Director*	Other Directorships Held by Director in the Past 5 Years
INDEPENDENT DIRECTORS					
Julian A. Brodsky 615 East Michigan Street Milwaukee, WI 53202 Age: 85	Director	1988 to present	From 1969 to 2011, Director and Vice Chairman, Comcast Corporation (cable television and communications).	32	AMDOCS Limited (service provider to telecommunications companies).

* Each Director oversees 32 portfolios of the Company.

1. Subject to the Company's Retirement Policy, each Director may continue to serve as a Director until the last day of the calendar year in which the applicable Director attains age 75 or until his successor is elected and qualified or his death, resignation or removal. The Board reserves the right to waive the requirements of the Policy with respect to an individual Director. The Board has approved waivers of the policy with respect to Messrs. Brodsky, Carnall, Giordano, Sablowsky and Straniere. Each officer holds office at the pleasure of the Board until the next special meeting of the Company or until his or her successor is duly elected and qualified, or until he or she dies, resigns or is removed.

2. Mr. Sablowsky is considered an “interested person” of the Company as that term is defined in the 1940 Act and is referred to as an “Interested Director.” Mr. Sablowsky is considered an “Interested Director” of the Company by virtue of his position as a senior officer of Oppenheimer & Co., Inc., a registered broker-dealer.

Director Experience, Qualifications, Attributes and/or Skills

The information above includes each Director’s principal occupations during the last five years. Each Director possesses extensive additional experience, skills and attributes relevant to his qualifications to serve as a Director. The cumulative background of each Director led to the conclusion that each Director should serve as a Director of the Company. Mr. Giordano has years of experience as a consultant to financial services organizations and also serves on the boards of other registered investment companies. Mr. Reichman brings decades of investment management experience to the Board, in addition to senior executive-level management experience.

Mr. Stranieri has been a practicing attorney for over 30 years and has served on the boards of an asset management company and another registered investment company. Mr. Brodsky has over 40 years of senior executive-level management experience in the cable television and communications industry. Mr. Sablowsky has demonstrated leadership and management abilities as evidenced by his senior executive-level positions in the financial services industry. Mr. Carnall has decades of senior executive-level management experience in the banking and financial services industry and also serves on the boards of various corporations and a bank. Mr. Chandler has demonstrated leadership and management abilities as evidenced by his senior executive-level positions in the investment technology consulting/services and investment banking/brokerage industries, and also serves on various boards. Mr. Shea has demonstrated leadership and management abilities as evidenced by his senior executive-level positions in the investment services industry, including service on the boards of industry regulatory organizations and a university.

Standing Committees

The responsibilities of each Committee of the Board and its members are described below.

Audit Committee. The Board has an Audit Committee comprised of three Independent Directors. The current members of the Audit Committee are Messrs. Brodsky, Chandler and Giordano. The Audit Committee, among other things, reviews results of the annual audit and approves the firm(s) to serve as independent auditors. The Audit Committee convened four times during the fiscal year ended August 31, 2018.

Contract Committee. The Board has a Contract Committee comprised of the Interested Director and three Independent Directors. The current members of the Contract Committee are Messrs. Brodsky, Chandler, Sablowsky and Stranieri. The Contract Committee reviews and makes recommendations to the Board regarding the approval and continuation of agreements and plans of the Company. The Contract Committee convened four times during the fiscal year ended August 31, 2018.

Executive Committee. The Board has an Executive Committee comprised of the Interested Director and three Independent Directors. The current members of the Executive Committee are Messrs. Chandler, Giordano, Reichman and Sablowsky. The Executive Committee may generally carry on and manage the business of the Company when the Board is not in session. The Executive Committee did not meet during the fiscal year ended August 31, 2018.

Investment Risk Committee. The Board has an Investment Risk Committee comprised of the Interested Director and one Independent Director. The current members of the Investment Risk Committee are Messrs. Sablowsky and Shea. The Investment Risk Committee ensures that the Company’s investment advisers have adopted investment risk management policies and procedures. The Investment Risk Committee did not meet during the fiscal year ended August 31, 2018.

Nominating and Governance Committee. The Board has a Nominating and Governance Committee comprised of three Independent Directors. The current members of the Nominating and Governance Committee are Messrs. Carnall, Giordano and Reichman. The Nominating and Governance Committee recommends to the Board all persons to be nominated as Directors of the Company. The Nominating and Governance Committee will consider nominees recommended by shareholders. Recommendations should be submitted to the Committee care of the Company’s Secretary. The Nominating and Governance Committee convened three times during the fiscal year ended August 31, 2018.

Product Development Committee. The Board has a Product Development Committee comprised of the Interested Director and one Independent Director. The current members of the Product Development Committee are Messrs. Reichman and Sablowsky. The Product Development Committee oversees the process regarding the addition of new investment advisers and investment products to the Company. The Product Development Committee convened four times during the fiscal year ended August 31, 2018.

Regulatory Oversight Committee. The Board has a Regulatory Oversight Committee comprised of the Interested Director and four Independent Directors. The current members of the Regulatory Oversight Committee are Messrs. Carnall, Reichman, Sablowsky, Shea and Straniere. The Regulatory Oversight Committee monitors regulatory developments in the mutual fund industry and focuses on various regulatory aspects of the operation of the Company. The Regulatory Oversight Committee convened four times during the fiscal year ended August 31, 2018.

Strategic Oversight Committee. The Board has a Strategic Oversight Committee comprised of the Interested Director and three Independent Directors. The current members of the Strategic Oversight Committee are Messrs. Carnall, Chandler, Reichman and Sablowsky. The Strategic Oversight Committee assists the Board in its oversight and review of the Company's strategic plan and operations. The Strategic Oversight Committee did not meet during the fiscal year ended August 31, 2018.

Valuation Committee. The Board has a Valuation Committee comprised of the Interested Director and three officers of the Company. The members of the Valuation Committee are Messrs. Amweg, Faia, Sablowsky and Shaw. The Valuation Committee is responsible for reviewing fair value determinations. The Valuation Committee convened four times during the fiscal year ended August 31, 2018.

Risk Oversight

The Board performs its risk oversight function for the Company through a combination of (1) direct oversight by the Board as a whole and Board committees and (2) indirect oversight through the Company's investment advisers and other service providers, Company officers and the Company's CCO. The Company is subject to a number of risks, including but not limited to investment risk, compliance risk, operational risk, reputational risk, credit risk and counterparty risk. Day-to-day risk management with respect to the Company is the responsibility of the Company's investment advisers or other service providers (depending on the nature of the risk) that carry out the Company's investment management and business affairs. Each of the investment advisers and the other service providers have their own independent interest in risk management and their policies and methods of risk management will depend on their functions and business models and may differ from the Company's and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls.

The Board provides risk oversight by receiving and reviewing on a regular basis reports from the Company's investment advisers or other service providers, receiving and approving compliance policies and procedures, periodic meetings with the Company's portfolio managers to review investment policies, strategies and risks, and meeting regularly with the Company's CCO to discuss compliance reports, findings and issues. The Board also relies on the Company's investment advisers and other service providers, with respect to the day-to-day activities of the Company, to create and maintain procedures and controls to minimize risk and the likelihood of adverse effects on the Company's business and reputation.

Board oversight of risk management is also provided by various Board Committees. For example, the Audit Committee meets with the Company's independent registered public accounting firms to ensure that the Company's respective audit scopes include risk-based considerations as to the Company's financial position and operations.

The Board may, at any time and in its discretion, change the manner in which it conducts risk oversight. The Board's oversight role does not make the Board a guarantor of the Company's investments or activities.

Director Ownership of Shares of the Company

The following table sets forth the dollar range of equity securities beneficially owned by each Director in each Fund and in all of the portfolios of the Company (which for each Director comprise all registered investment companies within the Company's family of investment companies overseen by him), as of December 31, 2017:

Name of Director	Dollar Range of Equity Securities in the Summit Global Investments U.S. Low Volatility Equity Fund	Dollar Range of Equity Securities in the Summit Global Investments Small Cap Low Volatility Fund	Dollar Range of Equity Securities in the Summit Global Investments Global Low Volatility Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Director within the Family of Investment Companies

* Mr. Shea was appointed to the Board effective May 9, 2018.

Directors' and Officers' Compensation

Effective April 1, 2019, the Company will pay each Director a retainer at the rate of \$125,000 annually, \$10,000 for each regular meeting of the Board, \$3,500 for each committee meeting attended in-person, and \$2,000 for each committee meeting attended telephonically or special meeting of the Board attended in-person or telephonically. The Chairman of the Audit Committee and Chairman of the Regulatory Oversight Committee each receives an additional fee of \$20,000 for his services. The Chairman of the Contract Committee and the Chairman of the Nominating and Governance Committee receives an additional fee of \$10,000 per year for his services. The Chairman of the Investment Risk Committee receives an additional fee of \$7,500 per year for his services. The Vice Chairman of the Board receives an additional fee of \$35,000 per year for his services in this capacity and the Chairman of the Board receives an additional fee of \$75,000 per year for his services in this capacity.

From January 1, 2018, to March 31, 2019, the Company pays each Director a retainer at the rate of \$100,000 annually, \$10,000 for each regular meeting of the Board, \$3,500 for each committee meeting attended in-person, and \$2,000 for each committee meeting attended telephonically or special meeting of the Board attended in-person or telephonically. The Chairman of the Audit Committee and Chairman of the Regulatory Oversight Committee each received an additional fee of \$15,000 for his services. The Chairman of the Contract Committee received an additional fee of \$10,000 per year for his services, and the Chairman of the Nominating and Governance Committee and Chairman of the Investment Risk Committee each received an additional fee of \$7,500 per year for his services. The Vice Chairman of the Board received an additional fee of \$25,000 per year for his services in this capacity and the Chairman of the Board received an additional fee of \$50,000 per year for his services in this capacity.

From January 1, 2017, to December 31, 2017, the Company paid each Director a retainer at the rate of \$100,000 annually, \$5,000 for each regular meeting of the Board, \$2,500 for each committee meeting attended in-person, and \$2,000 for each committee meeting attended telephonically or special meeting of the Board attended in-person or telephonically. The Chairman of the Audit Committee and Chairman of the Regulatory Oversight Committee each received an additional fee of \$15,000 for his services. The Chairman of the Contract Committee received an additional fee of \$10,000 for his services and the Chairman of the Nominating and Governance Committee received an additional fee of \$7,500 for his services. Effective June 1, 2017, the Chairman of the Investment Risk Committee received an additional fee of \$7,500 for his services. The Vice Chairman of the Board received an additional fee of \$25,000 for his services in this capacity and the Chairman of the Board received an additional fee of \$50,000 for his services in this capacity.

Directors are reimbursed for any reasonable out-of-pocket expenses incurred in attending meetings of the Board or any committee thereof. Employees of Vigilant Compliance, LLC serve as President, Chief Compliance Officer and Assistant Treasurer of the Company. Vigilant Compliance, LLC is compensated for the services provided to the Company, and such compensation is determined by the Board. For the fiscal year ended August 31, 2018, Vigilant Compliance LLC received \$36,745 from the U.S. Low Volatility Equity Fund, \$5,376 from the Small Cap Low Volatility Equity Fund, and \$5,613 from the Global Low Volatility Fund, respectively, and \$663,750 in the aggregate from all series of the Company for its services. An employee of the Company serves as a Treasurer and Secretary and is compensated for services provided. For the fiscal year ended August 31, 2018, each of the following members of the Board and the Treasurer and Secretary received compensation from the Funds and the Company in the following amounts:

<u>Name of Director/Officer</u>	Aggregate Compensation from the Funds	Pension or Retirement Benefits Accrued	Estimated Annual Benefits Upon Retirement	Total Compensation From Fund Complex Paid to Directors or Officer
Independent Directors:				
Julian A. Brodsky, Director	\$5,127	N/A	N/A	\$148,000

Officer:			
James G. Shaw, Treasurer and Secretary	\$2,647	\$259	\$240

* Mr. Lambroza resigned from the Board effective January 26, 2018.

** Mr. Shea was appointed to the Board effective May 9, 2018.

Each compensated Director is entitled to participate in the Company's deferred compensation plan (the "DC Plan"). Under the DC Plan, a compensated Director may elect to defer all or a portion of his compensation and have the deferred compensation treated as if it had been invested by the Company in shares of one or more of the portfolios of the Company. The amount paid to the Directors under the DC Plan will be determined based upon the performance of such investments.

As of December 31, 2017, the Independent Directors and their respective immediate family members (spouse or dependent children) did not own beneficially or of record any securities of the Company's investment advisers or distributor, or of any person directly or indirectly controlling, controlled by, or under common control with the investment advisers or distributor.

CODE OF ETHICS

The Company and the Adviser have each adopted a code of ethics under Rule 17j-1 of the 1940 Act that permits personnel subject to the codes to invest in securities, including securities that may be purchased or held by the Company, subject to certain restrictions.

PROXY VOTING

The Board has delegated the responsibility of voting proxies with respect to the portfolio securities purchased and/or held by the Funds to the Adviser, subject to the Board's continuing oversight. In exercising its voting obligations, the Adviser is guided by its general fiduciary duty to act prudently and in the interest of the Funds. The Adviser will consider factors affecting the value of a Fund's investments and the rights of shareholders in its determination on voting portfolio securities.

The Adviser will vote proxies in accordance with its proxy policies and procedures, which are included in Appendix B to this SAI.

The Company is required to disclose annually each Fund's complete proxy voting record on Form N-PX. Each Fund's proxy voting record for the most recent 12 month period ended June 30th is available upon request by calling 1-855-744-8500 or by writing to the Fund at: Summit Global Investments Funds, c/o U.S. Bank Global Fund Services, PO Box 701, Milwaukee, Wisconsin 53201-0701. Each Fund's Form N-PX is also available on the SEC's website at www.sec.gov.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

As of November 30, 2018, to the Company's knowledge, the following named persons at the addresses shown below were owners of record of approximately 5% or more of the total outstanding shares of the Funds as indicated below. See "Additional Information Concerning Company Shares" below. Any shareholder that owns 25% or more of the outstanding shares of a portfolio or class may be presumed to "control" (as that term is defined in the 1940 Act) the portfolio or class. Shareholders controlling a portfolio or class could have the ability to vote a majority of the shares of the portfolio or class on any matter requiring approval of the shareholders of the portfolio or class.

INVESTMENT ADVISORY AND OTHER SERVICES**INVESTMENT ADVISER**

Summit Global Investments, LLC (“Summit” or the “Adviser”) is a Limited Liability Company registered with the State of Utah in October 2010. The Adviser is 100% privately-owned and is controlled by David Harden.

Advisory Agreement with the Company. The Adviser renders advisory services to the U.S. Low Volatility Equity Fund and Small Cap Low Volatility Fund pursuant to an Investment Advisory Agreement dated as of February 28, 2012. The Adviser renders advisory services to the Global Low Volatility Fund pursuant to an Investment Advisory Agreement (the Investment Advisory Agreements are together referred to as the “Advisory Agreement”), dated as of March 24, 2017. Prior to March 24, 2017, the Adviser rendered advisory services pursuant to an Interim Investment Advisory Agreement for the period from January 1, 2017 to March 24, 2017. Prior to January 1, 2017, another investment adviser managed the Global Low Volatility Fund.

Subject to the supervision of the Board, the Adviser will provide for the overall management of the Funds including (i) the provision of a continuous investment program for the Funds, including investment research and management with respect to all securities, investments, cash and cash equivalents, (ii) the determination from time to time of the securities and other investments to be purchased, retained, or sold by the Funds, and (iii) the placement from time to time of orders for all purchases and sales of securities and other investments made for the Funds. The Adviser will provide the services rendered by it in accordance with each Fund’s investment objective, restrictions and policies as stated in the Prospectus and in this SAI. The Adviser will not be liable for any error of judgment, mistake of law, or for any loss suffered by the Funds in connection with the performance of the Advisory Agreement, except a loss resulting from a breach of fiduciary duty with respect to the receipt of compensation for services or a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Adviser in the performance of its duties, or from reckless disregard of its obligations and duties under the Advisory Agreement.

For its services to the U.S. Low Volatility Equity Fund, the Adviser is entitled to an advisory fee computed daily and payable monthly at the annual rate of 0.70% of the Fund's average daily net assets. The Adviser has contractually agreed to waive its management fees and reimburse expenses through December 31, 2019, to the extent that the Fund's total annual operating expenses (excluding acquired fund fees and expenses, brokerage commissions, extraordinary items, interest and taxes) exceed 0.98%, 1.23% and 1.98% for Class I Shares, Class A Shares and Class C Shares, respectively.

For its services to the Small Cap Low Volatility Fund, the Adviser is entitled to an advisory fee computed daily and payable monthly at the annual rate of 0.95% of the Fund's average daily net assets. The Adviser has contractually agreed to waive its management fees and reimburse expenses through December 31, 2019, to the extent that the Fund's total annual operating expenses (excluding acquired fund fees and expenses, brokerage commissions, extraordinary items, interest and taxes) exceed 1.23%, 1.48% and 2.23% for Class I Shares, Class A Shares and Class C Shares, respectively.

For its services to the Global Low Volatility Fund, the Adviser is entitled to an advisory fee computed daily and payable monthly at the annual rate of 0.70% of the Fund's average daily net assets. Prior to March 24, 2017, the management fee was 0.65%. The Adviser has contractually agreed to waive its management fees and reimburse expenses through December 31, 2019, to the extent that the Fund's total annual operating expenses (excluding acquired fund fees and expenses, brokerage commissions, short sale dividend expenses, extraordinary items, interest and taxes) exceed 0.84%, 1.09% and 1.84% for the Fund's Class I Shares, Class A Shares and Class C Shares, respectively.

The Adviser will pay all expenses incurred by it in connection with its activities under the Advisory Agreement. Each Fund bears all of its own expenses not specifically assumed by the Adviser. General expenses of the Company not readily identifiable as belonging to a portfolio of the Company are allocated among all investment portfolios by or under the direction of the Board in such manner as it deems to be fair and equitable. Expenses borne by a Fund include, but are not limited to the following (or a Fund's share of the following): (a) the cost (including brokerage commissions) of securities purchased or sold by the Fund and any losses incurred in connection therewith; (b) fees payable to and expenses incurred on behalf of the Fund by the Adviser; (c) filing fees and expenses relating to the registration and qualification of the Company and the Fund's shares under federal and/or state securities laws and maintaining such registrations and qualifications; (d) fees and salaries payable to the Company's Directors and officers; (e) taxes (including any income or franchise taxes) and governmental fees; (f) costs of any liability and other insurance or fidelity bonds; (g) any costs, expenses or losses arising out of a liability of or claim for damages or other relief asserted against the Company or the Fund for violation of any law; (h) legal, accounting and auditing expenses, including legal fees of special counsel for the independent Directors; (i) charges of custodians and other agents; (j) expenses of setting in type and printing prospectuses, statements of additional information and supplements thereto for existing shareholders, reports, statements, and confirmations to shareholders and proxy material that are not attributable to a class; (k) costs of mailing prospectuses, statements of additional information and supplements thereto to existing shareholders, as well as reports to shareholders and proxy materials that are not attributable to a class; (l) any extraordinary expenses; (m) fees, voluntary assessments and other expenses incurred in connection with membership in investment company organizations; (n) costs of mailing and tabulating proxies and costs of shareholders' and Directors' meetings; (o) costs of independent pricing services to value a portfolio's securities; and (p) the costs of investment company literature and other publications provided by the Company to its Directors and officers. Distribution expenses, transfer agency expenses, expenses of preparation, printing and mailing prospectuses, statements of additional information, proxy statements and reports to shareholders, and organizational expenses and registration fees, identified as belonging to a particular class of the Company, are allocated to such class.

The advisory fees, including waivers and reimbursements for the past three fiscal years are as follows:

	Advisory Fees Paid (after waivers and/or reimbursements)	Waivers and/or Reimbursements	Recoupments
U.S. Low Volatility Equity Fund			
For the fiscal year ended August 31, 2018	\$ 1,577,185	\$ 86,805	\$ 171,184

For the fiscal year ended August 31, 2016	\$ 253,911	\$ 209,200	\$ 0

(1) The Small Cap Low Volatility Fund commenced operations on March 31, 2016.

The Advisory Agreement provides that the Adviser shall at all times have all rights in and to each Fund's name and all investment models used by or on behalf of the Fund. The Adviser may use each Fund's name or any portion thereof in connection with any other mutual fund or business activity without the consent of any shareholder, and the Company has agreed to execute and deliver any and all documents required to indicate its consent to such use.

PORTFOLIO MANAGERS

This section includes information about the Fund's portfolio managers, including information about other accounts they manage, the dollar range of Fund shares they own and how they are compensated.

Description of Compensation. As of the date of this SAI, The Adviser compensates the Funds' portfolio managers for their management of the Funds. The portfolio managers are compensated through equity ownership of the Adviser, adjusted to reflect current market rates, and therefore compensation is in part based on the value of a Fund's net assets and other client accounts they are managing. The Adviser's Board of Managers reviews the compensation of each portfolio manager periodically and may make modifications in compensation as it deems necessary to reflect changes in the market.

Other Accounts. In addition to the Funds, each portfolio manager is responsible for the day-to-day management of certain other accounts, as listed below. The information below is provided as of August 31, 2018.

Name of Portfolio Manager or Team Member	Type of Accounts	Total # of Accounts Managed	Total Assets	# of Accounts Managed that Advisory Fee Based on Performance	Total Assets that Advisory Fee Based on Performance (in millions)
1. David Harden	Other Registered Investment Companies:	0	\$0	0	\$0
	Other Pooled Investment Vehicles:	2	\$77 million	0	\$0
	Other Accounts:	867	\$227 million	0	\$0
2. Richard Thawley	Other Registered Investment Companies:	0	\$0	0	\$0
	Other Pooled Investment Vehicles:	2	\$77 million	0	\$0
	Other Accounts:	867	\$227 million	0	\$0
3. Mathew Hanna	Other Registered Investment Companies:	0	\$0	0	\$0
	Other Pooled Investment Vehicles:	2	\$77 million	0	\$0
	Other Accounts:	867	\$227 million	0	\$0
4. Aash Shah	Other Registered Investment Companies:	0	\$0	0	\$0
	Other Pooled Investment Vehicles:	2	\$77 million	0	\$0
	Other Accounts:	867	\$227 million	0	\$0

Conflict of Interest. The portfolio managers' management of other accounts may give rise to potential conflicts of interest in connection with his management of a Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as a Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby a portfolio manager could favor one account over another. Another potential conflict could include the portfolio managers' knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of a Fund. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Securities Ownership. The following table sets forth the dollar range of equity securities beneficially owned by each portfolio manager in the Funds managed by each such portfolio manager as of August 31, 2018 using the following ranges: none; \$1-\$10,000; \$10,001-\$50,000; \$50,001-\$100,000; \$100,001-\$500,000; \$500,001-\$1,000,000; and over \$1,000,000.

ADMINISTRATION AND ACCOUNTING AGREEMENT

Fund Services, located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as fund administrator to the Funds pursuant to a fund administration servicing agreement and serves as fund accountant pursuant to a fund accounting servicing agreement (the "Administration Agreements"). Under the fund accounting servicing agreement, Fund Services has agreed to furnish to the Funds statistical and research data, clerical, accounting and bookkeeping services, and certain other services required by the Funds. Under the fund administration servicing agreement, Fund Services has agreed to provide fund administration services to the Company. These services include the preparation and coordination of the Company's annual post-effective amendment filing and supplements to the Funds' registration statement, the preparation and assembly of board meeting materials, and certain other services necessary to the Company's fund administration. In addition, Fund Services has agreed to prepare and file various reports with the appropriate regulatory agencies and prepare materials required by the SEC or any state securities commission having jurisdiction over the Funds.

The Administration Agreements provide that Fund Services shall be obligated to exercise reasonable care in the performance of its duties and that Fund Services shall not be liable for any error of judgment or mistake of law or any loss suffered by the Company in connection with its duties under the Administration Agreements, except a loss resulting from Fund Services' refusal or failure to comply with the terms of the applicable Administration Agreement or from its bad faith, negligence or willful misconduct in the performance of its duties thereunder.

Fund Services receives a fee under the Administration Agreements based on the average daily net assets of the Company.

Effective October 3, 2016, Fund Services replaced the Funds' prior administrator and fund accountant to the Funds. The administration fees paid to Fund Services and the prior administrator, including waivers and reimbursements for the past three fiscal years are as follows:

	Administration, Accounting and Regulatory Administration Fees Paid (after waivers and reimbursements)			Waivers	Reimbursements
U.S. Low Volatility Equity Fund					
For the fiscal year August 31, 2018	\$	106,412	\$	0	\$ 0

For the fiscal year August 31, 2016	\$	86,027	\$	0	\$ 0

(1) The Small Cap Low Volatility Fund commenced operations on March 31, 2016.

CUSTODIAN AGREEMENT

U.S. Bank, N.A., (the "Custodian"), 1555 North RiverCenter Drive, Milwaukee, Wisconsin 53212, is custodian of the Funds' assets pursuant to a custodian agreement (the "Custodian Agreement"). Under the Custodian Agreement, the Custodian: (a) maintains a separate account or accounts in the name of the Funds; (b) holds and transfers portfolio securities on account of the Funds; (c) accepts receipts and makes disbursements of money on behalf of the Funds; (d) collects and receives all income and other payments and distributions on account of the Funds' portfolio securities; and (e) makes periodic reports to the Board concerning the Funds' operations. The Custodian is authorized to select one or more banks or trust companies to serve as sub-custodian on behalf of the Funds, provided that the Custodian remains responsible for the performance of all of its duties under the Custodian Agreement and holds the Funds harmless from the acts and omissions of any affiliate, sub-custodian or domestic sub-custodian. For its services to the Funds under the Custodian Agreement, the Custodian receives a fee based on the Funds' average gross assets calculated daily and payable monthly. Transaction charges and out-of-pocket expenses are also charged to the Funds.

TRANSFER AGENCY AGREEMENT

Fund Services, 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as the transfer and dividend disbursing agent for the Fund pursuant to a transfer agency and servicing agreement (the "Transfer Agency Agreement"), under which Fund Services: (a) issues and redeems shares of the Funds; (b) addresses and mails all communications by the Funds to record owners of the shares, including reports to shareholders, dividend and distribution notices and proxy materials for its meetings of shareholders; (c) maintains shareholder accounts and, if requested, sub-accounts; and (d) makes periodic reports to the Board concerning the operations of the Funds. Fund Services may, subject to the Board's approval, assign its duties as transfer and dividend disbursing agent to any affiliate. For its services to the Funds under the Transfer Agency Agreement, Fund Services receives an annual fee based on the number of accounts in the Funds and the Funds' average gross assets calculated daily and payable monthly. Transaction charges and out-of-pocket expenses are also charged to the Funds.

Fund Services also provides services relating to the implementation of the Company's Anti-Money Laundering Program. In addition, Fund Services provides services relating to the implementation of the Funds' Customer Identification Program, including verification of required customer information and the maintenance of records with respect to such verification.

DISTRIBUTION AGREEMENT AND PLAN OF DISTRIBUTION

Quasar Distributors, LLC (the "Distributor"), whose principal business address is 777 Wisconsin Avenue, 6th Floor, Milwaukee, Wisconsin 53202, serves as the underwriter to the Funds pursuant to the terms of a distribution agreement (the "Distribution Agreement"). The Distributor is a registered broker-dealer and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Distributor is not affiliated with the Company or the Adviser. The Distributor, U.S. Bank, NA, and Fund Services are affiliates.

Under the Distribution Agreement with the Funds, the Distributor acts as the agent of the Company in connection with the continuous offering of shares of the Funds. The Distributor continually distributes shares of the Funds on a best efforts basis. The Distributor has no obligation to sell any specific quantity of Fund shares. The Distributor and its officers have no role in determining the investment policies or which securities are to be purchased or sold by the Company.

The Distributor may enter into agreements with selected broker-dealers, banks or other financial intermediaries for distribution of shares of the Funds. With respect to certain financial intermediaries and related fund "supermarket" platform arrangements, the Funds and/or the Adviser, rather than the Distributor, typically enter into such agreements. These financial intermediaries may charge a fee for their services and may receive shareholder service or other fees from parties other than the Distributor. These financial intermediaries may otherwise act as processing agents and are responsible for promptly transmitting purchase, redemption and other requests to the Funds.

Investors who purchase shares through financial intermediaries will be subject to the procedures of those intermediaries through which they purchase shares, which may include charges, investment minimums, cutoff times and other restrictions in addition to, or different from, those listed herein. Information concerning any charges or services will be provided to customers by the financial intermediary through which they purchase shares. Investors purchasing shares of the Funds through financial intermediaries should acquaint themselves with their financial intermediary's procedures and should read the Prospectus in conjunction with any materials and information provided by their financial intermediary. The financial intermediary, and not its customers, will be the shareholder of record, although customers may have the right to vote shares depending upon their arrangement with the financial intermediary. The Distributor does not receive compensation from the Funds for its distribution services except the distribution/service fees with respect to the shares of those classes for which a Rule 12b-1 distribution plan is effective. The Adviser pays the Distributor a fee for certain distribution-related services.

The Distribution Agreement has an initial term of up to two years and will continue in effect only if such continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund's outstanding voting securities in accordance with the 1940 Act. The Distribution Agreement is terminable without penalty by the Company on behalf of the Funds on no less than 60 days' written notice when authorized either by a vote of a majority of the outstanding voting securities of the Funds or by vote of a majority of the members of the Board who are not "interested persons" (as defined in the 1940 Act) of the Company and have no direct or indirect financial interest in the operation of the Distribution Agreement, or by the Distributor, and will automatically terminate in the event of its "assignment" (as defined in the 1940 Act). The Distribution Agreement provides that the Distributor shall not be liable for any loss suffered by the Company in connection with the performance of the Distributor's obligations and duties under the Distribution Agreement, except a loss resulting from the Distributor's willful misfeasance, bad faith or negligence in the performance of such duties and obligations, or by reason of its reckless disregard thereof.

Plan of Distribution

Class I Shares. Pursuant to the Distribution Agreement, the Distributor acts as the agent of the Company in connection with the continuous offering of each Fund's shares. The Distributor continually distributes shares of the Funds on a best efforts basis. The Distributor has no obligation to sell any specific quantity of Fund shares. The Distributor and its officers have no role in determining the investment policies or which securities are to be purchased or sold by the Company. The Distributor does not receive compensation from the Company for the distribution of a Fund's Class I shares; however, the Adviser pays an annual fee to the Distributor as compensation for underwriting services rendered to a Fund pursuant to the Distribution Agreement.

Class A Shares and Class C Shares. Pursuant to the Distribution Agreement and the related Plans of Distribution for Class A Shares and Class C Shares (together, the Plans"), which were adopted by the Company in the manner prescribed by Rule 12b-1 under the 1940 Act, the Distributor will act as the agent of the Company in connection with the continuous offering for the sale of the Class A Shares and Class C Shares, respectively. The Distributor continually distributes shares of the Funds on a best efforts basis. The Distributor has no obligation to sell any specific quantity of Fund shares. The Distributor and its officers have no role in determining the investment policies or which securities are to be purchased or sold by the Company. Payments to the Distributor under the Plans are to compensate it for distribution assistance and expenses assumed and activities intended to result in the sale of Class A Shares and Class C Shares, including advertising, printing and mailing of prospectuses to others than current shareholders, compensation of underwriters, compensation to broker-dealers, compensation to sales personnel, and interest, carrying or other financing charges. As compensation for its distribution services, the Distributor receives, pursuant to the terms of the Distribution Agreement, a distribution fee under the Plans, to be calculated daily and paid monthly by the Class A Shares and Class C Shares of a Fund at the annual rates set forth in the Funds' Prospectus.

Among other things, the Plans provide that: (1) the Distributor shall be required to submit quarterly reports to the Directors of the Company regarding all amounts expended under the Plans and the purposes for which such expenditures were made, including commissions, advertising, printing, interest, carrying charges and any allocated overhead expenses; (2) the Plans will continue in effect only so long as they are approved at least annually, and any material amendment thereto is approved, by the Company's Directors, including a majority of those Directors who are not "interested persons" (as defined in the 1940 Act) and who have no direct or indirect financial interest in the operation of the Plans or any agreements related to the Plans, acting in person at a meeting called for said purpose; (3) the aggregate amount to be spent by a Fund on the distribution of Class A Shares and Class C Shares under the respective Plans shall not be materially increased without shareholder approval; and (4) while the Plans remain in effect, the selection and nomination of the Company's Directors who are not "interested persons" of the Company (as defined in the 1940 Act) shall be committed to the discretion of such Directors who are not "interested persons" of the Company.

Mr. Sablowsky, a Director of the Company, has an indirect interest in the operation of the Plans by virtue of his position with Oppenheimer Co., Inc., a broker-dealer.

For the fiscal year ended August 31, 2018, total fees paid according to the Plans were as follows:

	U.S. Low Volatility Equity Fund		Small Cap Low Volatility Fund	
	Class A Shares	Class C Shares	Class A Shares	Class C Shares
Fiscal year ended August 31, 2018	\$29,707	\$11,280	\$8,418	\$1,485

The Funds made the following payments under the Plans for the fiscal year ended August 31, 2018:

	U.S. Low Volatility Equity Fund		Small Cap Low Volatility Fund	
	Class A	Class C	Class A	Class C
Advertising	\$0	\$0	\$0	\$0
Printing/Postage	\$0	\$0	\$0	\$0
Compensation to distributor	\$0	\$0	\$0	\$0
Compensation to broker-dealers	\$29,707	\$11,280	\$8,418	\$1,485
Compensation to sales personnel	\$0	\$0	\$0	\$0
Interest, carrying, or other financing charges	\$0	\$0	\$0	\$0
Other uses	\$0	\$0	\$0	\$0

PAYMENTS TO FINANCIAL INTERMEDIARIES

The Adviser and/or its affiliates, at their discretion, may make payments from their own resources and not from Fund assets to affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Funds, their service providers or their respective affiliates, as incentives to help market and promote the Funds and/or in recognition of their distribution, marketing, administrative services, and/or processing support.

These additional payments may be made to financial intermediaries that sell Fund shares or provide services to the Funds, the Distributor or shareholders of the Funds through the financial intermediary's retail distribution channel and/or fund supermarkets. Payments may also be made through the financial intermediary's retirement, qualified tuition, fee-based advisory, wrap fee bank trust, or insurance (e.g., individual or group annuity) programs. These payments may include, but are not limited to, placing a Fund in a financial intermediary's retail distribution channel or on a preferred or recommended fund list; providing business or shareholder financial planning assistance; educating financial intermediary personnel about a Fund; providing access to sales and management representatives of the financial intermediary; promoting sales of Fund shares; providing marketing and educational support; maintaining share balances and/or for sub-accounting, administrative or shareholder transaction processing services. A financial intermediary may perform the services itself or may arrange with a third party to perform the services.

The Adviser and/or its affiliates may also make payments from their own resources to financial intermediaries for costs associated with the purchase of products or services used in connection with sales and marketing, participation in and/or presentation at conferences or seminars, sales or training programs, client and investor entertainment and other sponsored events. The costs and expenses associated with these efforts may include travel, lodging, sponsorship at educational seminars and conferences, entertainment and meals to the extent permitted by law.

Revenue sharing payments may be negotiated based on a variety of factors, including the level of sales, the amount of Fund assets attributable to investments in a Fund by financial intermediaries' customers, a flat fee or other measures as determined from time to time by the Adviser and/or its affiliates. A significant purpose of these payments is to increase the sales of Fund shares, which in turn may benefit the Adviser through increased fees as Fund assets grow.

FUND TRANSACTIONS

Subject to policies established by the Board and applicable rules, the Adviser is responsible for the execution of portfolio transactions and the allocation of brokerage transactions for the Funds. In executing portfolio transactions, the Adviser seeks to obtain the best price and most favorable execution for the Funds, taking into account such factors as the price (including the applicable brokerage commission or dealer spread), size of the order, difficulty of execution and operational facilities of the firm involved. While the Adviser generally seeks reasonably competitive commission rates, payment of the lowest commission or spread is not necessarily consistent with obtaining the best price and execution in particular transactions.

Brokerage Transactions

Generally, equity securities, both listed and over-the-counter, are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. Money market securities and other debt securities are usually bought and sold directly from the issuer or an underwriter or market maker for the securities. Generally, the Fund will not pay brokerage commissions for such purchases. When a debt security is bought from an underwriter, the purchase price will usually include an underwriting commission or concession. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark up or reflect a dealer's mark down. When a Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In addition, the Adviser may place a combined order for two or more accounts they manage, including the Funds, engaged in the purchase or sale of the same security if, in its judgment, joint execution is in the best interest of each participant and will result in best price and execution. Transactions involving commingled orders are allocated in a manner deemed equitable to each account and each Fund. Although it is recognized that, in some cases, the joint execution of orders could adversely affect the price or volume of the security that a particular account or Fund may obtain, it is the opinion of the Adviser and the Board that the advantages of combined orders outweigh the possible disadvantages of separate transactions. Nonetheless, the Adviser believes that the ability of a Fund to participate in higher volume transactions will generally be beneficial to the Fund.

For the fiscal years or period ended August 31, 2018, 2017 and 2016, the Funds paid the following commissions to brokers on account of research services:

U.S. Low Volatility Equity Fund

For the fiscal year ended August 31, 2018	\$	0
For the fiscal year ended August 31, 2017	\$	0
For the fiscal year ended August 31, 2016	\$	0

Small Cap Low Volatility Fund

For the fiscal year ended August 31, 2018	\$	0
For the fiscal year ended August 31, 2017	\$	0
For the fiscal period ended August 31, 2016 ⁽¹⁾	\$	0

Global Low Volatility Fund

For the fiscal year August 31, 2018	\$	0
For the fiscal year August 31, 2017	\$	0
For the fiscal year August 31, 2016	\$	0

The following chart shows the aggregate brokerage commissions paid by the Funds for the fiscal years or period ended August 31, 2018, 2017 and 2016:

U.S. Low Volatility Equity Fund

For the fiscal year ended August 31, 2018	\$	79,128
For the fiscal year ended August 31, 2017	\$	10,445
For the fiscal year ended August 31, 2016	\$	20,776

Small Cap Low Volatility Fund

For the fiscal year ended August 31, 2018	\$	19,806
For the fiscal year ended August 31, 2017	\$	8,788
For the fiscal period ended August 31, 2016 ⁽¹⁾	\$	2,790

Global Low Volatility Fund

For the fiscal year ended August 31, 2018	\$	4,063
For the fiscal year ended August 31, 2017	\$	19,392
For the fiscal year ended August 31, 2016	\$	217,957

(1) The Small Cap Low Volatility Fund commenced operations on March 31, 2016.

Each Fund is required to identify any securities of the Company's regular broker-dealers (as defined in Rule 10b-1 under the 1940 Act) or their parents held by the Fund as of the end of the most recent fiscal year. As of August 31, 2018, no Fund held securities of its regular broker-dealers.

Brokerage Selection

The Company does not expect to use one particular broker or dealer, and when one or more brokers is believed capable of providing the best combination of price and execution, the Adviser may select a broker based upon brokerage or research services provided to the Adviser. The Adviser may pay a higher commission than otherwise obtainable from other brokers in return for such services only if a good faith determination is made that the commission is reasonable in relation to the services provided.

Section 28(e) of the Securities Exchange Act of 1934, as amended, permits an investment adviser, under certain circumstances, to cause a fund to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. In addition to agency transactions, the Adviser may receive brokerage and research services in connection with certain riskless principal transactions, in accordance with applicable SEC guidance. Brokerage and research services include: (1) furnishing advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (2) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and the performance of accounts; and (3) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement, and custody). In the case of research services, the Adviser believes that access to independent investment research is beneficial to their investment decision-making processes and, therefore, to the Funds.

To the extent research services may be a factor in selecting brokers, such services may be in written form or through direct contact with individuals and may include information as to particular companies and securities as well as market, economic, or institutional areas and information which assists in the valuation and pricing of investments. Examples of research-oriented services for which the Adviser might utilize Fund commissions include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. The Adviser may use research services furnished by brokers in servicing all client accounts and not all services may necessarily be used in connection with the account that paid commissions to the broker providing such services. Information so received by the Adviser will be in addition to and not in lieu of the services required to be performed by the Adviser under the Advisory Agreement. Any advisory or other fees paid to the Adviser are not reduced as a result of the receipt of research services.

In some cases, the Adviser may receive a service from a broker that has both a "research" and a "non-research" use. When this occurs, the Adviser makes a good faith allocation, under all the circumstances, between the research and non-research uses of the service. The percentage of the service that is used for research purposes may be paid for with client commissions, while the Adviser will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, the Adviser faces a potential conflict of interest, but the Adviser believes that its allocation procedures are reasonably designed to ensure that it appropriately allocates the anticipated use of such services to their research and non-research uses.

From time to time, the Funds may purchase new issues of securities for clients in a fixed price offering. In these situations, the seller may be a member of the selling group that will, in addition to selling securities, provide the Adviser with research services. FINRA has adopted rules expressly permitting these types of arrangements under certain circumstances. Generally, the seller will provide research "credits" in these situations at a rate that is higher than that which is available for typical secondary market transactions. These arrangements may not fall within the safe harbor of Section 28(e).

PURCHASE AND REDEMPTION INFORMATION

Read the Funds' Prospectus for information regarding the purchase and redemption of Fund shares, including any applicable sales charges. The following information supplements information in the Funds' Prospectus.

You may purchase shares through an account maintained by your brokerage firm, financial institutions and industry professionals ("Service Organizations") and you may also purchase shares directly by mail or wire. The Company reserves the right, if conditions exist which make cash payments undesirable, to honor any request for redemption or repurchase of a Fund's shares by making payment in whole or in part in securities chosen by the Company and valued in the same way as they would be valued for purposes of computing a Fund's NAV. If payment is made in securities, a shareholder may incur transaction costs in converting these securities into cash. A shareholder will also bear any market risk or tax consequences as a result of a payment in securities. The Company has elected, however, to be governed by Rule 18f-1 under the 1940 Act so that a Fund is obligated to redeem its shares solely in cash up to the lesser of \$250,000 or 1% of its NAV during any 90-day period for any one shareholder of the Fund. A shareholder will bear the risk of a decline in market value and any tax consequences associated with a redemption in securities.

Under the 1940 Act, the Company may suspend the right to redemption or postpone the date of payment upon redemption for any period during which the New York Stock Exchange, Inc. (the "NYSE") is closed (other than customary weekend and holiday closings), or during which the SEC restricts trading on the NYSE or determines an emergency exists as a result of which disposal or valuation of portfolio securities is not reasonably practicable, or for such other periods as the SEC may permit. (The Company may also suspend or postpone the recordation of the transfer of its shares upon the occurrence of any of the foregoing conditions).

Shares of the Funds are subject to redemption by the Company, at the redemption price of such shares as in effect from time to time, including, without limitation: (1) to reimburse the Funds for any loss sustained by reason of the failure of a shareholder to make full payment for shares purchased by the shareholder or to collect any charge relating to a transaction effected for the benefit of a shareholder as provided in the Prospectus from time to time; (2) if such redemption is, in the opinion of the Board, desirable in order to prevent the Company or the Funds from being deemed a "personal holding company" within the meaning of the Code; (3) or if the net income with respect to any particular class of common stock should be negative or it should otherwise be appropriate to carry out the Company's responsibilities under the 1940 Act.

Each Fund has the right to redeem your shares at current NAV at any time and without prior notice if, and to the extent that, such redemption is necessary to reimburse the Fund for any loss sustained by reason of your failure to make full payment for shares of the Fund you previously purchased or subscribed for.

Class A Shares of the Funds may be subject to sales charges as described below.

Contingent Deferred Sales Charge on Certain Redemptions — Class A Shares ONLY. Purchases of \$1,000,000 or more of Class A Shares are not subject to an initial sales charge; however, a contingent deferred sales charge is payable on these investments in the event of a share redemption within 18 months following the share purchase, at the rate of 1% of the lesser of the value of the shares redeemed (exclusive of reinvested dividends and capital gain distributions) or the total cost of such shares. In determining whether a contingent deferred sales charge is payable, and the amount of the charge, it is assumed that shares purchased with reinvested dividend and capital gain distributions and then other shares held the longest are the first redeemed. The contingent deferred sales charge is waived in the event of (a) the death or disability (as defined in Section 72(m)(7) of the Internal Revenue Code of 1986, as amended (the "Code")) of the shareholder, (b) a lump sum distribution from a benefit plan qualified under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), or (c) systematic withdrawals from ERISA plans if the shareholder is at least 59 1/2 years old. The Fund applies the waiver for death or disability to shares held at the time of death or the initial determination of disability of either an individual shareholder or one who owns the shares of a joint tenant with the right of survivorship or as a tenant in common. Prior to January 1, 2018, Class A Shares (formerly, Retail Shares) of the Small Cap Low Volatility Fund were not subject to the front-end sales charge.

Reducing or Eliminating the Front-End Sales Charge — Class A Shares ONLY.

The Funds' Class A Shares are offered to the public at NAV plus a front-end sales charge. You can reduce or eliminate the front-end sales charge on Class A Shares of the Funds as follows:

Quantity Discounts — Class A Shares ONLY. Purchases of at least \$50,000 can reduce the sales charges you pay, and purchases of at least \$1,000,000 can eliminate the sales charges you pay.

Rights of Accumulation. You will have the benefit of a reduced sales charge by combining your purchase of Class A shares of a Fund in a single transaction with your purchase of Class A shares of another Fund. You may also combine your new purchase of Class A shares of a Fund with Class C shares currently owned for the purpose of qualifying for the lower initial sales charge rates that apply to larger purchases. The applicable sales charge for the new purchase is based on the total of your current purchase and the current NAV of all other shares you own. You may combine your account, your spouse's account, and the account(s) of your children under age 25.

This privilege is also extended to certain employee benefit plans and trust estates. The following purchases may be combined for purposes of determining the "Amount of Purchase:" (a) individual purchases, if made at the same time, by a single purchaser, the purchaser's spouse and children under the age of 25 purchasing shares for their own accounts, including shares purchased by a qualified retirement Plan(s) exclusively for the benefit of such individual(s) (such as an IRA, individual-type section 403(b) plan or single-participant Keogh-type plan) or by a "Company," as defined in Section 2(a)(8) of the 1940 Act, solely controlled as defined in the 1940 Act, by such individual(s), or (b) individual purchases by trustees or other fiduciaries purchase Shares (i) for a single trust estate or a single fiduciary account, including an employee benefit plan, or (ii) concurrently by two or more employee benefit plans for a single employer or of employers affiliated with each other in accordance with Section 2(a)(3)(c) of the 1940 Act (excluding in either case an employee benefit plan described in (a) above). Provided such trustees or other fiduciaries purchase shares in a single payment. Purchases made for nominee or street name accounts may not be combined with purchases made for such other accounts. You may also further discuss Rights of Accumulation with your Service Organizations.

You will need to provide written instruction with respect to the other accounts whose purchases should be considered in Rights of Accumulation.

Letter of Intent — Class A Shares ONLY. You can sign a Letter of Intent committing to purchase at least \$50,000 in Class A Shares of the Funds within a 13-month period to combine such purchases in calculating the sales charge. A portion of your Fund shares will be held in escrow. If you complete your purchase commitments as stated in the Letter of Intent, your Fund shares held in escrow will be released to your account. If you do not fulfill the Letter of Intent, the appropriate amount of Fund shares held in escrow will be redeemed to pay the sales charges that were not applied to your purchases.

Dealer Reallowances — Class A Shares ONLY. As shown in the table below, the Distributor for the shares of the Funds, may provide dealer reallowances up to the full sales charge for purchases of the Funds' Class A Shares in which a front-end sales charge is applicable.

Amount of Purchase	Sales Charge as a % of Offering Price	Commission as a % of Offering Price
Less than \$50,000	5.25%	4.75%
At least \$50,000 but less than \$100,000	4.75%	4.25%
At least \$100,000 but less than \$250,000	3.50%	3.25%
At least \$250,000 but less than \$500,000	2.50%	2.25%
At least \$500,000 but less than \$750,000	2.00%	1.90%
At least \$750,000 but less than \$1,000,000	1.50%	1.45%
\$1,000,000 or greater	None*	**

* No sales charge is payable at the time of purchase on investments of \$1,000,000 or more; however, a 1% contingent deferred sales charge is imposed in the event of redemption within 18 months following any such purchase.

** The Funds' distributor may pay a commission at the rate of 1% to certain brokerage firms, financial institutions and other industry professionals, including affiliates of the Adviser, who initiate and are responsible for purchases of \$1,000,000 or more.

Other Purchase Information

If shares of the Funds are held in a "street name" account with an authorized dealer, all recordkeeping, transaction processing and payments of distributions relating to the beneficial owner's account will be performed by the authorized dealer, and not by a Fund and its Transfer Agent. Since the Funds will have no record of the beneficial owner's transactions, a beneficial owner should contact the authorized dealer to purchase, redeem or exchange shares, to make changes in or give instructions concerning the account or to obtain information about the account. The transfer of shares in a "street name" account to an account with another dealer or to an account directly with a Fund involves special procedures and will require the beneficial owner to obtain historical purchase information about the shares in the account from the authorized dealer.

Share Class Conversion

Some shareholders may hold shares of a Fund through fee-based programs, often referred to as "wrap accounts," that are managed by investment dealers, financial advisors or other investment professionals (each, a "wrap account intermediary"). A wrap account intermediary may impose eligibility requirements on a shareholder's participation in the fee-based program and ownership of shares through the program, which are additional to the ownership requirements described in a Fund's Prospectus. Under the terms of its fee-based program, a wrap account intermediary may also be permitted to effect a conversion (sometimes referred to as an "in-kind exchange") of a shareholder's shares in a Fund, including those shares purchased by the shareholder during the shareholder's participation in the program, to a different class of shares of that Fund in situations when the shareholder no longer meets the wrap account intermediary's stated eligibility requirements for the ownership of the class of shares that the shareholder initially purchased. For example, the terms of its fee-based program may permit a wrap account intermediary to effect this type of conversion when a shareholder moves his position in a class of shares of a Fund out of the program that offered that class of shares and into a program or account through which the wrap account intermediary only offers a different class or classes of shares of that Fund. Under other circumstances, a financial intermediary may effect this type of conversion with respect to new clients who held one class of shares of a Fund before becoming a client of the intermediary, and who are eligible for a wrap account through which the intermediary offers a different class of shares of that Fund. Any such conversion by a wrap account intermediary will be made in accordance with the Prospectus of the applicable Fund, and will be made without the imposition by that Fund of any sales load, fee or other charge. The class of shares that a shareholder owns after the conversion may bear higher fees and expenses than the class of shares that the shareholder initially purchased.

If you own shares of a Fund through a fee-based program, you should consult with your wrap account intermediary to determine whether there are any additional eligibility requirements that the wrap account intermediary imposes on your participation in their program and your ownership of a Fund's shares through the program, and whether the wrap account intermediary prescribes any circumstances which may result in the type of share class conversion described herein.

TELEPHONE TRANSACTION PROCEDURES

The Company's telephone transaction procedures include the following measures: (1) requiring the appropriate telephone transaction privilege forms; (2) requiring the caller to provide the names of the account owners, the account social security number and name of the Fund, all of which must match the Company's records; (3) requiring the Company's service representative to complete a telephone transaction form, listing all of the above caller identification information; (4) permitting exchanges (if applicable) only if the two account registrations are identical; (5) requiring that redemption proceeds be sent only by check to the account owners of record at the address of record, or by electronic funds transfer through the ACH network or by wire only to the owners of record at the bank account of record; (6) sending a written confirmation for each telephone transaction to the owners of record at the address of record within five (5) business days of the call; and (7) maintaining tapes of telephone transactions for six months, if the Company elects to record shareholder telephone transactions. For accounts held of record by broker-dealers, financial institutions, securities dealers, financial planners and other industry professionals, additional documentation or information regarding the scope of a caller's authority is required. Finally, for telephone transactions in accounts held jointly, additional information regarding other account holders is required. Telephone transactions will not be permitted in connection with IRA or other retirement plan accounts.

VALUATION OF SHARES

In accordance with procedures adopted by the Board, the NAV per share of each Fund is calculated by determining the value of the net assets attributed to the Fund and dividing by the number of outstanding shares of the Fund. All securities are valued on each Business Day as of the close of regular trading on the NYSE (normally, but not always, 4:00 p.m. Eastern Time) or such other time as the NYSE or National Association of Securities Dealers Automated Quotations System (“NASDAQ”) market may officially close. The term “Business Day” means any day the NYSE is open for trading, which is Monday through Friday except for holidays. The NYSE is generally closed on the following holidays: New Year’s Day (observed), Martin Luther King, Jr. Day, Washington’s Birthday (observed), Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The time at which transactions and shares are priced and the time by which orders must be received may be changed in case of an emergency or if regular trading on the NYSE is stopped at a time other than 4:00 p.m. Eastern Time. The Company reserves the right to reprocess purchase, redemption and exchange transactions that were initially processed at a NAV other than the Fund’s official closing NAV (as the same may be subsequently adjusted), and to recover amounts from (or distribute amounts to) shareholders based on the official closing NAV. The Company reserves the right to advance the time by which purchase and redemption orders must be received for same business day credit as otherwise permitted by the SEC. In addition, the Fund may compute its NAV as of any time permitted pursuant to any exemption, order or statement of the SEC or its staff.

The securities of each Fund are valued under the direction of the Funds’ administrator and under the general supervision of the Board. Prices are generally determined using readily available market prices. Subject to the approval of the Board, the Funds may employ outside organizations, which may use a matrix or formula method that takes into consideration market indices, matrices, yield curves and other specific adjustments in determining the approximate market value of portfolio investments. This may result in the investments being valued at a price that differs from the price that would have been determined had the matrix or formula method not been used. All cash, receivables, and current payables are carried on a Fund’s books at their face value. Other assets, if any, are valued at fair value as determined in good faith by the Funds’ Valuation Committee under the direction of the Board.

The procedures used by any pricing service and its valuation results are reviewed by the officers of the Company under the general supervision of the Board.

Each Fund may hold portfolio securities that are listed on foreign exchanges. These securities may trade on weekends or other days when the Funds do not calculate NAV. As a result, the value of these investments may change on days when you cannot purchase or sell Fund shares.

TAXES

The following summarizes certain additional tax considerations generally affecting the Funds and their shareholders that are not described in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Funds or their shareholders, and the discussions here and in the Prospectus are not intended as a substitute for careful tax planning. Potential investors should consult their tax advisers with specific reference to their own tax situations.

The discussions of the federal tax consequences in the Prospectus and this SAI are based on the Code and the regulations issued under it, and court decisions and administrative interpretations, as in effect on the date of this SAI. Future legislative or administrative changes or court decisions may significantly alter the statements included herein, and any such changes or decisions may be retroactive.

General

Each Fund qualified during its last taxable year and intends to continue to qualify as a regulated investment company under Subchapter M of Subtitle A, Chapter 1, of the Code. As such, each Fund generally is exempt from federal income tax on its net investment income and realized capital gains that it distributes to shareholders. To qualify for treatment as a regulated investment company, each Fund must meet three important tests each year.

First, a Fund must derive with respect to each taxable year at least 90% of its gross income from dividends, interest, certain payments with respect to securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, other income derived with respect to the Fund's business of investing in stock, securities or currencies, or net income derived from interests in qualified publicly traded partnerships.

Second, generally, at the close of each quarter of a Fund's taxable year, at least 50% of the value of the Fund's assets must consist of cash and cash items, U.S. government securities, securities of other regulated investment companies, and securities of other issuers as to which the Fund has not invested more than 5% of the value of its total assets in securities of the issuer and as to which the Fund does not hold more than 10% of the outstanding voting securities of the issuer, and no more than 25% of the value of the Fund's total assets may be invested in the securities of (1) any one issuer (other than U.S. government securities and securities of other regulated investment companies), (2) two or more issuers that the Fund controls and which are engaged in the same or similar trades or businesses or (3) one or more qualified publicly traded partnerships.

Third, a Fund must distribute an amount equal to at least the sum of 90% of its investment company taxable income (net investment income and the excess of net short-term capital gain over net long-term capital loss) before taking into account any deduction for dividends paid, and 90% of its tax-exempt income, if any, for the year.

Each Fund intends to comply with these requirements. If a Fund were to fail to make sufficient distributions, it could be liable for corporate income tax and for excise tax in respect of the shortfall or, if the shortfall is large enough, the Fund could be disqualified as a regulated investment company. If for any taxable year a Fund were not to qualify as a regulated investment company, all its taxable income would be subject to tax at regular corporate rates without any deduction for distributions to shareholders. In that event, shareholders would recognize dividend income on distributions to the extent of the Fund's current and accumulated earnings and profits, and corporate shareholders could be eligible for the dividends-received deduction.

The Code imposes a nondeductible 4% excise tax on regulated investment companies that fail to distribute each year an amount equal to specified percentages of their ordinary taxable income and capital gain net income (excess of capital gains over capital losses). Each Fund intends to make sufficient distributions or deemed distributions each year to avoid liability for this excise tax.

As of August 31, 2018, the Global Low Volatility Fund had a short-term capital loss carryforward for federal income tax purposes of \$1,986,607 which may be carried forward indefinitely.

Taxation of Certain Investments

The tax principles applicable to transactions in financial instruments, such as futures contracts and options, that may be engaged in by a Fund, and investments in passive foreign investment companies ("PFICs"), are complex and, in some cases, uncertain. Such transactions and investments may cause a Fund to recognize taxable income prior to the receipt of cash, thereby requiring the Fund to liquidate other positions, or to borrow money, so as to make sufficient distributions to shareholders to avoid corporate-level tax. Moreover, some or all of the taxable income recognized may be ordinary income or short-term capital gain, so that the distributions may be taxable to shareholders as ordinary income.

In addition, in the case of any shares of a PFIC in which a Fund invests, the Fund may be liable for corporate-level tax on any ultimate gain or distributions on the shares if the Fund fails to make an election to recognize income annually during the period of its ownership of the shares.

State and Local Taxes

Although the Funds each expect to qualify as a "regulated investment company" and to be relieved of all or substantially all federal income taxes, depending upon the extent of its activities in states and localities in which its offices are maintained, in which its agents or independent contractors are located or in which it is otherwise deemed to be conducting business, each Fund may be subject to the tax laws of such states or localities.

ADDITIONAL INFORMATION CONCERNING COMPANY SHARES

The Company has authorized capital of 100 billion shares of common stock at a par value of \$0.001 per share. Currently, 87.223 billion shares have been classified into 183 classes, however, the Company only has 46 active share classes that have begun investment operations. Under the Company's charter, the Board has the power to classify and reclassify any unissued shares of common stock from time to time.

Each share that represents an interest in a Fund has an equal proportionate interest in the assets belonging to the Fund with each other share that represents an interest in the Fund, even where a share has a different class designation than another share representing an interest in the Fund. Shares of the Company do not have preemptive or conversion rights. When issued for payment as described in the Prospectus, shares of the Company will be fully paid and non-assessable.

The Company does not currently intend to hold annual meetings of shareholders except as required by the 1940 Act or other applicable law. The Company's amended By-Laws provide that shareholders owning at least ten percent of the outstanding shares of all classes of common stock of the Company have the right to call for a meeting of shareholders to consider the removal of one or more directors. To the extent required by law, the Company will assist in shareholder communication in such matters.

Holders of shares of each class of the Funds will vote in the aggregate and not by class on all matters, except where otherwise required by law. Further, shareholders of the Company will vote in the aggregate and not by portfolio except as otherwise required by law or when the Board determines that the matter to be voted upon affects only the interests of the shareholders of a particular portfolio or class of shares. Rule 18f-2 under the 1940 Act provides that any matter required to be submitted by the provisions of such Act or applicable state law, or otherwise, to the holders of the outstanding voting securities of an investment company such as the Company shall not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding voting securities of each portfolio affected by the matter. Rule 18f-2 further provides that a portfolio shall be deemed to be affected by a matter unless it is clear that the interests of each portfolio in the matter are identical or that the matter does not affect any interest of the portfolio. Under Rule 18f-2 the approval of an investment advisory agreement or distribution agreement or any change in a fundamental investment objective or fundamental investment policy would be effectively acted upon with respect to a portfolio only if approved by the holders of a majority of the outstanding voting securities of such portfolio. However, the Rule also provides that the ratification of the selection of independent public accountants and the election of directors are not subject to the separate voting requirements and may be effectively acted upon by shareholders of an investment company voting without regard to a portfolio. Shareholders of the Company are entitled to one vote for each full share held (irrespective of class or portfolio) and fractional votes for fractional shares held. Voting rights are not cumulative and, accordingly, the holders of more than 50% of the aggregate shares of common stock of the Company may elect all of the Directors.

Notwithstanding any provision of Maryland law requiring a greater vote of shares of the Company's common stock (or of any class voting as a class) in connection with any corporate action, unless otherwise provided by law (for example by Rule 18f-2 discussed above), or by the Company's Articles of Incorporation and By-Laws, the Company may take or authorize such action upon the favorable vote of the holders of more than 50% of all of the outstanding shares of Common Stock voting without regard to class (or portfolio).

MISCELLANEOUS

Anti-Money Laundering Program

The Funds have established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act"). To ensure compliance with this law, the Funds' Program provides for the development of internal practices, procedures, and controls, designation of anti-money laundering compliance officers, an ongoing training program, and an independent audit function to determine the effectiveness of the Program.

Procedures to implement the Program include, but are not limited to, determining that certain of their service providers have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity, and conducting a complete and thorough review of all new account applications. The Funds will not transact business with any person or legal entity whose identity and beneficial owners, if applicable, cannot be adequately verified under the provisions of the USA PATRIOT Act.

Counsel

The law firm of Drinker Biddle & Reath LLP, One Logan Square, Suite 2000, Philadelphia, Pennsylvania 19103-6996, serves as independent counsel to the Company and the Independent Directors.

Independent Registered Public Accounting Firm

Ernst & Young LLP, One Commerce Square, 2005 Market Street, Suite 700, Philadelphia, Pennsylvania 19103, serves as the Funds' independent registered public accounting firm, and in that capacity audits the Funds' financial statements.

FINANCIAL STATEMENTS

The audited financial statements and notes thereto in the Funds' Annual Report to Shareholders for the fiscal year ended August 31, 2018 (the "Annual Report") are incorporated by reference into this SAI. No other parts of the Annual Report are incorporated by reference herein. The financial statements included in the Annual Report for each of the years presented for the U.S. Low Volatility Equity Fund and the Small Cap Low Volatility Fund and for the year ended August 31, 2018 for the Global Low Volatility Fund have been audited by Ernst & Young LLP, the Funds' independent registered public accounting firm, whose report also appears in the Annual Report and is incorporated by reference into this SAI. The financial statements for the fiscal years or periods ended August 31, 2017, 2016, 2015 and 2014 and the year ended September 30, 2013 for the Global Low Volatility Fund was audited by another independent registered public accounting firm. Such financial statements have been incorporated by reference herein in reliance upon such firms' reports given upon their authority as experts in accounting and auditing. Copies of the Annual Report may be obtained at no charge by telephoning the Funds at the telephone number appearing on the front page of this SAI.

APPENDIX A

DESCRIPTION OF SECURITIES RATINGS

Short-Term Credit Ratings

An *S&P Global Ratings* short-term issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation having an original maturity of no more than 365 days. The following summarizes the rating categories used by S&P Global Ratings for short-term issues:

“A-1” – A short-term obligation rated “A-1” is rated in the highest category by S&P Global Ratings. The obligor’s capacity to meet its financial commitments on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor’s capacity to meet its financial commitment on these obligations is extremely strong.

“A-2” – A short-term obligation rated “A-2” is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor’s capacity to meet its financial commitments on the obligation is satisfactory.

“A-3” – A short-term obligation rated “A-3” exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken an obligor’s capacity to meet its financial commitments on the obligation.

“B” – A short-term obligation rated “B” is regarded as vulnerable and has significant speculative characteristics. The obligor currently has the capacity to meet its financial commitments; however, it faces major ongoing uncertainties that could lead to the obligor’s inadequate capacity to meet its financial commitments.

“C” – A short-term obligation rated “C” is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation.

“D” – A short-term obligation rated “D” is in default or in breach of an imputed promise. For non-hybrid capital instruments, the “D” rating category is used when payments on an obligation are not made on the date due, unless S&P Global Ratings believes that such payments will be made within any stated grace period. However, any stated grace period longer than five business days will be treated as five business days. The “D” rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation’s rating is lowered to “D” if it is subject to a distressed exchange offer.

Local Currency and Foreign Currency Ratings – S&P Global Ratings’ issuer credit ratings make a distinction between foreign currency ratings and local currency ratings. An issuer’s foreign currency rating will differ from its local currency rating when the obligor has a different capacity to meet its obligations denominated in its local currency, vs. obligations denominated in a foreign currency.

Moody’s Investors Service (“Moody’s”) short-term ratings are forward-looking opinions of the relative credit risks of financial obligations with an original maturity of thirteen months or less and reflect both on the likelihood of a default on contractually promised payments and the expected financial loss suffered in the event of default.

Moody’s employs the following designations to indicate the relative repayment ability of rated issuers:

“P-1” – Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

“P-2” – Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

“P-3” – Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

“NP” – Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

“NR” – Is assigned to an unrated issuer.

Fitch, Inc. / Fitch Ratings Ltd. (“Fitch”) short-term issuer or obligation rating is based in all cases on the short-term vulnerability to default of the rated entity and relates to the capacity to meet financial obligations in accordance with the documentation governing the relevant obligation. Short-term deposit ratings may not be adjusted for loss severity. Short-term ratings are assigned to obligations whose initial maturity is viewed as “short-term” based on market convention. Typically, this means up to 13 months for corporate, sovereign, and structured obligations and up to 36 months for obligations in U.S. public finance markets. The following summarizes the rating categories used by Fitch for short-term obligations:

“F1” – Securities possess the highest short-term credit quality. This designation indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added “+” to denote any exceptionally strong credit feature.

“F2” – Securities possess good short-term credit quality. This designation indicates good intrinsic capacity for timely payment of financial commitments.

“F3” – Securities possess fair short-term credit quality. This designation indicates that the intrinsic capacity for timely payment of financial commitments is adequate.

“B” – Securities possess speculative short-term credit quality. This designation indicates minimal capacity for timely payment of financial commitments, plus heightened vulnerability to near term adverse changes in financial and economic conditions.

“C” – Securities possess high short-term default risk. Default is a real possibility.

“RD” – Restricted default. Indicates an entity that has defaulted on one or more of its financial commitments, although it continues to meet other financial obligations. Typically applicable to entity ratings only.

“D” – Default. Indicates a broad-based default event for an entity, or the default of a short-term obligation.

Plus (+) or minus (-) – The “F1” rating may be modified by the addition of a plus (+) or minus (-) sign to show the relative status within that major rating category.

“NR” – Is assigned to an unrated issue of a rated issuer.

The **DBRS® Ratings Limited (“DBRS”)** short-term debt rating scale provides an opinion on the risk that an issuer will not meet its short-term financial obligations in a timely manner. Ratings are based on quantitative and qualitative considerations relevant to the issuer and the relative ranking of claims. The R-1 and R-2 rating categories are further denoted by the sub-categories “(high)”, “(middle)”, and “(low)”.

The following summarizes the ratings used by DBRS for commercial paper and short-term debt:

“R-1 (high)” - Short-term debt rated “R-1 (high)” is of the highest credit quality. The capacity for the payment of short-term financial obligations as they fall due is exceptionally high. Unlikely to be adversely affected by future events.

“R-1 (middle)” – Short-term debt rated “R-1 (middle)” is of superior credit quality. The capacity for the payment of short-term financial obligations as they fall due is very high. Differs from “R-1 (high)” by a relatively modest degree. Unlikely to be significantly vulnerable to future events.

“R-1 (low)” – Short-term debt rated “R-1 (low)” is of good credit quality. The capacity for the payment of short-term financial obligations as they fall due is substantial. Overall strength is not as favorable as higher rating categories. May be vulnerable to future events, but qualifying negative factors are considered manageable.

“R-2 (high)” – Short-term debt rated “R-2 (high)” is considered to be at the upper end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events.

“R-2 (middle)” – Short-term debt rated “R-2 (middle)” is considered to be of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events or may be exposed to other factors that could reduce credit quality.

“R-2 (low)” – Short-term debt rated “R-2 (low)” is considered to be at the lower end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events. A number of challenges are present that could affect the issuer’s ability to meet such obligations.

“R-3” – Short-term debt rated “R-3” is considered to be at the lowest end of adequate credit quality. There is a capacity for the payment of short-term financial obligations as they fall due. May be vulnerable to future events and the certainty of meeting such obligations could be impacted by a variety of developments.

“R-4” – Short-term debt rated “R-4” is considered to be of speculative credit quality. The capacity for the payment of short-term financial obligations as they fall due is uncertain.

“R-5” – Short-term debt rated “R-5” is considered to be of highly speculative credit quality. There is a high level of uncertainty as to the capacity to meet short-term financial obligations as they fall due.

“D” – Short-term debt rated “D” is assigned when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods, a downgrade to “D” may occur. DBRS may also use “SD” (Selective Default) in cases where only some securities are impacted, such as the case of a “distressed exchange”.

Long-Term Credit Ratings

The following summarizes the ratings used by *S&P Global Ratings* for long-term issues:

“AAA” – An obligation rated “AAA” has the highest rating assigned by S&P Global Ratings. The obligor’s capacity to meet its financial commitments on the obligation is extremely strong.

“AA” – An obligation rated “AA” differs from the highest-rated obligations only to a small degree. The obligor’s capacity to meet its financial commitments on the obligation is very strong.

“A” – An obligation rated “A” is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor’s capacity to meet its financial commitments on the obligation is still strong.

“BBB” – An obligation rated “BBB” exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor’s capacity to meet its financial commitments on the obligation.

“BB,” “B,” “CCC,” “CC” and “C” – Obligations rated “BB,” “B,” “CCC,” “CC” and “C” are regarded as having significant speculative characteristics. “BB” indicates the least degree of speculation and “C” the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposure to adverse conditions.

“BB” – An obligation rated “BB” is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions that could lead to the obligor’s inadequate capacity to meet its financial commitments on the obligation.

“B” – An obligation rated “B” is more vulnerable to nonpayment than obligations rated “BB”, but the obligor currently has the capacity to meet its financial commitments on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor’s capacity or willingness to meet its financial commitments on the obligation.

“CCC” – An obligation rated “CCC” is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitments on the obligation.

“CC” – An obligation rated “CC” is currently highly vulnerable to nonpayment. The “CC” rating is used when a default has not yet occurred but S&P Global Ratings expects default to be a virtual certainty, regardless of the anticipated time to default.

“C” – An obligation rated “C” is currently highly vulnerable to nonpayment, and the obligation is expected to have lower relative seniority or lower ultimate recovery compared with obligations that are rated higher.

“D” – An obligation rated “D” is in default or in breach of an imputed promise. For non-hybrid capital instruments, the “D” rating category is used when payments on an obligation are not made on the date due, unless S&P Global Ratings believes that such payments will be made within five business days in the absence of a stated grace period or within the earlier of the stated grace period or 30 calendar days. The “D” rating also will be used upon the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation’s rating is lowered to “D” if it is subject to a distressed exchange offer.

Plus (+) or minus (-) – The ratings from “AA” to “CCC” may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

“NR” – This indicates that a rating has not been assigned, or is no longer assigned.

Local Currency and Foreign Currency Risks - S&P Global Ratings’ issuer credit ratings make a distinction between foreign currency ratings and local currency ratings. An issuer’s foreign currency rating will differ from its local currency rating when the obligor has a different capacity to meet its obligations denominated in its local currency, vs. obligations denominated in a foreign currency.

Moody’s long-term ratings are forward-looking opinions of the relative credit risks of financial obligations with an original maturity of one year or more. Such ratings reflect both on the likelihood of default on contractually promised payments and the expected financial loss suffered in the event of default. The following summarizes the ratings used by *Moody’s* for long-term debt:

“Aaa” – Obligations rated “Aaa” are judged to be of the highest quality, subject to the lowest level of credit risk.

“Aa” – Obligations rated “Aa” are judged to be of high quality and are subject to very low credit risk.

“A” – Obligations rated “A” are judged to be upper-medium grade and are subject to low credit risk.

“Baa” – Obligations rated “Baa” are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

“Ba” – Obligations rated “Ba” are judged to be speculative and are subject to substantial credit risk.

“B” – Obligations rated “B” are considered speculative and are subject to high credit risk.

“Caa” – Obligations rated “Caa” are judged to be speculative of poor standing and are subject to very high credit risk.

“Ca” – Obligations rated “Ca” are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

“C” – Obligations rated “C” are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody’s appends numerical modifiers 1, 2, and 3 to each generic rating classification from “Aa” through “Caa.” The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

“NR” – Is assigned to unrated obligations.

The following summarizes long-term ratings used by *Fitch*:

“AAA” – Securities considered to be of the highest credit quality. “AAA” ratings denote the lowest expectation of credit risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

“AA” – Securities considered to be of very high credit quality. “AA” ratings denote expectations of very low credit risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

“A” – Securities considered to be of high credit quality. “A” ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

“BBB” – Securities considered to be of good credit quality. “BBB” ratings indicate that expectations of credit risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

“BB” – Securities considered to be speculative. “BB” ratings indicate that there is an elevated vulnerability to credit risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial alternatives may be available to allow financial commitments to be met.

“B” – Securities considered to be highly speculative. “B” ratings indicate that material credit risk is present.

“CCC” – A “CCC” rating indicates that substantial credit risk is present.

“CC” – A “CC” rating indicates very high levels of credit risk.

“C” – A “C” rating indicates exceptionally high levels of credit risk.

Defaulted obligations typically are not assigned “RD” or “D” ratings but are instead rated in the “CCC” to “C” rating categories, depending on their recovery prospects and other relevant characteristics. Fitch believes that this approach better aligns obligations that have comparable overall expected loss but varying vulnerability to default and loss.

Plus (+) or minus (-) may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the “AAA” obligation rating category, or to corporate finance obligation ratings in the categories below “CCC”.

“NR” – Is assigned to an unrated issue of a rated issuer.

The *DBRS* long-term rating scale provides an opinion on the risk of default. That is, the risk that an issuer will fail to satisfy its financial obligations in accordance with the terms under which an obligation has been issued. Ratings are based on quantitative and qualitative considerations relevant to the issuer, and the relative ranking of claims. All rating categories other than AAA and D also contain subcategories “(high)” and “(low)”. The absence of either a “(high)” or “(low)” designation indicates the rating is in the middle of the category. The following summarizes the ratings used by DBRS for long-term debt:

“AAA” – Long-term debt rated “AAA” is of the highest credit quality. The capacity for the payment of financial obligations is exceptionally high and unlikely to be adversely affected by future events.

“AA” – Long-term debt rated “AA” is of superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from “AAA” only to a small degree. Unlikely to be significantly vulnerable to future events.

“A” – Long-term debt rated “A” is of good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than “AA.” May be vulnerable to future events, but qualifying negative factors are considered manageable.

“BBB” – Long-term debt rated “BBB” is of adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.

“BB” – Long-term debt rated “BB” is of speculative, non-investment grade credit quality. The capacity for the payment of financial obligations is uncertain. Vulnerable to future events.

“B” – Long-term debt rated “B” is of highly speculative credit quality. There is a high level of uncertainty as to the capacity to meet financial obligations.

“CCC”, “CC” and “C” – Long-term debt rated in any of these categories is of very highly speculative credit quality. In danger of defaulting on financial obligations. There is little difference between these three categories, although “CC” and “C” ratings are normally applied to obligations that are seen as highly likely to default, or subordinated to obligations rated in the “CCC” to “B” range. Obligations in respect of which default has not technically taken place but is considered inevitable may be rated in the “C” category.

“D” – A security rated “D” is assigned when the issuer has filed under any applicable bankruptcy, insolvency or winding up statute or there is a failure to satisfy an obligation after the exhaustion of grace periods, a downgrade to “D” may occur. DBRS may also use “SD” (Selective Default) in cases where only some securities are impacted, such as the case of a “distressed exchange”.

Municipal Note Ratings

An *S&P Global Ratings* U.S. municipal note rating reflects S&P Global Ratings’ opinion about the liquidity factors and market access risks unique to the notes. Notes due in three years or less will likely receive a note rating. Notes with an original maturity of more than three years will most likely receive a long-term debt rating. In determining which type of rating, if any, to assign, S&P Global Ratings’ analysis will review the following considerations:

- Amortization schedule - the larger the final maturity relative to other maturities, the more likely it will be treated as a note; and
- Source of payment - the more dependent the issue is on the market for its refinancing, the more likely it will be treated as a note.

Municipal Short-Term Note rating symbols are as follows:

“SP-1” – A municipal note rated “SP-1” exhibits a strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation.

“SP-2” – A municipal note rated “SP-2” exhibits a satisfactory capacity to pay principal and interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

“SP-3” – A municipal note rated “SP-3” exhibits a speculative capacity to pay principal and interest.

“D” – This rating is assigned upon failure to pay the note when due, completion of a distressed exchange offer, or the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions.

Moody’s uses the Municipal Investment Grade (“MIG”) scale to rate U.S. municipal bond anticipation notes of up to five years maturity. Municipal notes rated on the MIG scale may be secured by either pledged revenues or proceeds of a take-out financing received prior to note maturity. MIG ratings expire at the maturity of the obligation, and the issuer’s long-term rating is only one consideration in assigning the MIG rating. MIG ratings are divided into three levels – “MIG-1” through “MIG-3” while speculative grade short-term obligations are designated “SG”. The following summarizes the ratings used by Moody’s for short-term municipal obligations:

“MIG-1” – This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

“MIG-2” – This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

“MIG-3” – This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

“SG” – This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

“NR” – Is assigned to an unrated obligation.

In the case of variable rate demand obligations (“VRDOs”), a two-component rating is assigned: a long or short-term debt rating and a demand obligation rating. The first element represents Moody’s evaluation of risk associated with scheduled principal and interest payments. The second element represents Moody’s evaluation of risk associated with the ability to receive purchase price upon demand (“demand feature”). The second element uses a rating from a variation of the MIG scale called the Variable Municipal Investment Grade or “VMIG” scale. The rating transitions on the VMIG scale differ from those on the Prime scale to reflect the risk that external liquidity support generally will terminate if the issuer’s long-term rating drops below investment grade.

“VMIG-1” – This designation denotes superior credit quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

“VMIG-2” – This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

“VMIG-3” – This designation denotes acceptable credit quality. Adequate protection is afforded by the satisfactory short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

“SG” – This designation denotes speculative-grade credit quality. Demand features rated in this category may be supported by a liquidity provider that does not have an investment grade short-term rating or may lack the structural and/or legal protections necessary to ensure the timely payment of purchase price upon demand.

“NR” – Is assigned to an unrated obligation.

About Credit Ratings

An **S&P Global Ratings** issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects S&P Global Ratings’ view of the obligor’s capacity and willingness to meet its financial commitments as they come due, and this opinion may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

Moody’s credit ratings must be construed solely as statements of opinion and not statements of fact or recommendations to purchase, sell or hold any securities.

Fitch’s credit ratings provide an opinion on the relative ability of an entity to meet financial commitments, such as interest, preferred dividends, repayment of principal, insurance claims or counterparty obligations. Fitch credit ratings are used by investors as indications of the likelihood of receiving the money owed to them in accordance with the terms on which they invested. Fitch’s credit ratings cover the global spectrum of corporate, sovereign financial, bank, insurance, and public finance entities (including supranational and sub-national entities) and the securities or other obligations they issue, as well as structured finance securities backed by receivables or other financial assets.

Credit ratings provided by **DBRS** are forward-looking opinions about credit risk which reflect the creditworthiness of an issuer, rated entity, and/or security. Credit ratings are not statements of fact. While historical statistics and performance can be important considerations, credit ratings are not based solely on such; they include subjective considerations and involve expectations for future performance that cannot be guaranteed. To the extent that future events and economic conditions do not match expectations, credit ratings assigned to issuers and/or securities can change. Credit ratings are also based on approved and applicable methodologies, models and criteria (“Methodologies”), which are periodically updated and when material changes are deemed necessary, this may also lead to rating changes.

Credit ratings typically provide an opinion on the risk that investors may not be repaid in accordance with the terms under which the obligation was issued. In some cases, credit ratings may also include consideration for the relative ranking of claims and recovery, should default occur. Credit ratings are meant to provide opinions on relative measures of risk and are not based on expectations of any specific default probability, nor are they meant to predict such.

The data and information on which DBRS bases its opinions is not audited or verified by DBRS, although DBRS conducts a reasonableness review of information received and relied upon in accordance with its Methodologies and policies.

DBRS uses rating symbols as a concise method of expressing its opinion to the market, but there are a limited number of rating categories for the possible slight risk differentials that exist across the rating spectrum and DBRS does not assert that credit ratings in the same category are of “exactly” the same quality.

APPENDIX B

Proxy Voting

Issue

Rule 206(4)-6 under the Advisers Act requires every investment adviser to adopt and implement written policies and procedures, reasonably designed to ensure that the adviser votes proxies in the best interest of its clients. The procedures must address material conflicts that may arise in connection with proxy voting. The Rule further requires the adviser to provide a concise summary of the adviser's proxy voting process and offer to provide copies of the complete proxy voting policy and procedures to clients upon request. Lastly, the Rule requires that the adviser disclose to clients how they may obtain information on how the adviser voted their proxies.

SUMMIT GLOBAL INVESTMENTS, LLC does vote proxies on behalf of its clients.

Policy

SUMMIT GLOBAL INVESTMENTS, LLC does vote proxies on behalf of its clients.

Procedures:

1. Upon receipt of proxy voting request, review items to be voted upon and Board recommendations.
2. Log into the proper online voting site and vote in accordance with Board recommendations unless otherwise notified by the Investment Committee.
3. Document the company, items voted on, and how SUMMIT GLOBAL INVESTMENTS, LLC voted on the proxy spreadsheet.

Procedures for SUMMIT GLOBAL INVESTMENTS, LLC's Receipt of Class Actions

The following procedures outline SUMMIT GLOBAL INVESTMENTS, LLC's receipt of "Class Action" documents from clients and custodians. It is SUMMIT GLOBAL INVESTMENTS, LLC's position not to file these "Class Action" documents, but if received will follow these guidelines:

1. If "Class Action" documents are received by SUMMIT GLOBAL INVESTMENTS, LLC from the *Client*, SUMMIT GLOBAL INVESTMENTS, LLC will gather any requisite information it has and forward to the client, to enable the client to file the "Class Action" at the client's discretion. SUMMIT GLOBAL INVESTMENTS, LLC will not file "Class Actions" on behalf of any client.
2. Similarly, if "Class Action" documents are received by SUMMIT GLOBAL INVESTMENTS, LLC from the *Custodian*, SUMMIT GLOBAL INVESTMENTS, LLC will gather any requisite information it has and forward to the client, to enable the client to file the "Class Action" at the client's discretion. SUMMIT GLOBAL INVESTMENTS, LLC will not file "Class Actions" on behalf of any client.
